

“

There is only a perspective seeing, only a perspective 'knowing'; and the more affects we allow to speak about one thing, the more eyes, different eyes, we can use to observe one thing, the more complete will our 'concept' of this thing, our 'objectivity,' be.

Psychological Perspectives on Risk and Risk

Analysis Martina Raue, Eva Lerner, Bernhard Streicher, 2018-09-18 This authoritative collection goes beyond economic statistics and probability data to offer a robust psychological understanding of risk perception and risk taking behavior. Expert contributors examine various risk domains in life and pinpoint cognitive, emotional, and personality factors contributing to individual differences in risk taking as well as the many nuances social demographics e.g. culture, gender bring to risk decisions. Coverage takes competing theories and studies into account to identify mechanisms involved in processing and acting on uncertainty. And implications and applications are demonstrated in varied fields from updated risk models for the insurance sector to improved risk communication in health services to considering risk perception in policy decisions. A sampling of the topics: Personality and risk beyond daredevils; risk taking from a temperament perspective; Cognitive developmental and neurobiological aspects of risk judgments; The group effect; social influences on risk identification; analysis and decision making; Cognitive architectures as a scaffolding for risky choice models; Improving understanding of health relevant numerical information; Risk culture as a framework for improving competence in risk management. *Psychological Perspectives on Risk and Risk Analysis* will be of great interest to researchers in and outside of psychology including decision making experts and behavioral economists. Additionally, this volume will appeal to practitioners who often have to make risky decisions such as managers and physicians.

Contemporary Perspectives On Constitutional Interpretation Susan J. Brison, 2018-03-08 Current controversies over abortion, affirmative action, school prayer, hate speech, and other issues have sparked considerable public debate about how the U.S. Constitution should be interpreted. Such controversies along with the changing composition of an often deeply divided Supreme Court have led to a resurgence of interest in theories of constitutional interpretation. This anthology edited by Susan J. Brison and Walter Sinnott-Armstrong presents some of the most exciting and influential contemporary work in this area. Written by ten of the country's most prominent legal scholars, the selections represent a wide variety of interpretive approaches reflecting different political orientations from the far right to the far left. These theorists have drawn on a variety of other disciplines including literature, economics, history, philosophy, and politics and have in turn influenced these fields. The selections were chosen for their accessibility, originality, variety, and importance. Together they provide an excellent introduction to constitutional interpretation as well as a valuable collection for experienced scholars in the field.

Communication Perspectives on HIV/AIDS for the 21st Century Timothy Edgar, Seth M. Noar, Vicki S. Freimuth, 2009-04-09 Reflecting the current state of research into the communication aspects of HIV/AIDS, this volume explores AIDS-related communication scholarship moving forward from the 1992 publication *AIDS: A Communication Perspective*. Editors Timothy Edgar, Seth M. Noar, and Vicki S. Freimuth have developed this up-to-date collection to focus on today's key communication issues in the HIV/AIDS epidemic.

Chapters herein examine the interplay of the messages individuals receive about AIDS at the public level as well as the messages exchanged between individuals at the interpersonal level Acknowledging how the face of HIV AIDS has changed since 1992 the volume promotes the perspective that an understanding of effective communication through both mediated and interpersonal channels is essential to winning the continued battle against AIDS Issues addressed here include Social stigma associated with the disease social support and those living with HIV AIDS and the current state of HIV testing Parent child discussions surrounding HIV AIDS and safer sexual behavior and cultural sensitivity relating to developing HIV prevention and sex education programs The effectiveness of health campaigns to impact attitudes norms and behavior as well as the current state of entertainment education and its ability to contribute to HIV prevention News media coverage of HIV AIDS and the impact of the agenda setting function on public opinion and policy making Health literacy and its importance to the health and well being of those undergoing HIV treatment The role of technological innovations most notably the Internet used for both prevention interventions as well as risky behavior The volume also includes exemplars that showcase the diversity of approaches to health communication used to combat the HIV AIDS epidemic These cases include interpersonal and mass communication mediums traditional along with new media and technology research by academics and practitioners individual as well as community based approaches work based in the United States and internationally and campaigns directed at at risk HIV positive as well as general populations With new topics new contributors and a broadened scope this book goes beyond a revision of the 1992 volume to reflect the current state of communication research on HIV AIDS across key contexts It is designed for academics researchers practitioners and students in health communication health psychology and other areas of AIDS research As a unique examination of communication research it makes an indelible contribution to the growing knowledge base of communication approaches to combating HIV AIDS

