## **Michigans Lumbertowns Lumbermen And Laborers In Saginaw Bay City And Muskegon 1870 1905:**

*Michigan's Lumbertowns* Jeremy W. Kilar,1990 Introduction This book examines the interaction of three communities social cultural and economic institutions and assesses the effect on peoples lives Community experience defines the entrepreneurial character of the lumbertowns sawdust barons as well as the character of the laboring mill men This experience explains how the forces for progress induced changes that presaged the socioeconomic future of each lumbertown

**Gentlemen of the Woods** Willa Hammitt Brown,2025-02-18 Lumberjacks the men the myth and the making of an American legend The folk hero Paul Bunyan burly bearded wielding his big ax stands astride the story of the upper Midwest a manly symbol of the labor that cleared the vast north woods for the march of industrialization while somehow also maintaining an aura of pristine nature This idea celebrated in popular culture with songs and folktales receives a long overdue and thoroughly revealing correction in *Gentlemen of the Woods* a cultural history of the life and lore of the real lumberjack and his true place in American history Now recalled as heroes of wilderness and masculinity lumberjacks in their own time were despised as amoral transients Willa Hammitt Brown shows that nineteenth century jacks defined their communities of itinerant workers by metrics of manhood that were abhorrent to the residents of the nearby Northwoods boomtowns valuing risk taking and skill rather than restraint and control Reviewing songs stories and firsthand accounts from loggers Brown brings to life the activities and experiences of the lumberjacks as they moved from camp to camp She contrasts this view with the popular image cultivated by retreating lumber companies that had to sell off utterly barren land This mythologized image glorified the lumberjack and evoked a kindly flannel wearing naturalist hero Along with its portrait of lumberjack life and its analysis of the creation of lumberjack myth *Gentlemen of the Woods* offers new insight into the intersections of race and social class in the logging enterprise considering the actual and perceived roles of outsider lumberjacks and Native inhabitants of the northern forests Anchored in the dual forces of capitalism and colonization this lively and compulsively readable account offers a new way to understand a myth and history that has long captured our collective imagination

[Built on Pines](#) David McMacken,2003 Biography of Michigan lumberman Ammi Willard Wright He made a fortune in Saginaw lumbering in the 19th century His business connections reached into 12 states He became the patron of the town of Alma MI assisting with the founding of Alma College and energizing many other enterprises in the town

[Michigan Memories](#) Larry B. Massie,1994 **The Making of a National Forest** Joseph John Jones,2007 [The Lumberman's Frontier](#) Thomas R. Cox,2010 *With The Lumberman s Frontier* Thomas Cox has

reconstructed a groundbreaking history that stands apart from all previous studies of American forests. Forests were ubiquitous in early America but it was only in selected areas that trees rather than farming attracted settlement. These areas constitute the lumberman's frontier which appeared first in northern New England in the seventeenth century followed by upstate New York, the Allegheny Plateau, the upper Great Lakes states, the Gulf South, and the Far West. The forest frontiers generated capital and building materials important in the nation's development but they also left a legacy of environmental problems, class and urban-rural divisions, and economic frictions. The 1930s marked the end of the lumberman's frontier but these consequences continue to shape attitudes and policies toward forests, most notably the questions: Whose forests are they and how and by whom should forests be used. Drawing upon recent work in social and economic history as well as a wealth of historical data on forest industries and individuals, *The Lumberman's Frontier* neither glorifies economic development nor falls into the maw of gloom and doom. It puts individual actors at center stage, allowing the points of view of the workers and lumbermen to emerge. *The Lumberman's Frontier* will appeal to students and scholars of forestry, public policy, and environmental history as well as to general readers interested in the history and settlement of the United States.

*Liberty and Power in the Old Northwest* Martin J. Hershock, 1996      *Negotiating Relief* Susan Stein-Roggenbuck, 2008. In *Negotiating Relief*, Susan Stein-Roggenbuck examines Michigan's implementation of the New Deal relief programs and the state's reorganization of welfare in 1939. Local officials, social workers, and recipients were key players in the Michigan debates over how best to administer relief. The book sheds important light on the profession of social work and public welfare and the development of nonfederal relief at the state and local levels after 1935. Guided by fiscal localism and a firm belief in home rule, local officials fought to retain control of relief. Stein-Roggenbuck argues that while significant changes occurred in welfare policy as a result of the New Deal, many continuities remained. Among those was the responsibility of families to provide financial support. Often forgotten were those on general relief, individuals who did not fit the federal programs such as Aid to Dependent Children (ADC) and Old Age Assistance (OAA). General relief became a third track of welfare. Drawing on newspaper records, county and city board minutes, social welfare agency records, federal records, and case file records, *Negotiating Relief* gives voice to the numerous groups involved in welfare debates, particularly the recipients of relief. This book adds to our understanding of the local implementation of welfare policy in both rural and urban areas.

*Ethnicity in Michigan* Jack Glazier, Arthur Wesley Helweg, 2001. As the introductory volume in the series *Discovering the Peoples of Michigan*, *Ethnicity in Michigan* outlines the processes of migration as well as the rich relationship between ethnic groups and the trajectories of historical and social change in Michigan. On both state and local levels, issues of identity, race, politics, and shared history inform community development. Jack Glazier and Arthur Helweg provide a substantive general and theoretical overview of the various ethnic groups in Michigan and of the ways in which immigrants both respond to and shape Michigan's particular regional character.

Karamanski, 1989 Examines the interplay between men and technology in the lumbering of Michigan s rugged Upper Peninsula In *Deep Woods Frontier* Theodore J Karamanski examines the interplay between men and technology in the lumbering of Michigan s rugged Upper Peninsula Three distinct periods emerged as the industry evolved The pine era was a rough pioneering time when trees were felled by axe and floated to ports where logs were loaded on schooners for shipment to large cities When the bulk of the pine forests had been cut other entrepreneurs saw opportunity in the unexploited stands of maple and birch and harnessed the railroad to transport logs Finally in the pulpwood era weed trees despised by previous loggers are cut by chain saw and moved by skidder and truck Narrating the history of Michigan s forest industry Karamanski provides a dynamic study of an important part of the Upper Peninsula s economy
