A Piece of Blue Sky Darrel E. Berg,2016-10-27 *A Piece of Blue Sky* The Dynamics of Faith

turns to Abraham the patriarch of the faith to find both encouragement and challenge In a classic series of sermons on this figure Darrel E Berg explores the dynamics of faith Seeking the parallels between Abrahams path and the course facing an individual seeking to live by faith in todays world he offers several key guiding insights The life of faith is like a pendulum that swings between doubt and trust The person who follows God in faith will face times of sacrifice God desires for individuals by his grace to accept their own identities and to embrace their places in Gods plans A key message of A Piece of Blue Sky is clear Christians lives are not necessarily free from tension or exempt from strife Its encouragement is equally unambiguous despite the swings between enthrallment and discouragement with Gods calling Christians can remain committed like Abraham to remain obedient to God and to follow his guidance for living In A Piece of Blue Sky The Dynamic of Faith one hears clearly that just as Abraham never found all that he sought on his own journey through life Christians today can continue to seek the promised land to which God calls them Even when that journey leads to places where clouds of adversity hang over the life of faith Abrahams example reminds them that God always holds out the promise of a piece of blue sky

The Unknown Sky John Dwyer,2000-12 Has a Miracle Been Televised From The Moon Something has happened at CATLUM 1 an isolated mission in the lunar highlands The Vatican says it wants to know the truth so does the CIA A media storm trooper and his corporate allies plot a deadly scheme while a scientific team is sent from earth to examine the man at the center of the controversy Is he a saint or a dissolute fraud Two women one tied to the past the other to the future also wonder He may hold the answers if there are any

Sky Alert! Les Johnson,2013-02-26 Sky Alert What Happens When Satellites Fail explores for the first time what our modern world would be like if we were suddenly to lose most if not all of our space assets The author demonstrates humankind s dependence on space satellites and show what might happen to various aspects of our economy defense and daily lives if they were suddenly destroyed The book opens with a consideration of how our space assets might be lost in the first place through orbital debris war and solar storms The author then looks at what would happen if our satellites were lost including the effect on weather forecasting and the Global Positioning System explaining GPS in detail and its importance to the military including spy satellites and military reconnaissance commerce civilians communications and remote sensing both resource monitoring and locating and environmental monitoring and science The effects of losing such assets as the International Space Station as well as such research satellites as the Hubble Space Telescope or the Chandra X Ray Observatory are also considered Part III of the book looks at how we can protect our satellites preparing for the worst reducing the growth and amount of orbital debris preventing acts of war in space and hardening against space radiation The book ends on an optimistic note most spacefaring nations are now working together to develop new technologies to reduce the threat posed by orbital debris and in space nuclear detonations and treaties exist to limit the development and use of weapons in space Finally it is hoped that it will not be long before we will be able to better predict and take precautions against solar storms The global economy has now become so dependent upon satellites that
