Selling The President 1920 Albert D Lasker Advertising And The Election Of Warren G Harding:

Selling the President, 1920 John A. Morello, 2001-04-30 Modern advertising moved into the 20th century borne on many vehicles and distinguished by many techniques three of the most frequently used being reason why advertising celebrity endorsements and pre emptive claims Best known for his reason why advertising Albert Davis Lasker president of the Lord Thomas Agency of Chicago championed all three techniques helping Lucky Strike Cigarettes Van Camp s Pork Beans and Sunkist Oranges become business successes His least known but best work was in the political area where he helped the Republicans gain control of Congress in 1918 and with the election of Warren G Harding recapture the White House in 1920 This book covers events leading to Harding s nomination and election and the key role Lasker played in his election Bringing along the tricks he had used to sell soap beer cigarettes and canned food Lasker plunged into political advertising forever changing the way political candidates are publicized *The Man Who Sold America* Jeffrey L. Cruikshank, Arthur W. Schultz, 2010-08-12 We live in an age of persuasion Leaders and institutions of every kind public and private large and small must compete in the marketplace of images and messages This has been true since the advent of mass media from broad circulation magazines and radio through the age of television and the internet Yet there have been very few true geniuses at the art of mass persuasion in the last century In public relations Edward Bernays comes to mind In advertising most Hall of Famers J Walter Thomson David Ogilvy Bill Bernbach Bruce Barton Ray Rubicam and others point to one individual as the father of modern advertising Albert D Lasker And yet Lasker unlike Bernays Thomson Ogilvy and the others remains an enigma Now Jeffrey Cruikshank and Arthur Schultz having uncovered a treasure trove of Lasker s papers have written a fascinating and revealing biography of one of the 20th century s most powerful intriguing and instructive figures It is no exaggeration to say that Lasker created modern advertising He was the first influential proponent of reason why advertising a consumer centered approach that skillfully melded form and content and a precursor to the unique selling proposition approach that today dominates the industry More than that he was a prominent political figure champion of civil rights man of extreme wealth and hobnobber with kings and maharajahs as well as with the likes of Albert Einstein and Eleanor Roosevelt He was also a deeply troubled man who suffered mental collapses throughout his adult life though was able fight through and continue his amazing creative and productive activities into later life This is the story of a man who shaped an industry and in many ways shaped a century *The Republican Party* Ronald Laone, Jay Laone, 2012-03-16 When Ronald Laone s son was eleven he asked his father What does it mean to be a conservative From that simple question came a journey of political enlightenment for father and son one that culminated in The Republican Party a history of the Republican Party leaders and beliefs Beginning with a comprehensive overview of the origins of the Republican Party Laone examines the various political battles of the nineteenth century and how they shaped the party s establishment in 1854 and its core ideologies He then profiles each Republican president from Abraham Lincoln to George W Bush offering a short biography

and major highlights of each one's presidency Laone also reveals the major political firsts of the Republican Party including the first Black US senator the first Hispanic US congressman and the first female US congresswoman recording their significant contributions to the conservative movement A comprehensive bibliography offers titles for further reading Thoroughly researched and educational The Republican Party offers information for those seeking to understand the origins of conservative thinking values and beliefs within the American political system

Novak, Julian E. Zelizer, 2009-01-10 In a series of fascinating essays that explore topics in American politics from the nation s founding to the present day *The Democratic Experiment* opens up exciting new avenues for historical research while offering bold claims about the tensions that have animated American public life Revealing the fierce struggles that have taken place over the role of the federal government and the character of representative democracy the authors trace the contested and dynamic evolution of the national polity The contributors who represent the leading new voices in the revitalized field of American political history

offer original interpretations of the nation's political past by blending methodological insights from the new institutionalism in the social sciences and studies of political culture. They tackle topics as wide ranging as the role of personal character of political elites in the Early Republic to the importance of courts in building a modern regulatory state to the centrality of local political institutions in the late twentieth century. Placing these essays side by side encourages the asking of new questions about the forces that have shaped American politics over time. An unparalleled example of the new political history in action, this book will be vastly influential in the field. In addition to the editors, the contributors are Brian Balogh, Sven Beckert, Rebecca Edwards, Joanne B. Freeman, Richard R. John, Ira Katznelson, James T. Kloppenberg, Matthew D. Lassiter, Thomas J. Sugrue, Michael Vorenberg, and Michael Willrich.

