**Radio Fields** Lucas Bessire, Daniel Fisher, 2012-11-19 Radio is the most widespread electronic medium in the world today As a form of technology that is both durable and relatively cheap radio remains central to the everyday lives of billions of people around the globe It is used as a call for prayer in Argentina and Appalachia to organize political protest in Mexico and Libya and for wartime communication in Iraq and Afghanistan In urban centers it is played constantly in shopping malls waiting rooms and classrooms Yet despite its omnipresence it remains the media form least studied by anthropologists Radio Fields employs ethnographic methods to reveal the diverse domains in which radio is imagined deployed and understood Drawing on research from six continents the volume demonstrates how the particular capacities

and practices of radio provide singular insight into diverse social worlds ranging from aboriginal Australia to urban Zambia Together the contributors address how radio creates distinct possibilities for rethinking such fundamental concepts as culture communication community and collective agency The Novel: An Alternative History, 1600-1800 Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel: An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms Booklist **East European Accessions Index**, 1958
