Raf Gate Guards:

RAF Gate Guards Jim Simpson, 1992 **The RAF's Armourers** Tony Lamsdale, Phil Appleby, 2023-11-23 It is said that one of the earliest trades in the world is that of the armorer Historically it is a profession dated slightly after prostitution but well before banking Since the birth of the Royal Flying Corps in 1912 through to the modern Royal Air Force the role of the armorer has been pivotal Not for nothing did the founder of the RAF Lord Trenchard once declare The armorer without him there is no need for an air force In the years since the need for RAF armorers was first recognized it has been a role that has evolved with the times What has remained constant however is the fact that it is still a fascinating and potentially dangerous trade with many different branches and specialisms In this book the authors one of whom Tony Lamsdale is himself a former RAF armorer reveal the previously untold story of how the trade has adapted to the most modern of military machines the aircraft The authors look at the shared history of the armorer and the RAF through the eyes of those who served These veterans stories span decades and their first hand accounts and insights into conflict and peace time operations demonstrate the qualities and characteristics that make armorers unique The book starts with a brief history of the armorer then before capturing the adventures and exploits of RAF armorers from the Second World War and on into the Cold War The dangerous duties of the armorers on deployment in such places as the Falklands Iran Iraq or Afghanistan are all explored There is also the question of having to learn of bomb dumps the use of small arms and the unique world of the armorer with its own peculiar language and the camaraderie of the crew room With each chapter brought to life through personal anecdotes and shared experiences this book provides an insight into an utterly essential role which has remained largely hidden until now

Battle of Britain The Movie Robert J. Rudhall, Dilip Sarkar, 2023-06-30 Released in 1969 the film Battle of Britain went on to become one of the most iconic war movies ever produced The film drew many respected British actors to accept roles as key figures of the battle including Sir Laurence Olivier as Hugh Dowding and Trevor Howard as Keith Park It also starred Michael Caine Christopher Plummer and Robert Shaw as squadron leaders As well as its large all star international cast the film was notable for its spectacular flying sequences which were on a far grander scale than anything that had been seen on film before At the time of its release Battle of Britain was singled out for its efforts to portray the events of the summer of 1940 in great accuracy To achieve this Battle of Britain veterans such as Group Captain Tom Gleave Wing Commander Robert Stanford Tuck Wing Commander Douglas Bader Squadron Leader Boleslaw Drobinski and Luftwaffe General Adolf Galland were all involved as consultants This detailed description of the making of the film is supported by a mouth watering selection of pictures that were taken during the production stages The images cover not only the many vintage aircraft used in the film but also the airfields the actors and even the merchandise which accompanied the film s release in 1969 plus a whole lot more There are numerous air to air shots of the Spitfires Messerschmitts Hurricanes and Heinkels that were brought together for the film There are also images that capture the moment that Battle of Britain veterans some of whom

were acting as consultants visited the sets Interviews with people who worked on the film such as Hamish Mahaddie John Blake and Ron Goodwin among others bring the story to life

Hawker's Secret Cold War Airfield Christopher Budgen,2020-11-23 A military aviation expert chronicles the decades of breathtaking innovation that took place at Britain's secret airbase In 1951 Hawker Aircraft started using Dunsfold Aerodrome to test its new jet projects The Sea Hawk was followed by the superlative Hunter Then came a radical new engine design for an aircraft capable of vertical take off and landing While nay sayers claimed it would never work the Harrier proved them wrong becoming a vital asset during the Falklands War Then came the Hawk which after completion of the RAF requirement was sold into air arms across the world including the US Navy It was an incredible achievement for a UK design British Aerospace then brought forth its upgraded Harrier the Harrier GR 5 One might expect that this prolific output was the result of some massive industrial plant in the Midlands rather than an isolated aerodrome tucked in the rural hinterland of south Surrey Shrouded in secrecy for most of its life Dunsfold has largely escaped the notice of the general public This volume shines a light on the remarkable work carried out there
