Sharma**

Our Forests Forest Resources In Assam:

Our Forests and Forest Resources in Assam, 1976 **Forests and Ecological History of Assam, 1826-2000** Arupjyoti Saikia, 2011-02-07 This book presents a comprehensive account of the transformation of Assam's forests and ecology from early nineteenth century to the end of the twentieth century. It locates present day ecological conflicts in the colonial era when contest over forest land and resource began to take new shape. Arupjyoti Saikia delineates how forest resources in Assam were mapped and integrated with merchant capitalism since the early nineteenth century. He shows how imperial forestry practices led to changes in traditional resource utilization patterns. The book also examines the political economy of conservation practices. It explores the question of law and conservation role of institutions and organizations and the changing role of the forests in imperial economy. The book argues how the making of forest policy in the postcolonial period was defined by the complexities of the political matrix. It discusses plantation silvicultural practices, protection and regeneration of forests and livelihood practices. The author also analyses public debates surrounding ecology and environmental changes in conservation practices after the 1980 Act.

Forest Resources of the World Raphael Zon, William Norwood Sparhawk, 1923 *Indian Forestry Through the Ages* Sharad Singh Negi, 1994 *Capital and Ecology* Rakhee Bhattacharya, G. Amarjit Sharma, 2023-08-28 This volume studies the intersection of capital and ecology primarily in one of the most sensitive geographies of the world, the Eastern Himalayan region. It looks at how the region has become a melting ground of neoliberal developmentalism and ecological subjectivities with the penetrating forces of global and state capitalism, economic projects and complex power relations. The essays in the volume argue that specific focus on energy infrastructure and energy production has pushed technology and capital towards asset building, which has had an adverse effect on the environment, labour relations, indigenous knowledge systems and traditional livelihood practices in the area. They look at assets like mega dams, electricity transmission networks, natural gas grids, infrastructural and developmental projects and other alternative ventures which require interventions in the natural world and its resource deposits. Interdisciplinary in approach, the volume adopts a variety of lenses: developmentalism, state strategy, indigenous voices, geopolitics and environmentalism to provide a unique and alternative narrative on the various dimensions of the ecological risks and livelihood threats. It will be of great interest to scholars and researchers of politics, development studies, indigenous studies and Asian studies.

Planning for Forest Resources and Biodiversity Management Kailash Chandra Bebarta, 2002

Playing with Nature Sajal Nag, 2017-08-07 North East India is called nature's gift to India. It is mountainous, thickly forested, nourished by massive rainfall, has massive rivers, has a diverse wildlife, inhabited a number of forest dwellers called tribes who cherished environmentalist ethos. The region has been experiencing environmental depletion, which was a result of colonial policies, exploitation of its ecological and mineral resources, large scale trans-border immigration and settlement of people, establishment of the plantation industry through deforestation and the dependence of the dairy industry on grazing.

and other factors This books depicts the precariousness of the environmental situation and traces the history and politics of such degeneration with a view to raise the consciousness of the people of the region towards their environment and save it from further aggravation **Landscape, Culture, and Belonging** Neeladri Bhattacharya, Joy L. K. Pachuau, 2019-05-23

This collection of essays is an important contribution to the new literature on frontier studies and the historiography of Northeast India Moving away from an exclusive dependence on colonial ethnographies the authors build their arguments on a varied range of sources from buranjis to revenue records survey maps to explorers diaries and missionary papers to police files They question the givennes of the categories through which the region is usually described and contest the stereotypes by which the people of the region are primitivized They explore the historical processes whereby the region was surveyed mapped understood represented politically governed economically refigured and historically constituted during the colonial period Though focused on the experience of Northeast India the volume also raises substantive questions about the idea of the frontier and the border the primitive and the modern and the tribal and the settled the local and the trans local **A**

Survey of the Industries and Resources of Eastern Bengal and Assam for 1907-1908 Eastern Bengal and Assam (India), G. N. Gupta, 1908 Science and Modern India: An Institutional History, c.1784-1947: Project of History of Science, Philosophy and Culture in Indian Civilization, Volume XV, Part 4 Das Gupta, 1900 Science and Modern India An Institutional History c 1784 1947 Project of History of Science Philosophy and Culture in Indian Civilization Volume XV Part 4 comprises chapters contributed by eminent scholars It discusses the historical background of the establishment of science institutes that were established in pre Independence India and still exist their functions and their present status This volume discusses Indian science institutes that specialize in a particular field It also delves into the area of engineering sciences *History of Science, Philosophy and Culture in Indian Civilization: pt. 1. Presence of Elephants Paul G. Keil, 2024-10-14 How to dwell in a forest alongside giants avoid disturbing a living god assist an animal with their manners and help an elephant cross the road The Presence of Elephants is an anthropological consideration of coexistence grounded in people s everyday interactions with Asian elephants Drawing on two years of ethnographic fieldwork in Assam Northeast India this book examines human elephant copresence and how minds tasks identities and places are shared between the two species Sharing lives and landscapes with such formidable beings is a continuously shifting and negotiated exchange inherently composed of tensions asymmetries and uncertainties especially in the Anthropocene when breakdowns in communication increasingly have a violent effect Developing a multifaceted picture of human elephant relations in a postcolonial setting each chapter focuses on a different dimension of encounter where elephants adapt to human norms people are subject to elephant projects and novel interspecies possibilities emerge at the threshold of nature and society Vulnerability is a common experience intensified in contemporary human elephant relations

felt through the elephant's power to disrupt and transform human lives as well as the risks these endangered animals are exposed to. This book will be of interest to scholars of multispecies ethnography and human-animal relations, environmental humanities, conservation, and South Asian studies.

