Beckett, 2013-06-17 This book situates the picturebook genre within the widespread international phenomenon of crossover literature examining an international corpus of picturebooks including artists books wordless picturebooks and celebrity picturebooks that appeal to readers of all ages Focusing on contemporary picturebooks Sandra Beckett shows that the picturebook has traditionally been seen as a children's genre but in the eyes of many authors illustrators and publishers it is a narrative form that can address any and all age groups Innovative graphics and formats as well as the creative often complex dialogue between text and image provide

multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children's books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult adult themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies, have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation and contributes significantly to the field of children's literature as a whole.

**Young at Art** Susan Striker, 2011-04-01 From the creator of the bestselling Anti Coloring Book series with more than 600,000 copies sold, a new parenting guide to encouraging creativity in preschool-age children. *Young at Art* is the first and only comprehensive book for the general audience about the nature, value, and impact of art on very young children. Directed towards parents and educators of one- to five-year-olds, Susan Striker explains why children's art is not a frill but the very foundation upon which all later fundamental skills are built. She drives home the idea that encouraging children's artistic growth will have beneficial effects on all other aspects of their emotional and intellectual development. At the core of this practical guide is the understanding that art is an important tool in teaching young children crucial concepts related to self-expression, reading, and writing. As opposed to more structured exercises such as coloring on dittos and underlining pictures in workbooks, Striker stresses that scribbling and free drawing experiments are the most important art activities a child can engage in; they better prepare children to read independently as they grow. *Young at Art* provides descriptions for age-appropriate art activities, tips for carrying them out safely, and helps parents recognize what a child's art work should look like at each stage of development. With *Young at Art*, parents will develop realistic expectations of their children's work, learn how to speak to their children about their art, and facilitate skills well beyond their creativity that will benefit children.

American artist whose mobiles are beloved worldwide Calder isms is a collection of fascinating irreverent and often profound  
quotations from the influential modern American sculptor Alexander Calder 1898 1976 who is most famous for his invention  
of what his friend Marcel Duchamp dubbed the mobile Often suspended from ceilings these sculptures feature abstract  
elements frequently painted in bold colors that move and balance in changing harmony Calder s art was dynamic  
unconventional and filled with vitality qualities also displayed by his words which combine the wisdom of a philosopher with  
the ingenuity of a true original Taken from interviews writings and other sources the quotations in Calder isms offer  
memorable insights into Calder s life mind and above all art Why must art be static You look at an abstraction sculptured or  
painted an intensely exciting arrangement of planes spheres nuclei entirely without meaning It would be perfect but it is  
always still The next step in sculpture is motion That visit to Mondrian gave me the shock that converted me It was like the  
baby being slapped to make his lungs start working A mobile has no utility and no meaning It is simply beautiful It has a  
great emotional effect if you understand it Of course if it meant anything it would be easier to understand but it would not be  
worthwhile A title is just like the license plate on the back of a car You use it to say which one you re talking about People