A Man and His Ship Steven Ujifusa, 2012-07-10 In the tradition of David McCullough's grand histories, the sweeping story of one man's quest to build the fastest, finest ocean liner in history set against the politics, culture, and enterprise of twentieth-century America. The story of a great American builder. At the peak of his power in the 1940s and 1950s, William Francis Gibbs was considered America's best naval architect. His quest to build the finest, fastest, most beautiful ocean liner of his time, the S.S. United States, was a topic of national fascination. When completed in 1952, the ship was hailed as a technological masterpiece at a time when "made in America" meant the best. Gibbs was an American original on par with John Roebling of the Brooklyn Bridge and Frank Lloyd Wright of Fallingwater. Forced to drop out of Harvard following his family's sudden financial ruin, he overcame debilitating shyness and lack of formal training to become the visionary creator of some of the finest ships in history. He spent forty years dreaming of the ship that became the S.S. United States. William Francis Gibbs was driven, relentless, and committed to excellence. He loved his ship, the idea of it, and the realization of it, and he devoted himself to making it the epitome of luxury travel during the triumphant post-World War II era. Biographer Steven Ujifusa brilliantly describes the way Gibbs worked and how his vision transformed an industry. *A Man and His Ship* is a tale of ingenuity and enterprise, a truly remarkable journey on land and sea. **Sold American**

Charles F. McGovern, 2009-01-06 At the turn of the twentieth century, an emerging consumer culture in the United States promoted constant spending to meet material needs and develop social identity and self-cultivation. In *Sold American*, Charles F. McGovern examines the key players active in shaping this cultural evolution: advertisers and consumer advocates. McGovern argues that even though these two professional groups invented radically different models for proper spending, both groups propagated mass consumption as a specifically American social practice and an important element of nationality and citizenship. Advertisers, McGovern shows, used nationalist ideals, icons, and political language to define consumption as the foundation of the pursuit of happiness. Consumer advocates, on the other hand, viewed the market with a republican-inspired skepticism and fought commercial incursions on consumer independence. The result, says McGovern, was a redefinition of the citizen as consumer. The articulation of an American Way of Life in the Depression and World War II ratified consumer abundance as the basis of a distinct American culture and history. **Building a Business of Politics** Adam D.

