Western Man and the Modern World: Rivalry, reason, and revolution Leonard Frank James, 1973 **Rivalry, Reason, and Revolution** Leonard Frank James, 1973 One in a five volume series on the history of Western civilization this volume traces the history of Europe and the United States from the twelfth to the eighteenth century **Urban Rivalries in the French Revolution** Ted W. Margadant, 2021-05-11 The reordering of France into a new hierarchy of administrative and judicial regions in 1791 unleashed an intense rivalry among small towns for seats of authority while raising vital issues for the vast majority of the French population Here Ted Margadant tells a lively story of the process of politicization magistrates lawyers merchants and other townspeople who petitioned the National Assembly not only boasted of their own communities and denigrated rival towns but also adopted revolutionary slogans and disseminated new political ideas and practices throughout the countryside The history of this movement offers a unique vantage point for analyzing the regional context of town life and the political dynamics of bourgeois leadership during the French Revolution Margadant explores the institutional crisis of the old regime that brought about the reordering considers the rhetoric and politics of space in the first year of the Revolution and examines the fate of small towns whose districts and law courts were suppressed Combining descriptive narrative with statistical analysis and computer mapping he reveals the important consequences of the new hierarchy for the urban development of France in the post Revolutionary era Revolution with a Human Face James Krapfl, 2013-10-04 In this social and cultural history of Czechoslovakia's gentle revolution James Krapfl shifts the focus away from elites to ordinary citizens who endeavored from the outbreak of revolution in 1989 to the demise of the Czechoslovak federation in 1992 to establish a new democratic political culture Unique in its balanced coverage of developments in both Czech and Slovak lands including the Hungarian minority of southern Slovakia this book looks beyond Prague and Bratislava to collective action in small towns provincial factories and collective farms Through his broad and deep analysis of workers' declarations student bulletins newspapers film footage and the proceedings of local administrative bodies Krapfl contends that Czechoslovaks rejected Communism not because it was socialist but because it was arbitrarily bureaucratic and inhumane The restoration of a basic humanness in politics and in daily relations among citizens was the central goal of the revolution In the strikes and demonstrations that began in the last weeks of 1989 Krapfl argues citizens forged new symbols and a new symbolic system to reflect the humane democratic and nonviolent community they sought to create Tracing the course of the revolution from early idealistic euphoria through turns to radicalism and ultimately subversive reaction *Revolution with a Human Face* finds in Czechoslovakia's experiences lessons of both inspiration and caution for people in other countries striving to democratize their governments Eros and Revolution Javier Sethness Castro, 2016-06-10 In *Eros*

and Revolution Javier Sethness Castro presents a comprehensive intellectual and political biography of the world renowned critical theorist Herbert Marcuse 1898-1979 Investigating the origins and development of Marcuse's dialectical approach vis-à-vis Hegel, Marx, Fourier, Heidegger and Freud as well as the central figures of the Frankfurt School Horkheimer, Adorno, Neumann, Fromm and Benjamin. Sethness Castro chronicles the radical philosopher's lifelong activism in favor of anti-capitalism, anti-fascism and anti-authoritarianism together with Marcuse's defiant revindication of global libertarian socialist revolution as the precondition for the realization of reason, freedom and human happiness. Beyond examining Marcuse's revolutionary life and contributions, moreover, the author contemplates the philosopher's relevance to contemporary struggle especially with regard to ecology, feminism, anarchism and the general cause of worldwide social transformation.

Revolution and War Stephen M. Walt, 2013-08-07 Revolution within a state almost invariably leads to intense security competition between states and often to war. In *Revolution and War*, Stephen M. Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future. In doing so, he explores one of the basic questions of international relations: What are the connections between domestic politics and foreign policy? Walt begins by exposing the flaws in existing theories about the relationship between revolution and war. Drawing on the theoretical literature about revolution and the realist perspective on international politics, he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals. Each state sees the other as both a looming danger and a vulnerable adversary, making war seem both necessary and attractive. Walt traces the dynamics of this argument through detailed studies of the French, Russian and Iranian revolutions and through briefer treatment of the American, Mexican, Turkish and Chinese cases. He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world. An important refinement of realist approaches to international politics, this book unites the study of revolution with scholarship on the causes of war.

Interpreting the French Revolution François Furet, 1981-09-24 The author applies the philosophies of Alexis de Tocqueville and Augustin Cochin to both historical and contemporary explanations of the French Revolution. *Young Adult Reader's Adviser* Marion Sader, 1992-01-30 The best in literature and language arts, mathematics and computer science.

Regional Power Rivalries in the New Eurasia Alvin Z. Rubinstein, Oles M. Smolansky, 2016-09-16 This text discusses the relationship between Russia, Iran and Turkey since the collapse of the Soviet empire. These nations are the main rivals for influence in the Caucasus and Central Asia, with China a distant factor. **The History of the French Revolution** Adolphe Thiers, Frederic Shoberl, 1844 **The History of the French Revolution** M. A. Thiers, 2022-01-26 Reprint of the original first published in 1866. *Shocks and Rivalries in the Middle East and North Africa* Imad Mansour, William R. Thompson, 2020-06-01 *Shocks and Rivalries in the Middle East and North Africa* is the first book to examine issue-driven antagonisms within groups of Middle East and North Africa (MENA) states and their impact on relations within the region. The

volume also considers how shock events such as internal revolts and regional wars can alter interstate tensions and the trajectory of conflict MENA has experienced more internal rivalries than any other region making a detailed analysis vital to understanding the region's complex political cultural and economic history The state groupings studied in this volume include Israel and Iran Iran and Saudi Arabia Iran and Turkey Iran Iraq and Syria Egypt and Saudi Arabia and Algeria and Morocco Essays are theoretically driven breaking the MENA region down into a collection of systems that exemplify how state and nonstate actors interact around certain issues Through this approach contributors shed rare light on the origins persistence escalation and resolution of MENA rivalries and trace significant patterns of regional change Shocks and Rivalries in the Middle East and North Africa makes a major contribution to scholarship on MENA antagonisms It not only addresses an understudied phenomenon in the international relations of the MENA region it also expands our knowledge of rivalry dynamics in global politics
