Laurie Schwab Zabin,Sarah C. Hayward,1993 The topic of adolescent pregnancy and childbearing encompasses issues related to sexual activity development and parenting each with its own consequences This volume integrates these issues by examining research from diverse perspectives the authors discuss the biological sociocultural and interpersonal forces that impinge on adolescents The volume focuses on patterns of sexual activity contraceptive use abortion single parenthood adolescent relationships prenatal care and interventions to prevent unwanted adolescent pregnancies Risking the Future
National Research Council Staff,1987 **Risking the Future; Adolescent Sexuality, Pregnancy, and Childbearing**
National Research Childbearing,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1987 02 edition Excerpt younger students use increased more the longer their exposure to the program suggesting that early risk can be reduced with early access to services Finally increased and prompt clinic attendance and increased use of contraception appear to have had a significant impact on pregnancy While conceptions increased dramatically in the control group schools during this period from 32 to 51 percent in the program schools conceptions dropped by 26 percent Zabinetal 1986 The Self Center model differs somewhat from the typical school based clinic Nevertheless if these results can be replicated in other settings they give solid support to the school based clinic movement This program suggests that the provision of free proximate contraceptive services that are linked to a strong education component may accelerate contraceptive behavior among sexually active teenagers without encouraging sexual intercourse among those who are not personally ready for such involvement Further efforts to test this model and compare it with the typical school based clinic model are needed Pregnancy Testing and Counseling Pregnancy testing is available to teenagers in public health centers hospitals family planning clinics and abortion clinics from private physicians and even at many drugstores This service is generally provided at little or no cost to the client In addition home pregnancy tests are becoming increasingly popular among teenagers as well as adult women because they afford an opportunity to detect a suspected pregnancy in privacy at relatively low cost Although they are not a substitute for laboratory testing and a pelvic exam home tests are generally an accurate indicator of pregnancy when properly used Teenagers **HIV, AIDS, and Childbearing** Ruth R. Faden,Nancy E. Kass,1996 Whether with whom and when to have children are among the most precious of our private decisions Increasingly however the interest of others in these decisions raise difficult questions about the role of government and health professionals in influencing reproductive choice Nowhere is this tension felt more keenly than in the context of HIV and AIDS This book takes on the tough issues related to HIV and childbearing Is there a moral right to have children What are the limits of persuasion Are there constitutional constraints on interference with reproduction What are the precedents with restricting the childbearing behavior of women who use drugs The book includes original work by doctors lawyers ethicists

and public health professionals Also included are the experiences of HIV infected women and their health care providers Interviews were conducted over a two year period with HIV infected women and with health care providers from four cities to examine what issues of childbearing in the context of HIV mean to them The book is divided into four sections on medical and public health issues legal issues ethical and social issues and comments from the community It concludes with recommendations for clinical practice and public policy Public policy makers health care providers practitioners in bioethics pediatrics health law and obstetrics gynecology will find this book invaluable when dealing with issues related to HIV and childbearing

Teen Mothers and the Revolving Welfare Door Kathleen Mullan Harris,1997 Kathleen Mullan Harris reveals the relationship between black teenage mothers and the welfare system Does welfare encourage them to maintain a life of dependency How does education marriage and employment impact this relationship How do these women escape dependency Harris s account is based on Frank Furstenberg s Baltimore study which began in the 1960s and has continued for more than 20 years This study traces the paths of these mothers and provides commentary on the changes in the welfare system and the way society perceives welfare recipients Not only are job prospects worse today but so are welfare benefits and the abortion rate has risen drastically