What Do Gay Men Want? David Halperin, 2010-04-20 Compelling timely and provocative The writing is sleek and exhilarating It doesn't waste time telling us what it will do or what it has just done it just does it Don Kulick Professor of Anthropology New York University How we can talk about sex and risk in the age of barebacking or condomless sex without invoking the usual bogus and punitive clichés about gay men's alleged low self esteem lack of self control and other psychological deficits Are there queer alternatives to psychology for thinking about the inner life of homosexuality What Do Gay Men Want explores some of the possibilities Unlike most writers on the topic of gay men and risky sex David Halperin liberates gay male subjectivity from psychology demonstrating the insidious ways in which psychology's defining opposition between the normal and the pathological subjects homosexuality to medical reasoning and revives a whole set of unexamined moral assumptions about good sex and bad sex In particular Halperin champions neglected traditions of queer thought including both literary and popular discourses by drawing on the work of well known figures like Jean Genet and neglected ones like Marcel Jouhandeau He shows how the long history of of gay men's uses of abjection can offer an alternative nonmoralistic model for thinking about

gay male subjectivity something which is urgently needed in the age of barebacking Anyone searching for nondisciplinary ways to slow the spread of HIV AIDS among gay men or interested in new modes of thinking about gay male subjectivity should read this book David M Halperin is W H Auden Collegiate Professor of the History and Theory of Sexuality Professor of English Professor of Women s Studies Professor of Comparative Literature and Adjunct Professor of Classical Studies at the University of Michigan

Psychosocial Perspectives on Aids Lydia Temoshok, Andrew S. Baum, 2013-05-13 AIDS and the virus that causes it have challenged the world s scientists health care systems and public health policies as much or more than any medical problem in recorded history Perhaps this is so because this particular infirmity constitutes more than a merely medical problem it is enmeshed in psychological social cultural political and economic contexts This book examines the need for pragmatic and research based suggestions on how to address some important problems related to these contexts Although much basic research in virology and immunology can be accomplished within the biomedical domain biobehavioral disciplines such as behavioral medicine offer more opportunities for the comprehensive approach necessary to confront the AIDS HIV problem The editors of this groundbreaking volume suggest that the very nature of this constantly evolving problem encourages an approach to research and intervention prevention efforts that emphasizes flexibility of response to changing knowledge patterns of the pandemic new treatments and shifts in public opinion and behavior A major triumph in dealing with this phenomenon would include a bridging of the gap between research and applied efforts which has been the largest obstacle for progress to date In this book such previously uncharted territory is explored opening a host of new possibilities for dealing with the very real threat of AIDS

The Bible, Sexuality, and Culture Brian Neil Peterson, 2021-05-26 We are living in a rapidly changing culture Since the 1960s the changes in our sexual ethics have become increasingly problematic How are people especially Evangelicals and other conservative Christians supposed to respond Does the Bible address these seismic changes How is a believer supposed to raise a family in the cultural chaos of the twenty first century If you have asked any of these questions before then this book is for you Peterson argues forcefully that the changes in our culture are a direct result of a postmodern and post Christian cultural rejection of the mandates established by God in the opening two chapters of Genesis The reason Western culture is imploding morally is directly connected to the Enemy s undoing of each of the Genesis mandates established by God for human and cultural flourishing With Western culture s rejection or undoing of every one of God s mandates in Genesis is there any hope for the survival of once thriving Judeo Christian cultures Peterson tackles these and

many other issues in a forthright and unreserved manner This book is not for the faint of heart It is a call for a return to cultural sanity rooted in the fear of God and his Word

Mental Files in Perspective Josef Perner,2025-07-25 Intellectual development is primarily considered a domain specific enterprise Children develop na ve physics a folk psychology theory of mind a na ve biology etc But understanding perspective is a general overarching phenomenon that cuts across such domains in development and in the brain This has important theoretical consequences For instance our folk psychology cannot consist of a uniform theory of mind for explaining behaviour Parts of the theory that are sensitive to perspective differences have to be separated from those that are not A central concern is how perspective is represented in the mind The answer comes from mental files theory A mental file represents or refers to an object It presents the object under a particular mode of presentation perspective Coreferential files refer to the same object and present the object under different perspectives Files thus give us a concrete way to capture perspectives with the tools for basic object cognition This book introduces mental files theory in

relation to object files and discourse referents and then applies it to the development of perspective taking in early childhood and to brain imaging The theory goes well beyond perspective it is the theoretical tool for representing persisting objects tracking them over time and storing knowledge about them From a leading figure in developmental psychology this book addresses a topic much neglected in the cognitive sciences The Context and Content series is a forum for outstanding original research at the intersection of philosophy linguistics and cognitive science The general editor is Francois Recanatini Institut Jean Nicod Paris *Education Studies: Issues & Critical Perspectives* Kassem, Derek, Mufti, Emmanuel, Robinson, John, 2006-08-01 Education Studies is an essential text for Education Studies students It provides a critical account of key issues in education today Themed sections with introductions link the issues discussed in each chapter **New**

