Sachs, 2014-02-25 Based on theoretical insights from ecofeminism women and development and postmodernism and the convincing empirical work of numerous scholars this book is organized around five aspects of gender relationships with the

environment Part 1 gender divisions of labor Part 2 property rights Part 3 knowledge and strategies for sustainability Part 4 environmental and social movements and Part 5 policy alternatives Examining women's relationship with the environment using these five dimensions provides concrete material examples of how women work with control know and affect the environment and natural resources

**Critical Ecofeminism** Greta Gaard, 2017-06-16 Australian feminist philosopher Val Plumwood coined the term critical ecofeminism to situate humans in ecological terms and non humans in ethical terms for the two tasks are interconnected and cannot be addressed properly in isolation from each other Various using the terms critical ecological feminism critical anti dualist ecological feminism and critical ecofeminism Plumwood's work developed amid a range of perspectives describing feminist intersections with ecopolitical issues i.e. toxic production and toxic wastes indigenous sovereignty global economic justice species justice colonialism and dominant masculinity Well over a decade before the emergence of posthumanist theory and the new materialisms Plumwood's critical ecofeminist framework articulates an implicit posthumanism and respect for the animacy of all earthothers exposing the linkages among diverse forms of oppression and providing a theoretical basis for further activist coalitions and interdisciplinary scholarship Had Plumwood lived another ten years she might have described her work as Anthropocene Ecofeminism Critical Material Ecofeminism Posthumanist Anticolonial Ecofeminism all of these inflections are present in her work Here Critical Ecofeminism advances upon Plumwood's intellectual activist and scholarly work by exploring its implications for a range of contemporary perspectives and issues critical animal studies plant studies sustainability studies environmental justice climate change and climate justice masculinities and sexualities With the insights available through a critical ecofeminism these diverse eco justice perspectives become more robust

Homeworkers in Global Perspective Eileen Boris, Lisa Prugl, 2016-01-28 Homeworkers in Global Perspective documents the lives of homeworkers exploring state policies towards them and describing the innovative ways in which homeworkers organize Moving away from well known already explored cases the essays focus on less known but equally compelling examples organize and covers the major geographic regions of the world and illustrates the diversity of home based work and homeworker organizing

Bamboo Shoots After the Rain Ann C. Carver, Sung-Sheng Yvonne Chang, 1993-01-01 A short story collection hailed as a welcome and valuable addition to our growing knowledge about the inner lives and literary talents of Chinese women Amy Ling author of Between Worlds Women Writers of Chinese Ancestry This remarkable anthology introduces the short fiction of fourteen writers major figures in the literary movements of three generations who represent a range of class ethnic and political perspectives It is filled with unexpected gems such as Lin Hai yin's story of a woman suffering under the feudal system of Old China and Chiang Hsiao yun's optimistic solutions to problems of the elderly in rapidly changing 1980s Taiwan And in between a dozen rich stories of aristocrats comrades wives concubines children mothers sexuality female initiation rape and the tensions between traditional and modern life This is not western feminism with an Asian accent says Bloomsbury Review but a description of

one culture's reality The woman protagonists survive both despite and because of their existence in a changing Taiwan

Feminism and Ecological Communities Christine Cuomo, 2002-09-11 *Feminism and Ecological Communities* presents a bold and passionate rethinking of the ecofeminist movement It is one of the first books to acknowledge the importance of postmodern feminist arguments against ecofeminism whilst persuasively presenting a strong new case for ecological feminism Chris J Cuomo first traces the emergence of ecofeminism from the ecological and feminist movements before clearly discussing the weaknesses of some ecofeminist positions Exploring the dualisms of nature/culture and masculine/feminine that are the bulwark of many contemporary ecofeminist positions and questioning traditional feminist analyses of gender and caring *Feminism and Ecological Communities* asks whether women are essentially closer to nature than men and how we ought to link the oppression of women/people of colour and other subjugated groups to the degradation of nature Chris J Cuomo addresses these key issues by drawing on recent work in feminist ethics as well as the work of diverse figures such as Aristotle John Dewey Donna Haraway and Maria Lugones A fascinating feature of the book is the use of the metaphor of the cyborg to highlight the fluidity of the nature/culture distinction and how this can enrich ecofeminist ethics and politics An outstanding new argument for an ecological feminism that links both theory and practice *Feminism and Ecological Communities* bravely redraws the ecofeminist map It will be essential reading for all those interested in gender studies environmental studies and philosophy

