Xiaoyan Lin, Xiuying Liu, 2024-09-16 This book provides a detailed introduction to the history and development of China's railways, highways, civil aviation, shipping, inland water transportation, tourism, transportation, and coal transportation since the reform and opening up 40 years ago. With the development of transportation technology, the Internet, and e-commerce, China's transportation intelligence, green technology, environmental protection, and network level have continued to improve. This book details the achievements of China's transportation industry and how it effectively promotes and supports China's economic growth. It proposes continuing to rapidly promote the construction of infrastructure such as high-speed railways, highways, bridges, ports, and airports. Road Freight and Privatisation Nabil Abdel-Fattah, Richard Gray, Sharon Cullinane, 2019-05-23

First published in 1999, this volume forms part of the Plymouth Studies in Contemporary Shipping series and focuses on Egyptian road freight privatisation. The series represents a unique collection of papers and edited texts from the leading maritime institute in Western Europe at the University of Plymouth. It covers all aspects of the industry from operations through to the logistical framework that supports the sector. Designed both for practising academics and the shipping and ports industry itself, the series combines the output from some of the leading academic commentators in the world from the UK, Korea, Germany, and Poland, an original and novel contribution to the maritime debate. *EBOOK:*
