Mappamundi New And Selected Poems:

Mappamundi Mac Hammond, 1989-01-01 The Reach of Poetry Albert Cook, 1995 Through an insightful analysis of key poets in various Western traditions Cook demonstrates that the best poetry while subject to the language and conditions of its time also rises above these conditions by playing them back against themselves with a freedom whose ineffability is the sign of its ultimate lucidity **Hollow Palaces** Kevin Gardner, John Greening, 2021-09-01 The country house poem was born in the seventeenth century as a fruitful way of flattering potential patrons But the genre's popularity faded ironically just as country house society was emerging It was only when the power and influence of the landed classes had all but ebbed away that poets returned to the theme attracted perhaps by the buildings irresistible dereliction but equally by their often very personal histories This is the first complete anthology of modern country house poems and it shows just how far as Simon Jenkins points out in his Foreword poems can penetrate the souls of buildings Over 160 distinguished poets representing a diversity of class race gender and generation offer fascinating perspectives on stately exteriors and interiors gardens both wild and cultivated crumbling ruins and the extraordinary secrets they hide There are voices of all kinds whether it's Edith Sitwell recreating her childhood W B Yeats and Wendy Cope pondering Lissadell or Simon Armitage's labourer confronting the Lady who's got the lot We hear from noble landowners and loyal or rebellious servants and from many an inquisitive day tripper The book's dominant note is elegiac yet comedy satire even strains of Gothic can be heard among these potent reflections Hollow Palaces reminds us how poets can often be the most perceptive of guides to radical changes in society The book is illustrated by Rosie Greening **Poetry** Harriet Monroe, 2004 **Mappa Mundi** Dennis Phillips, 2019-09-15 Poetry Like the medieval maps from which MAPPA MUNDI takes its title Dennis Phillips 16th volume of poetry is a survey of territory as subjective as it is tangible Riffing off the unstable certainty of medieval world maps MAPPA MUNDI builds on refracts distills distorts and reexamines Phillips past works and recurring themes relying on among other techniques repeated motifs narrative tensions and lyrical condensations Its three parts charting the key elements of city desert and islands MAPPA MUNDI sets a predicate to be expanded in its sequel The Cartographer's Lament *Mappa Mundi* Philip Gross, 2003 The medieval Mappa Mundi showed the real world hedged about with wonders Philip Gross's new poems are as vividly observed and sometimes fabulous as the traveler's tales of antiquity Like those creatures in the margins of old maps they are hybrids of real longings truth and lies Each is a journey open ended and surprising giving glimpses of the Middle East the Pacific North West or a Europe of lost spas These poems explore the spaces that can open between buildings in a city street in the shifting lights of love aging or in the gaps between words Heady and sobering unsettling celebratory they come home with findings from the real world of the senses heart and mind A Poetry Book Society Recommendation **A Directory of American Poets and Fiction Writers** Poets & Writers, Incorporated, 2001 This reference includes the names contact information and publication credits of over 7 400 contemporary American poets fiction writers and performance

Turner and the Art of Water* Carmen Casaliggi,2022-12-20 This book assesses Ruskin s and Turner s mutual interest in the theme of water with particular reference to *The Harbours of England* 1856 Ruskin s book on ships and marine art to which are appended Turner s 12 illustrations of the English ports By considering existing scholarly works on Ruskin and Turner the book begins by demonstrating that the two despite their widely acknowledged relations have rarely been examined in conjunction It raises the question as to how the subject of water inspired the intellectual aesthetic philosophical and scientific climate of the nineteenth century both in Britain and abroad and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies Ruskin s childhood fascination with water is examined in detail while the scientific and spiritual importance of the subject in *Modern Painters* and *The Stones of Venice* is also emphasised and read in parallel

with *The Harbours of England* a detailed account of which is given referring to both text and illustrations Turner's role in Ruskin's understanding of specific water pictures is also reconstructed The book demonstrates that water is important as a multifaceted compendium of contemporary themes for tradition progress nationalism and patriotism find their iconography in its depiction Considering the literary and painterly implications of wateriness the text concludes with a reflection upon the significance of the study of water for Ruskin and Turner and for their age