Environmental Biology Arvind Kumar, 2005. In Indian context. *The Geography of India*. Britannica Educational Publishing, 2010-04-01. With a landscape as diverse as the multitude of people that inhabit it, India hosts a wide range of communities from remote villages nestled in the Himalayas to thriving urban centers. In many ways, it is a land of contrasts as reflected in its geography shaped as much by the annual monsoon season as the arid deserts that punctuate the nation. In this volume, readers will experience a juxtaposed journey visiting both areas that have remained untouched for centuries and areas of technological advancement that have brought the country to the forefront of innovation.

Livelihoods and Well-Being in the Era of Climate Change Nasrin Banu, Shahab Fazal, 2025-03-11. This volume addresses livelihood vulnerabilities due to climate change-induced socio-environmental stresses among different communities in various geographical locations in India and discusses how the people and communities can become resilient to these stresses. Through multiple case studies and regional analyses, the authors provide a holistic understanding of the impacts of climate change on livelihoods and well-being in India, where other works on the subject are often fragmentary and do not encompass a comprehensive presentation of these topics. This dedicated volume offers this comprehensive coverage, exploring how climate change impacts vulnerable communities and how different actors such as vulnerable people, communities, governments, and NGOs are adopting strategies for resilience and sustainable livelihoods. As the impacts of climate change vary over geographical regions, the book targets a systematic coverage of the issue for different geographical regions in South Asia, India, including the Himalayan region, Hilly Area, Indo-Gangetic Plain, Sundarbans, Mangroves, Coastal lands, Deccan Plateau, and Western Semi-arid and arid areas. The book is intended for social and environmental scientists, geographers, anthropologists, sociologists, regional planners, public administrators, and policymakers.

Shifting Ground Mahesh Rangarajan, K. Sivaramakrishnan, 2014-11-06. Environmental history of India has developed as an important field of inquiry in the last twenty-five years. While providing major insights, the existing scholarship has primarily focused on drawing sharp lines of distinction between geographical spaces: forest, rivers, farms, people, herders, farmers, townspeople, eras, colonial, post-colonial, and so on. The limitations of these sharp divides are brought to the forefront when there is a critical engagement with the region's contested environmental past. *Shifting Ground* brings together an array of essays that pose critical questions regarding India's environmental past and the way it has been approached by scholars. From debunking the idea of a primeval, pristine forest cover to analysing the dynamics that shape human-animal relations to examining the conflicts created by post-Independence projects of rural development and conservation, this volume touches upon the various aspects of environmental studies and juxtaposes them with social history, history of science and technology, and history of trade and culture. Drawing on original case studies, the book not only explores the past but also portrays how its traditions are

often invoked to be deployed in contemporary conflicts those that are often aggravated by the pressures on natural assets created by the recent prosperity and the vaulting aspirations of a rapidly expanding Indian middle class *The Indian Forester* ,1922 **The Routledge International Handbook of Himalayan Environments, Development and Wellbeing** Ben Campbell,Mary Cameron,Tanka Subba,2025-07-21 Shifting dynamics of peoples livelihoods and territories influenced by global warming require new ways of thinking and new kinds of politics beyond the sovereignties of idealized traditional European nation states The Routledge International Handbook of Himalayan Environments Development and Wellbeing features over 70 scholars from the social sciences humanities and natural sciences who explore the interrelationships between environmental change development and wellbeing across the entire Himalayan region from the Indian Himalayas in the east to Bhutan Nepal Tibet TAR India and Gilgit Baltistan in the west Within over 50 chapters the handbook presents engaging field based research on the region s socio cultural diversity climate adaptation and socio economic transformation It examines creative ways Himalayan communities adapt seek wellbeing and respond to environmental and development challenges Lessons about learning from Indigenous and local peoples about governance of forests and water and grassroots conservation practices from the Himalayan region can help inform global networks of researchers and practitioners The handbook will interest scholars students stakeholders and the public about the evolving relationships between Himalayan peoples territories and global warming offering insights into people s creative ways for understanding adapting and seeking wellbeing in environmental relations and development possibilities

As recognized, adventure as without difficulty as experience practically lesson, amusement, as well as concurrence can be gotten by just checking out a ebook **Our Forests Forest Resources In Assam** with it is not directly done, you could believe even more in relation to this life, all but the world.

We present you this proper as with ease as simple way to get those all. We present Our Forests Forest Resources In Assam and numerous book collections from fictions to scientific research in any way. in the course of them is this Our Forests Forest Resources In Assam that can be your partner.