Women, Development, and Communities for Empowerment in Appalachia Virginia Rinaldo Seitz, 1995-05-04 This book is an examination of gender and social change in the coalfields and nearby areas of Southwest Virginia from the standpoint of working class Appalachia women Through intensive life history interviews and participant observation the author explores women's lives within the spheres of family work and community and how women have changed through participating in grassroots community development income generation labor and support groups Grounded in feminist theory the work offers insights into collective action empowerment and development in the United States and relates these issues to international women in development scholarship and practice

*Chicano Culture, Ecology, Politics* Devon G. Peña, 1999-01-01 Until recently mainstream American environmentalism has been a predominantly white middle class movement essentially ignoring the class race and gender dimensions of environmental politics In this provocative collection of original essays the environmental dimensions of the Chicana/o experience are explicitly expressed and debated Employing a variety of genres ranging from poetry to autobiography to theoretical and empirical essays the voices in this collection speak to the most significant issues of environmentalism and social justice recognizing throughout the need for a pluralism of Chicana/o philosophies The contributors provide an excellent basis for understanding how multiple Chicana/o views on the environment play out in the context of dominant social political and economic views *Chicano Culture Ecology Politics* examines a number of Chicana/o ecological perspectives How can the ethics of reciprocity present in Chicana/o agropastoral life be protected and applied on a

broader scale How can the dominant society whose economic structure is invested in placeless mobility take note of the harm caused to land based cultures take responsibility for it and take heed before it is too late Will the larger society be ecologically housebroken before it destroys its home Grounded in actual political struggles waged by Chicana o communities over issues of environmental destruction cultural genocide and socioeconomic domination this volume provides an important series of snapshots of Chicana o history Chicano Culture Ecology Politics illuminates the bridges that exist and must be understood between race ethnicity class gender politics and ecology CONTENTS Part 1 IndoHispano Land Ethics Los Animalitos Culture Ecology and the Politics of Place in the Upper R o Grande Devon G Pe a Social Action Research Bioregionalism and the Upper R o Grande Rub n O Mart nez Notes on Home Land Ethics Ideas Values and the Land Reyes Garc a Part 2 Environmental History and Ecological Politics Ecological Legitimacy and Cultural Essentialism Hispano Grazing in Northern New Mexico Laura Pulido The Capitalist Tool the Lawless and the Violent A Critique of Recent Southwestern Environmental History Devon G Pe a and Rub n O Mart nez Ecofeminism and Chicano Environmental Struggles Bridges across Gender and Race Gwyn Kirk Philosophy Meets Practice A Critique of Ecofeminism through the Voices of Three Chicana Activists Malia Davis Part 3 Alternatives to Destruction The Pasture Poacher a poem Joseph C Gallegos Acequia Tales Stories from a Chicano Centennial Farm Joseph C Gallegos A Gold Mine an Orchard and an Eleventh Commandment Devon G Pe a

**Managing Development** Kathleen Staudt, 1991-04-01 The text is illustrated with many development cases hypothetical situations examples and role playing exercises The book is well researched and well written It will be useful to students and teachers of development administration RISA Staudt s very readable text is peppered with numerous illustrative examples from throughout the world including the United States and other developed countries that bring potentially esoteric issues to life Also included are brief case studies role playing exercises and staggered assignments for individual projects that can be used by imaginative instructors to promote hands on involvement An appendix lists other useful sources for case materials and the book contains numerous valuable references to the recent literature on development Gregory D Schmidt Northern Illinois University This book offers interesting features at both the pedagogical and analytical levels The author s interdisciplinary approach as well as her macro and micro perspectives give valuable insight into the highly complex world of the management of development International Review of Administrative Sciences This is a superb text one that will be required reading by all scholars in the field of development It is particularly important for its contribution to recent scholarship and its use of new innovative approaches to development This book is a breath of fresh air in a field full of platitudes and old ideas It will improve both thinking and teaching about development management Jane L Parpart Dalhousie University Nova Scotia Canada Long overdue This text is not only gender sensitive but interdisciplinary theoretically grounded policy relevant and best of all interesting to read Sue Ellen Charlton Colorado State University While theoretically aware and non aligned to any official agency Staudt s approach to development management is

