Other Stories And Other Stories:

Discovery and Other Stories Thomas McCavour, 2019-07-04 *Discovery and Other Stories* is a third collection of short stories by Thomas McCavour. *Discovery* is a story about the early Vikings and their exploration of America and the Northwest Passage. *Marcus and Mark* is a story about how two boxers in different eras deal with the problem of drug addiction. *Bad Habits* is a story about the adopted son of a nun who becomes a priest. In *Flanders Fields*, he recognizes the poet John McCrae. *True Friends* is a story about life in a retirement residence. *Thanksgiving* is a fun story about how Tom Turkey and Rob Rooster rescue Thanksgiving. *ACDC* is a story about Alex and Dorothy Cross growing old together. *The Carroll Family Choristers* tells about how Fred Carroll acquires a large family of singers. *Dust to Dust* is a story about murder in a love triangle.

Video Verite and Other Stories William Petrick, 2010 In our media saturated world the line between reality and fiction has grown thinner and more confusing. With sharp clear prose and an insider's view of the media, Petrick's stories take us into a hall of mirrors where men and women struggle to understand themselves and their relationships with one another. In a climate defined by images, does love stand a chance when no one is certain what is real? In the title story, an accomplished skydiver goes airborne with a video camera to capture the love of his life, but a small oversight upends his best intentions. In *Sins of the Father*, a man arriving in Huntsville, Texas, to commute his son's death sentence clashes with a documentary producer intent on chasing the story to its bitter end. In *Telling Time*, a corporate video producer conflicted by his own immoral conduct learns that sometimes the absolute truth is the most effective lie.

The Truth and Other Stories Stanislaw Lem, 2021-09-14 Twelve stories by science fiction master Stanislaw Lem, nine of them never before published in English. Of these twelve short stories by science fiction master Stanislaw Lem, only three have previously appeared in English, making this the first new book of fiction by Lem since the late 1980s. The stories display the full range of Lem's intense curiosity about scientific ideas as well as his sardonic approach to human nature, presenting as multifarious a collection of mad scientists as any reader could wish for. Many of these stories feature artificial intelligences or artificial life forms, long a Lem preoccupation. Some feature quite insane theories of cosmology or evolution. All are thought provoking and scathingly funny. Written from 1956 to 1993, the stories are arranged in chronological order. In the title story, *The Truth*, a scientist in an insane asylum theorizes that the sun is alive. *The Journal* appears to be an account by an omnipotent being describing the creation of infinite universes, until in a classic Lem twist it turns out to be no such thing. In *An Enigma*, beings debate whether offspring can be created without advanced degrees and design templates. Other stories feature a computer that can predict the future by 137 seconds, matter destroying spores, a hunt in which the prey is a robot and an electronic brain eager to go on the lam. These stories are peak Lem, exploring ideas and themes that resonate throughout his writing.
