Semiotics Of Art Prague School Contributions:

Semiotics of Art Ladislav Matejka, Irwin R. Titunik, 1976 A vital force in European linguistics and literary scholarship in the 1930s the Prague School opened up the rich field of semiotics and art The study of art as the creative use of the sign became one of its principal areas of critical examination and in this collection of 21 essays this concept of semiotics is brought to bear on a wide range of the arts including theater film poetry folk art and painting The editors are professors in the Department of Slavic Languages and Literature at the University of Michigan Ann Arbor [Semiotics of Art](#) Ladislav Matejka, Irwin R. Titunik, 1977 **Semiotics of Art : Prague School Contributions** l Matejka (editor.), 1976

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture **The Practice of Theory** Keith Moxey, 2018-07-05 Many art historians regard poststructuralist theory with suspicion some even see its focus on the political dimension of language as hostile to an authentic study of the past Keith Moxey bridges the gap between historical and theoretical approaches with the provocative argument that we cannot have one without the other If art history is to take part in the processes of cultural transformation that characterize our society he writes then its historical narratives must come to terms with the most powerful and influential theories that currently determine the way in which we conceive of ourselves After exploring how the insights offered by deconstruction and semiotics change our understanding of representation ideology and authorship Moxey himself puts theory into practice In a series of engaging essays accompanied by twenty eight illustrations he first examines the impact of cultural values on Erwin Panofsky's writings Taking a fresh look at work by artists from Albrecht Dürer and Erhard Schön to Barbara Kruger and Julian Schnabel he then examines the process by which he generic boundaries between

high and low art have helped to sustain class and gender differences Making particular reference to the literature on Martin Schongauer Moxey also considers the value of art history when it is reduced to artist s biography Moxey s interpretation of the work of Hieronymus Bosch not only reassesses its intelligence and imagination but also brings to light its pragmatic conformity to elite definitions of artistic genius With his compelling analysis of the politics of interpretation Moxey draws attention to a vital aspect of the cultural importance of history

The Semiotic Sphere Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and devel oped independently in both the Brahmanie and Buddhistic traditions semiotics as an organized undertaking began to 100m only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in

North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the advent ure of the search itself

Methods & Theories of Art History Third Edition Anne D'Alleva,Michael Cothren,2021-08-05 This book is an accessible introduction to the critical theories used in analysing art It covers a broad range of approaches presenting individual arguments controversies and divergent perspectives This edition has been updated to reflect recent scholarship in contemporary art and has been broken down into smaller sections for greater accessibility The book begins with a revised discussion of the difference between method and theory The following chapters apply the varying approaches to works of art some of them new to this edition The book ends with a new conclusion that focuses on the way the study of art is informed by theory

Theoretical Schools and Circles in the Twentieth-Century Humanities Marina Grishakova,Silvi Salupere,2015-04-10 Schools and circles have been a major force in twentieth century intellectual movements They fostered circulation of ideas within and between disciplines thus altering the shape of intellectual inquiry This volume offers a new perspective on theoretical schools in the humanities both as generators of conceptual knowledge and as cultural phenomena The structuralist semiotic phenomenological and hermeneutical schools and circles have had a deep impact on various disciplines ranging from literary studies to philosophy historiography and sociology The volume focuses on a set of loosely interrelated groups with a strong literary linguistic and semiotic component but extends to the fields of philosophy and history the interdisciplinary conjunctions arising from a sense of conceptual kinship It includes chapters on unstudied or less studied groups such as Tel Aviv School of poetics and semiotics or the research group Poetics and Hermeneutics The volume presents a significant supplement to the standard historical accounts of literary critical and related theory in the twentieth century It enhances and complicates our understanding of the twentieth century intellectual and academic history by showing schools and circles in the state of germination dialogue controversy or decline in their respective historical and institutional settings while reaching

simultaneously beyond those dense settings to the new cultural and ideological situations of the twenty first century

