Islam, Gender, and Democracy in Comparative Perspective Jocelyne Cesari,José Casanova,2017-04-15 The relationship between secularism democracy religion and gender equality has been a complex one across Western democracies and still remains contested When we turn to Muslim countries the situation is even more multifaceted In the views of many western commentators the question of Women Rights is the litmus test for Muslim societies in the age of democracy and liberalism

Especially since the Arab Awakening the issue is usually framed as the opposition between liberal advocates of secular democracy and religious opponents of women's full equality. *Islam, Gender and Democracy in Comparative Perspective* critically re-engages this too simple binary opposition by reframing the debate around Islam and women's rights within a broader comparative literature. Bringing together leading scholars from a range of disciplines it examines the complex and contingent historical relationships between religion, secularism, democracy, law and gender equality. Part One addresses the nexus of religion, law, gender and democracy through different disciplinary perspectives: sociology, anthropology, political science, law. Part Two localizes the implementation of this nexus between law, gender and democracy and provides contextualized responses to questions raised in Part One. The contributors explore the situation of Muslim women's rights in minority conditions to shed light on the gender politics in the modernization of the nation and to ponder on the role of Islam in gender inequality across different Muslim countries.

Women's Movements in International Perspective

M. Molyneux, 2016-01-28. The analysis of gender and political inequality and the women's movements that have contested it has concentrated on the West. In this wide-ranging reevaluation incorporating development studies and political sociology, Maxine Molyneux redresses this balance by analysing Latin American women's movements within liberal, authoritarian and revolutionary states. These studies of Argentina, Nicaragua and Cuba alongside comparative discussions of socialism, women's movements and citizenship examine the complex and persistent interaction of states and women's movements and the diversity of responses engendered.

Imagining Justice John Crank, 2014-09-25. *Imagining Justice* seeks to move away from normative thinking about justice, particularly in the area of justice education, suggesting that what is needed today is a way to think about the enterprise of justice that will capture its full potential. By providing an introduction to the intellectual potential of the field of justice, we can acknowledge that the field is wider than formerly recognized and ultimately imagine the full richness that justice can encompass.

Global Dialogue on Media Dynamics, Trends and Perspectives on Public Relations and Communication

Fong Peng Chew, 2025-01-08. This book contains the proceedings of the International Conference on Public Relations and Media Communication (PRMC) 2024, which explores the dynamic intersections of public relations and media in today's rapidly evolving landscape.