Sheingate, 2016 Today politics is big business Most of the 6 billion spent during the 2012 campaign went to highly paid political consultants In *Building a Business of Politics* a lively history of political consulting Adam Sheingate examines the origins of the industry and its consequences for American democracy Herbert Hoover and the Commodification of Middle-Class America Edward Gale Agran, 2016-08-15 Herbert Hoover rose from a rudimentary background to establish himself as a self made millionaire and leading progressive reformer Until the disaster that hit the nation in 1929 Hoover was known globally as the Great Humanitarian who had saved the lives of scores of millions of Europeans and Asians during and following WWI As Secretary of Commerce through the twenties the Great Engineer constructed, tooled and fine tuned the most powerful economy in the world Hoover was celebrated as a representative product of America's rise to global domination and a formidable voice for progressivism who could finish the job in the White House The Depression was Hoover's undoing but historians recognize they must take account of his considerable contributions to the creation of twentieth century America As we learn more of that America Hoover makes more sense With due consideration of Hoover's accomplishments one can further understand the construction of the American industrial and corporate economy progressivism and the New Deal and political posturing throughout the century Equally significant one can comprehend twentieth century cash box culture and Hoover's formidable contributions as a public servant to the commodification of American life He endeavored to establish that all could fulfill a secure middle class life in essence achieve the American Dream This concept in part was created by Hoover who also was considered one of the nation's public relations geniuses The political establishment continues to build upon the social and cultural foundation he laid That foundation while under stress remains fundamentally sound as the nation enters the twenty first century The criticisms rained down upon American materialism echo dangers Hoover warned against He subscribed to the maxim that a genuinely good society is not one premised upon material values it is established upon a widely distributed sense of well being grounded in service and compassion Hoover never lost sight of the imperative of selflessness for the good of others the nation and oneself within an individualistically driven society rich in comforts and security He sedulously worked to create a middle class identity which spoke to material well being and fundamental decency A true believer Herbert Clark Hoover energetically embraced the American Promise *Drawdown* Jason W. Warren, 2016-10-18 While traditionally Americans view expensive military structure as a poor investment and a threat to liberty they also require the employment of armed forces as a guarantee of that very freedom Beginning with the wars of the English colonies Americans typically increased their military capabilities at the beginning of conflicts only to decrease them at the apparent conclusion of hostilities In this book a stellar team of military historians argue that the United States sometimes managed effective drawdowns sowing the seeds of future victory Yet at other times the drawing down of military capabilities undermined our readiness and flexibility leading to more costly wars and perhaps defeat The political choice to reduce military capabilities is influenced by Anglo American pecuniary decisions

and traditional fears of government oppression and it has been haphazard throughout American history These two factors form the basic American liberty dilemma the vexed relationship between the nation and its military apparatuses from the founding of the first colonies through to present times With the termination of large scale operations in Iraq and the winnowing of forces in Afghanistan the United states military once again faces a significant drawdown in standing force structure and capabilities The political and military debate around how best to affect this force reduction lacks a proper historical perspective This volume aspires to inform this dialogue Not a traditional military history Drawdown analyzes cultural attitudes political decisions and institutions surrounding the maintenance of armed forces Back cover

Fit for the Presidency? Seymour Morris, 2017 Every four years Americans embark on the ultimate carnival the Super Bowl of democracy a presidential election campaign filled with endless speeches debates handshakes and passion But what about the candidates themselves In *Fit for the Presidency* Seymour Morris Jr applies an executive recruiter s approach to fifteen presidential prospects from 1789 to 1980 analyzing their r sum s and references to determine their fitness for the job Were they qualified How real were their actual accomplishments Could they be trusted or were their campaign promises unrealistic The result is a fresh and original look at a host of contenders from George Washington to William McAdoo from DeWitt Clinton to Ronald Reagan Gone is the fluff of presidential campaigns replaced by broad perspective and new insights on candidates seeking the

nation's highest office **Walter Lippmann** Tom Arnold-Forster, 2025-06-03 The life and ideas of one of the twentieth century's leading political thinkers Walter Lippmann 1889-1974 was among the most influential and wide-ranging political writers in modern America. As both a journalist and political theorist, he shaped ideas about liberalism and democracy, the nature of public opinion, US power and empire, and the roles of journalists, experts, and citizens. Tom Arnold-Forster provides a bold historical reassessment of Lippmann's intellectual life, offering fresh perspectives on a career at the intersection of daily news and democratic theory. This incisive book shows how Lippmann helped define the public debates of American liberalism from the Progressive Era to the Cold War. By exploring his ideas in their historical context, Arnold-Forster challenges the claim that Lippmann was primarily a theorist of expertise and technocracy. Instead, Lippmann emerges as a strikingly political thinker, public-facing and multifarious, who focused on what politics meant and how it worked in modern democracies. Covering subjects from press freedom to urban reform to economic and foreign policy while tracing the evolution from his early liberal socialism to later conservative liberalism, this book explores Lippmann's thought as reflecting the protean character of liberal politics and the crises and paradoxes of democracy. *Walter Lippmann: An Intellectual Biography* is a richly historical account of a complex political thinker. Lippmann's ideas played a formative role in the twentieth century and resonate powerfully with our fraught present.