essentially practical and pragmatic Her concern for grassroots participation is combined with a full appreciation of the significance of national and international levels of decision making and implementation and of the roles of both governmental and non governmental organizations In a style that is both direct and clear she informs but does not prescribe about the contexts the techniques the institutions and the sectors in which and with which management operates providing in the process a variety of challenging and realistic case studies She also succeeds admirably in integrating gender as a matter of common sense into the mainstream of international development management concerns David Hirschmann The American University Washington D C This text provides a brilliant juxtaposition of interrelated but hitherto isolated fields in the complex and controversial political economy of development The author brings unique timely insights and formats to bear especially from indigenous Third World activists authors and scholars as well as practitioners She bridges the local and global the political and the technical Her book is particularly welcome at the start of the 1990s as a truly radical departure from the diversions and disappointments of orthodox development administration and structural adjustment Hopefully public policy will not be the same once this text is distributed digested and debated Timothy W Shaw Dalhousie University Nova Scotia Canada Staudt presents a multifaceted comprehensive analysis with illustrative examples drawn from a wide range of countries a worthwhile contribution to recent literature reporting on and assessing the record of governmentally sponsored developmental efforts with a focus on issues of management and administration Woven throughout the text are commendable references to persistent deficiencies such as the dearth of participation by women in development activities and the frequency of a feeling of alienation and distance between institutional staff members and the people they should be serving Another praiseworthy feature is inclusion of many teaching aids such as cases role playing sessions and staggered assignments related to the preparation of individual projects outstanding source for bibliographical information about recent literature on development Public Administration Review A useful book for those involved in development work it moves beyond politics and policy making into organization for action and studies political relationships between people their organizations and the state in development projects Case studies examples and role play exercises are used to build analytic skills Intermediate Technology Bookshop The complexities facing development managers are vast The enormous challenges to understanding the breadth and depth of development transformation are apparent in each level of this process and demand attention Answering the need for a comprehensive introductory resource is Managing Development This fresh perspective on development management analyzes both international and national development agencies and shows the widely differing cultural contexts in which to plan manage and evaluate development programs Stressing political context and process throughout the focus nevertheless in Managing Development is on bureaucratic politics and political relationships between people their organizations and the state in development programs and projects The chapters examine development programs in agriculture and health particularly reproductive health and provide hypothetical situations

examples and roleplay exercises A well integrated treatment of development teaching learning and applications this volume shows that much can be learned from the analysis of both successful and unsuccessful development programs Managing Development is the essential resource for courses in development studies political science comparative politics urban studies and policy studies as well as for planners and researchers in development management **Gender Planning and**

**Development** Caroline Moser,2012-10-12 Gender planning is not an end in itself but a means by which women through a process of empowerment can emancipate themselves Ultimately its success depends on the capacity of women s organizations to confront subordination and create successful alliances which will provide constructive support in negotiating women s needs at the level of household civil society the state and the global system Gender Planning and Development provides an introduction to an issue of primary importance and constant debate It will be essential reading for academics practitioners undergraduates and trainees in anthropology development studies women s studies and social policy *The Ethics of Homelessness: Philosophical Perspectives* ,2020-01-20 This new and expanded edition of G John M Abbarno s anthology The Ethics of Homelessness underscores what is ignored in plain sight people without a home or dwelling are also without privacy and dignity It is argued that they lack moral standing The chapters uncover the harsh realities of poverty where economic value overrides competing human values Naomi Zack argues that homelessness is symbolic of society s materialistic values It has a tendency to resist sufficient charity and perpetuates conditions of injustice Uma Narayan questions whether the homeless have protection under the U S Constitution Other authors present an enlarged sphere of homeless to include runaway children refugees adoptees and the disabled The book demonstrates the value of applied philosophy

**International Sustainable Development Law - Volume III** A. F. Munir Maniruzzaman,Aaron Schwabach, Arthur John Cockfield, A. Dan Tarlock, John C. Dernbach and Gabriela Maria Kutting,2010-10-30 International Sustainable Development Law is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on International Sustainable Development Law reflects on the rights and duties of states and other actors in the development process The chapters range from International Development Law standard applications of economic theory to more radical approaches These three volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs *The Ethics of Homelessness* ,2021-11-22 This book extends the study of homelessness beyond the need of shelter Philosophical exploration exposes the fragility of human fulfillment in contemporary society The authors weave the moral fabric of what it means to be human They show how economic and political values compromise the dignity of homeless persons They argue for recognition of rights for the homeless who otherwise would be voiceless and without membership in the moral community This pioneering contribution instills our moral sensitivity to the homeless condition and justifies our moral responsibility to

change that condition      *The Elgar Companion to Feminist Economics* Janice Peterson, Margaret Lewis, 2001-01-01
