## **Sentimental Nation The Making Of The Australian Commonwealth:**

The Sentimental Nation John Bradley Hirst, 2000 John Hirst has drawn on previously unexplored material to write a history of the long sometimes difficult and ultimately sentimental process of Australian Federation published on the eve of the Centenary of Federation From Woolloomooloo to 'Eternity': A History of Australian Baptists Ken R. Manley, 2006-06-01 This pioneering study describes the quest of Baptists in the different colonies later states to develop their identity as Australians and Baptists The first comprehensive history of Baptists in Australia with a national focus the Baptist story is traced from their beginnings in 1831 with the first baptisms in Woolloomooloo Bay Sydney in 1832 down to modern times Changes and continuities achievements and failures are carefully analyzed and related to the wider social political and cultural context The first volume covers the period from 1831 until the outbreak of the First World War in 1914 and shows how a strong sense of becoming an Australian Church shaped much of their development from the various types of British Baptists who began the movement in the new nation What it meant to be an Australian Baptist is described using denominational newspapers church records and personal memoirs *The Europeans in Australia* Alan Atkinson, 2014-09-01 This is the third and final volume of the landmark award winning series *The Europeans in Australia* that gives an account of settlement by Britain It tells of the various ways in which that experience shaped imagination and belief among the settler people from the eighteenth century to the end of World War I Volume Three *Nation* tells the story of Australian Federation and the war with a focus as ever on ordinary habits of thought and feeling In this period for the first time the settler people began to grasp the vastness of the continent and to think of it as their own There was a massive funding of education and the intellectual reach of men and women was suddenly expanded to an extent that seemed dazzling to many at the time Women began to shape public imagination as they had not done before At the same time the worship of mere ideas had its victims most obviously the Aboriginal people and the war itself proved what vast tragedies it could unleash The culmination of an extraordinary career in the writing and teaching of Australian history *The Europeans in Australia* grapples with the Australian historical experience as a whole from the point of view of the settlers from Europe Ambitious and unique it is the first such large single author account since Manning Clark's *A History of Australia* **Australia on the World Stage** Bridget Brooklyn, Benjamin T. Jones, Rebecca Strating, 2022-10-18 *Australia on the World Stage* History Politics and International Relations offers a fresh examination of Australia's past and present From the complex interactions of First Nations to modern international relations with significant partners and allies it examines the forces that have influenced the place now called Australia both historically and today It is a unique history told in two parts The first half of the book examines the way Australia acted on the world stage both before and after British colonisation It outlines the evolution of Australia's relationship with the United Kingdom first as colonies then a dominion and finally as an independent nation It finishes with a First Nations perspective on foreign relations The second half of the book provides a wide ranging history of

Australia's dealings with major powers the United States and China as well as its relationships with New Zealand Aotearoa the Pacific Islands Indonesia Japan Antarctica and the United Nations Written by leading and emerging researchers in their fields this book encourages the reader to consider Australia's performance on the world stage over the longue dur e well before the word Australia was ever dreamt up This interdisciplinary work challenges lazy stereotypes that see Australia's international history as fixed and uncontested In revisiting Australia's foreign relations this work also asks the reader to consider its future directions

**Caught on Screen** James Findlay, 2025-09-18 From innocent criminals to radical revolutionaries feisty feminists to manly pioneers egalitarian settlers to violent invaders Caught on Screen shows how over successive generations the shape shifting convict emerged on screen as a potent historical symbol Convicts loom large in Australian history As transported criminals and the first European settlers they have shackled the nation to a curious and contested origin story Historians were largely silent on their exploits until the second half of the twentieth century but before then a tradition of convict representation on screen appeared with the rise of cinema taking hold of the popular imagination From silent films to more recent television series screen culture has elevated the convict experience to become a key historical narrative through which filmmakers and audiences have repeatedly reframed and challenged an understanding of Australia's colonial past Caught on Screen traverses this history of convict representation for the first time Through detailed archival research into their production and reception the book explores engaging case studies produced in Australia and internationally including the work of Douglas Sirk Alfred Hitchcock and Jennifer Kent It illuminates the fact that the convict as historical symbol is one that intersected with and helped to direct major debates about nationalism the legacies of colonisation Aboriginal dispossession and the origins and character of Australian society

**Empire Ascendant** Cees Heere, 2019-12-19 In 1902 the British government concluded a defensive alliance with Japan a state that had surprised much of the world with its sudden rise to prominence For the next two decades the Anglo Japanese alliance would hold the balance of power in East Asia shielding Japan as it cemented its regional position and allowing Britain to concentrate on meeting the German challenge in Europe Yet it was also a relationship shaped by its contradictions Empire Ascendant examines how officials and commentators across the British imperial system wrestled with the implications of Japan's unique status as an Asian power in an international order dominated by European colonial empires On the settlement frontiers of Australasia and North America white colonial elites formulated their own responses to the growth of Japan's power charged by the twinned forces of colonial nationalism and racial anxiety as they designed immigration laws to exclude Japanese migrants developed autonomous military and naval forces and pressed Britain to rally behind their vision of a white empire Yet at the same time the alliance legitimised Japan's participation in great power diplomacy and worked to counteract racist notions of a yellow peril By the late 1900s Japan stood at the centre of a series of escalating inter imperial disputes over foreign policy defence migration and ultimately over the future of the British imperial system itself This account weaves together studies of

diplomacy strategy and imperial relations to pose searching questions about how Japan's entry into the family of civilised nations shaped and was shaped by ideologies of race

**Federations** Chad Rector, 2011-02-23 Why would states ever give up their independence to join federations While federation can provide more wealth or security than self sufficiency states can in principle get those benefits more easily by cooperating through international organizations such as alliances or customs unions Chad Rector develops a new theory that states federate when their leaders expect benefits from closer military or economic cooperation but also expect that cooperation via an international organization would put some of the states in a vulnerable position open to extortion from their erstwhile partners The potentially vulnerable states hold out refusing to join alliances or customs unions and only agreeing to military and economic cooperation under a federal constitution Rector examines several historical cases the making of a federal Australia and the eventual exclusion of New Zealand from the union the decisions made within Buenos Aires and Prussia to build Argentina and Germany largely through federal contracts rather than conquests and the failures of postindependence unions in East Africa and the Caribbean