Sullivan and a 19th-Century Poetics of Naturalized Architecture** LaurenS. Weingarden,2017-07-05 For most of the twentieth century modernist viewers dismissed the architectural ornament of Louis H Sullivan 1856 1924 and the majority of his theoretical writings as emotional outbursts of an outmoded romanticism In this study Lauren Weingarden reveals Sullivan s eloquent articulation of nineteenth century romantic practices literary linguistic aesthetic spiritual and nationalistic and thus rescues Sullivan and his legacy from the narrow role imposed on him as a pioneer of twentieth century modernism Using three interpretive models discourse theory poststructural semiotic analysis and a pragmatic concept of sign functions she restores the integrity of Sullivan s artistic choices and his historical position as a culminating figure within nineteenth century romanticism By giving equal weight to Louis Sullivan s writings and designs Weingarden shows how he translated both Ruskin s tenets of Gothic naturalism and Whitman s poetry of the American landscape into elemental structural forms and organic ornamentation Viewed as a site where various romantic discourses converged Sullivan s oeuvre demands a cross disciplinary exploration of each discursive practice and its rules of accumulation exclusion reactivation The overarching theme of this study is the interrogation and restitution of those Foucauldian rules that enabled Sullivan to articulate architecture as a pictorial mode of landscape art which he considered co equal with the spiritual and didactic functions of landscape poetry *Semiotics 1980* Michael Herzfeld,Margot D. Lenhart,2012-12-06 This volume contains the majority of the papers presented at the Fifth Annual Meeting of the Semiotic Society of America held in Lubbock Texas October 16 19 1980 The varied styles topics methodologies and intellectual traditions represented here reflect the current state of flux in semiotics a healthy chaos in which new ideas vie for survival and experiment is at a premium Because of this variety we have kept our editorial interventions to a minimum In addition we have refrained from imposing any topical classification While we could have used the panel titles as a taxonomic principle this would not have produced a sufficiently even format We have therefore utilized the alphabetical order of authors surnames as being as tensibly the least loaded These Proceedings represent a current view of the semiotic scene especially in the U S A They also include some work representative of architectural semiotics from the U K We have tried to bring the volume to publication rapidly since the immediacy of the contents would seem to be the primary asset of any such project We would like to express the Society s collective gratitude to the 1980 Program Committee chaired by Richard Bauman University of Texas Austin the Lubbock Local Arrangements Committee chaired by Nancy P Hickerson Texas Tech University and our special thanks to Laurel Phipps of the School of Continuing Education at Texas Tech University The Stage Life of Props Andrew Sofer,2010-02-22 In The Stage Life of

Props Andrew Sofer aims to restore to certain props the performance dimensions that literary critics are trained not to see then to show that these props are not just accessories but time machines of the theater Using case studies that explore the Eucharistic wafer on the medieval stage the bloody handkerchief on the Elizabethan stage the skull on the Jacobean stage the fan on the Restoration and early eighteenth century stage and the gun on the modern stage Andrew Sofer reveals how stage props repeatedly thwart dramatic convention and reinvigorate theatrical practice While the focus is on specific objects Sofer also gives us a sweeping history of half a millennium of stage history as seen through the device of the prop revealing that as material ghosts stage props are a way for playwrights to animate stage action question theatrical practice and revitalize dramatic form Andrew Sofer is Assistant Professor of English Boston College He was previously a stage director

Entertaining Uncertainty in the Early Modern Theater Lauren Robertson,2023-02-09 Lauren Robertson shows how the commercial theater transformed early modernity's crisis of uncertainty into spectacular onstage display **The Voice in Modern Theatre** Jacqueline Martin,2025-03-03 First published in 1991 The Voice in Modern Theatre places voice and speech practice in the theatre in historical and theoretical perspective It traces the development of vocal delivery from its roots in Greek rhetoric and explains the wide range of approaches to the voice in the modern day theatre Taking an international perspective Jacqueline Martin assesses the influence of key theorists with their often conflicting ideologies and of specific directors By focusing on Shakespeare the whole question of contemporary interpretation of the classics and the treatment of verse is addressed A final chapter on actor training compares a number of British training institutions with their European counterparts This book will interest teachers of voice and speech in training institutions and universities directors and actors and teachers and students of modern theatre The Palgrave Handbook of Intermediality Jørgen Bruhn,Asun López-Varela Azcárate,Miriam de Paiva Vieira,2023-12-01 This handbook provides an extensive overview of traditional and emerging research areas within the field of intermediality studies understood broadly as the study of interrelations among all forms of communicative media types including transmedial phenomena Section I offers accounts of the development of the field of intermediality its histories theories and methods Section II and III then explore intermedial facets of communication from ancient times until the 21st century with discussion on a wide range of cultural and geographical settings media types and topics by contributors from a diverse set of disciplines It concludes in Section IV with an emphasis on urgent societal issues that an intermedial perspective might help understand Adapting Chekhov J. Douglas Clayton,Yana Meerzon,2013 This book considers the hundred years of re-writes of Anton Chekhov's work presenting a wide geographical landscape of Chekhovian influences in drama The volume examines the elusive quality of Chekhov's dramatic universe as an intricate mechanism an engine in which his enigmatic characters exist as the dramatic and psychological ciphers we have been decoding for a century and continue to do so Examining the practice and the theory of dramatic adaptation both as intermedial transformation from page to stage and as intramedial mutation from page to page the book presents adaptation as the

emerging genre of drama theatre and film This trend marks the performative and social practices of the new millennium highlighting our epoch's need to engage with the history of dramatic forms and their evolution The collection demonstrates that adaptation as the practice of transformation and as a rethinking of habitual dramatic norms and genre definitions leads to the rejuvenation of existing dramatic and performative standards pioneering the creation of new traditions and expectations As the major mode of the storytelling imagination adaptation can build upon and drive the audience's horizons of expectations in theatre aesthetics Hence this volume investigates the original and transformative knowledge that the story of Chekhov's drama in mutations offers to scholars of drama and performance to students of modern literatures and cultures and to theatre practitioners worldwide