Perspectives on Land Registration Amy Goymour, Stephen Watterson, Martin Dixon, 2018-02-08 The Land Registration Act 2002 has been in force for almost fifteen years When enacted the legislation which replaced the Land Registration Act 1925 was intended to offer a clear and lasting framework for the registration of title to land in England and Wales However perhaps confounding the hopes of its drafters the legislation's interpretation and application has since generated many unanticipated problems which demand attention In this book's twenty chapters leading land law scholars Law Commissioners past and present judges and Registry lawyers unpick key technical controversies and expose underlying theoretical and policy concerns Core issues addressed in these chapters include the legitimate ambitions of registration regimes the nature and security of title afforded by registration the resolution of priority disputes affecting registered titles the relationship between the general law and the registration regime and new challenges presented by modern technological developments

Critical Perspectives on Diversity, Equity, and Inclusion in Marketing Gbadamosi, Ayantunji, 2022-05-20 Marketers have attracted criticism from advocates of marketing ethics for not giving equal attention to all consumers In other contexts other nomenclatures such as less privileged or low income consumers are being used to describe consumers However a critical view of the scope of the disadvantaged consumers shows that it is beyond having limited income and encapsulates all forms of limitations that prevent full inclusion in marketplace opportunities Critical Perspectives on Diversity Equity and inclusion in Marketing focuses on exploring diversity equity and inclusion in marketing as related to individuals groups organizations and societies It provides insight into consumption practices diversity inclusion limitations and their theoretical and practical implications Covering topics such as ethnic identity negotiation marketing implications and consumer vulnerability this premier reference source is an eclectic resource for business leaders and managers marketers sociologists DEI professionals libraries students and educators of higher education researchers and academicians Psychological Perspectives in HIV Care Michelle Croston, Sarah Rutter, 2020-07-29 The care paradigm for people with HIV has shifted from managing progressive illness with a poor prognosis to managing a chronic condition Despite this improvement people living with HIV continue to experience considerable stresses so promoting their holistic wellbeing is a key aspect of long term care

This book provides an accessible introduction for healthcare professionals who work with people living with HIV It is designed to help readers understand how care in practice can be more person centred and psychologically focused whilst promoting compassion health and wellbeing Topics covered include self awareness attachment theories and communication as well as key aspects of providing care for people living with HIV such as stigma in young adults neurocognitive issues the sexualized use of drugs managing neuropathic pain and the needs of older adults living with HIV Invaluable reading for health professionals working within multidisciplinary teams that provide care for people living with HIV this book is also a core text for those studying in the area

Putting Risk in Perspective Renée T. White,1999 Today young adults are contracting HIV more rapidly than virtually any period during the past two decades Young women particularly those who are black and Latina are bearing the brunt of this new wave of infection Putting Risk in Perspective explores the many factors associated with HIV infection among young black women HIV infection often occurs as a result of high risk behavior Understanding what causes a young woman to take sexual and reproductive risks requires a consideration of the kinds of life issues she faces Drawing on ethnographic study and interviews RenZe T White introduces to the reader many young women who are dealing with economic pressures family relationships dating and courtship intimate relationship issues and questions of sexual identity These along with the mythology surrounding HIV and AIDS_and knowledge about contraception_influence whether or not a black teenager will engage in risky activity This powerful book shows why the fight against AIDS must incorporate a commitment to improving the social and economic opportunities available to young black women

Women and Justice for the Poor Felice Batlan,2015-04-16 This book re examines fundamental assumptions about the American legal profession and the boundaries between professional lawyers lay lawyers and social workers Putting legal history and women s history in dialogue it demonstrates that nineteenth century women s organizations first offered legal aid to the poor and that middle class women functioning as lay lawyers provided such assistance Felice Batlan illustrates that by the early twentieth century male lawyers founded their own legal aid societies These new legal aid lawyers created an imagined history of legal aid and a blueprint for its future in which women played no role and their accomplishments were intentionally omitted In response women social workers offered harsh criticisms of legal aid leaders and developed a more robust social work model of legal aid These different models produced conflicting understandings of expertise professionalism the rule of law and ultimately the meaning of justice for the poor
