Seeing Through Language Ronald Carter, Walter Nash, 1990-01-01 This book aims to help students with little linguistic experience develop an articulate awareness of language

Text in Education and Society Desmond Allison, 1998 The central place of text as a means of organising language in order to construct what people come to think of as knowledge is a phenomenon affecting all educators students and citizens of modern societies This volume offers various voices and perspectives including those of Ron Carter and Michael Halliday on the role of text in education and society The chapters on text in education explore some ways in which texts can create bonds or raise barriers between educational knowledge and common sense knowledge while the chapters on text in society focus on how personalities and societies are themselves constructed through texts Learning to unpack texts and to consider alternatives is a crucial goal for education and growth especially so in the context of fast changing contemporary societies This book should be of special interest to educators students of language and readers interested in the dynamic relationship between text education and society

Creating Texts Walter Nash, David Stacey, 2014-09-25 *Creating Texts* emphasises a practical approach to composition and enables students to understand what is involved in the creation of a text and to learn from the practice of other writers Extensively rewritten and updated from Walter Nash's earlier volume *Designs in Prose* attention is paid to the general theory of composition in both traditional and original terms so that students are made familiar with the basic resources of composition in grammar and in the lexicon The essence of every chapter is the discussion of examples of text sometimes devised by the authors but more often drawn from the work of authors writing in diverse styles of English This practical approach is most evident in the final section of the book where detailed suggestions for projects and exercises reinforce the connection between theory and practice and encourage students to develop their creative sense and to adapt their style of writing to fit the particular audience and context In addition this section is cross referenced to the main text to allow students to consult easily the relevant chapter

Using English from Conversation to Canon Neil Mercer, Janet Maybin, 1996 In Using English writers from a range of academic disciplines examine a wide variety of texts and discourses including everyday conversation English in the workplace English and Rhetoric literary practices English and popular culture language and literature Highly interdisciplinary in approach this

second in a series of four books provides a coherent introduction to the way in which language is shaped and used in practice. Contributors include Mike Baynham, Guy Cook, Lizbeth Goodman, Janet Maybin, Robin Mercer, Jane Miller and Neil Mercer.

Outside-in, Inside-out Costantino Maeder, Olga Fischer, William J. Herlofsky, Université Catholique de Louvain, Universiteit van Amsterdam, Universität Zürich, 2005-01-01. This fourth volume of the Iconicity series is like its predecessors devoted to the study of iconicity in language and literature in all its forms. Many of the papers turn the notion of iconicity inside out, some suggesting that less is more; others focus on the cognitive factors inside the brain that are important for the iconic phenomena that are produced in the outside world. In addition, this volume includes a paper related to iconicity in music and its interaction with language. Other papers range from the theoretical issues involved in the evolution of language to those that offer many inside-out claims, such as claiming that nouns are derived from pronouns and as such should more properly be called pro-pronouns. Also, this volume includes perhaps the first English language analysis of the iconic aspects of sound symbolism in a prayer from the Koran. This is a truly interdisciplinary collection that should turn some of the notions of iconicity in language and literature outside in and inside out.

Controversies in Applied Linguistics Barbara Seidlhofer, 2003. There are several issues in English teaching on which applied linguists take very different positions, e.g. linguistic imperialism, the validity of critical discourse analysis, the pedagogic relevance of corpus descriptions of language, the theoretical bases of second language acquisition research, the nature of applied linguistics itself. This book presents exchanges between scholars arguing different positions and directs attention to the key points at issue.

The Routledge Handbook of Stylistics Michael Burke, 2023-05-29. This second edition of The Routledge Handbook of Stylistics provides a comprehensive introduction and reference point to key areas in the field of stylistics. The four sections of the volume encompass a wide range of approaches from classical rhetoric to cognitive neuroscience. Issues that are covered include historical perspectives centring on rhetoric, formalism and functionalism; the elements of stylistic analysis, including foregrounding, relevance theory, conversation analysis, narrative, metaphor, speech and thought, presentation and point of view; current areas of influential research, such as cognitive poetics, corpus stylistics, critical stylistics, multimodality, creative writing and reader response; four newly commissioned chapters in the emerging fields of cognitive grammar, forensic linguistics, the stylistics of children's literature and a corpus stylistic study of mental health issues. All of these new chapters are written by leading researchers in their respective fields. Each of the 33 chapters in this volume is written by a specialist. Each chapter provides an introduction to the subject, an overview of its history, an instructive example of how to conduct a stylistic analysis, a section with recommendations for practice and a discussion of possible future developments in the area for readers to follow up on. The Routledge Handbook of Stylistics, second edition, is essential reading for researchers, postgraduates and undergraduate students working in this area.
