Design by Competition Jack L. Nasar, 1999-02-28 What meanings do buildings and places convey to the people who use and visit them Too often design competitions and signature architecture result in costly eyesores that do not work How can sponsors and clients get more meaningful results In answer to these questions Dr Nasar supported by riveting studies of competitions and Peter Eisenman's competition winning design for the Wexner Center at the Ohio State University suggests the use of pre jury evaluation PJE He shows the potential value of this approach as well as visual quality programming for many kinds of environmental design for which the client wants to convey certain desirable meanings The studies from those specific to the Wexner Center to those covering the scope of history point to an alternative method for shaping the visual form of buildings places and cities

Losers' Consent Christopher J. Anderson, André Blais, Shaun Bowler, Todd Donovan, Ola Listhaug, 2005-01-13 Democratic elections are designed to create unequal outcomes for some to win others have to lose This book examines the consequences of this inequality for the legitimacy of democratic political institutions and systems Using survey data collected in democracies around the globe the authors argue that losing generates ambivalent attitudes towards political authorities Because the efficacy and ultimately the survival of democratic regimes can be seriously threatened if the losers do not consent to their loss the central themes of this book focus on losing how losers respond to their loss and how institutions shape losing While there tends to be a gap in support for the political system between winners and losers it is not ubiquitous The book paints a picture of losers consent that portrays losers as political actors whose experience and whose incentives to accept defeat are shaped both by who they are as individuals as well as the political environment in which loss is given meaning Given that the winner loser gap in legitimacy is a persistent feature of democratic politics the findings presented in this book contain crucial implications for our understanding of the functioning and stability of democracies Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics The General Editors are Professor Alfio Mastropaolo University of Turin and Kenneth Newton University of Southampton and Wissenschaftszentrum Berlin The series is published in association with the European Consortium for Political Research

Transformations of Populism in Europe and the Americas John Abromeit, York Norman, Gary Marotta, Bridget Maria Chesterton, 2015-11-19 The recent resurgence of populist movements and parties has led to a revival of scholarly interest in populism This volume brings together well established and new scholars to reassess the subject and combine historical and theoretical perspectives to shed new light on the history of the subject as well as enriching contemporary discussions In three parts the contributors explore the history of populism in different regions theories of populism and recent populist movements Taken together the contributions included in this book represent the most comprehensive and wide ranging study of the topic to date Questions addressed include What are the essential characteristics of populism Is it important to distinguish between left and right wing populism How can the transformation of populist movements be explained This is the most thorough and up to date comparative historical study of populism available As such it will be of great value to anyone researching or studying the topic

Redistricting and Representation Thomas Brunell, 2010-04-02 Pundits have observed that if so many incumbents are returned to Congress to each election by such wide margins perhaps we should look for ways to increase competitiveness a centerpiece to the American way of life through redistricting Do competitive elections increase voter satisfaction How does voting for a losing candidate affect voters attitudes toward government The not so surprising conclusion is that losing voters are less satisfied with Congress and their Representative but the implications for the way in which we draw congressional and state legislative districts are less straightforward Redistricting and Representation argues that competition in general elections is not the sine qua non of healthy democracy and that it in fact contributes to the low levels of approval of Congress and its members Brunell makes the case for a radical departure from traditional approaches to redistricting arguing that we need to pack districts with as many like minded partisans as possible maximizing the number of winning voters not losers

Management in Networks Hans de Bruijn, Ernst Ten Heuvelhof, 2012-08-21 Getting what you want even if you are the boss isn't always easy. Almost every organization big or small works among a network of competing interests. Whether it's governments pushing through policies, companies trying to increase profits, or even families deciding where to move, houses rarely can decide in isolation from competing interests both within the organization and outside it. In this accessible and straightforward account, Hans de Bruijn and Ernst ten Heuvelhof cast light on multi-stakeholder decision-making. Shunning simplistic models, they reveal the nuts and bolts of decision-making within the numerous dilemmas and tensions at work. Using a diverse range of illustrative examples throughout their perceptive analysis, they examine how different interests can either support or block change and the strategies available in managing a variety of stakeholders. This insightful text provides both depth of understanding and a wealth of advice. It is invaluable reading to students working in business and management, public administration and organizational studies, plus practitioners or actors operating in a range of contexts.

Small Market Health Care Reform United States. Congress. House. Committee on Small Business, 1992 *How the 'real World' is Driving Us Crazy!* Richard C. Hill, 2006 Examines the nature of our winner-loser culture and how this is a big part of why many programmes seeking to bring happiness can actually make things worse. Understanding this enables you to shift your mind into the creative world, way and overcome the increasing burden of disconnection and unhappiness that damages our quality of life.

Social Security Bulletin, 2009 **Bike Lanes are White Lanes** Melody L. Hoffmann, 2016 The number of bicyclists are increasing in the United States, especially among the working class and people of color. In contrast to the demographics of bicyclists in the United States, advocacy for bicycling has focused mainly on the interests of white, upwardly mobile bicyclists, leading to neighborhood conflicts and accusations of racist planning. In *Bike Lanes Are White Lanes*, scholar Melody L. Hoffmann argues that the bicycle has varied cultural meaning as a rolling signifier. That is, the bicycle's meaning changes in different spaces with different people and in different cultures. The rolling signification of the bicycle contributes to building community, influences gentrifying urban planning, and upholds systemic race and class barriers. In this study of three prominent U.S. cities: Milwaukee, Portland, and Minneapolis, Hoffmann examines how the burgeoning popularity of urban bicycling is trailed by systemic issues of racism, classism, and displacement. From a pro-cycling perspective, *Bike Lanes Are White Lanes* highlights many problematic aspects of urban bicycling culture and its advocacy, as well as positive examples of people trying earnestly to bring their community together through bicycling.

Divided Worlds? Challenges in Classics and New Testament Studies Caroline Johnson Hodge, Timothy A. Joseph, Tat-siong Benny Liew, 2023-07-07 This volume brings together scholars from New Testament studies and classics whose fields of study have much in common but are not often in conversation. The contributors explore how the ancient works they study can be resources for thinking critically and creatively about issues that matter today. The essays address our obligation to take positive moral stands on divisive issues of both the past and the present, including empire, racial/ethnic and religious difference, economic inequality.

Evans, 2014-02-03 Competition seems to be an inevitable part of present day elections in the United States However recent publications have debated whether we should encourage or discourage competitive elections In Competitive Elections and Democracy in America Heather Evans closely examines the debate over competition in elections and questions whether or not they are beneficial for democracy in the US Evans clearly lays out the basis of the debate over competition and defines what exactly constitutes a competitive election She then uses an innovative data set that she assembled to analyze the 2006 2010 congressional elections testing whether the competitiveness of an election affects citizens political knowledge political interest and opinions of Congress their representatives and the governmental system as a whole She subsequently evaluates the positive effects that competitive elections have on constituencies and in turn gives equal weight to the negative effects An examination of the effects ugly campaigns have on voters is also incorporated relevant to today s oft used mud slinging campaign tactics Evans concludes with a thoughtful and analytical assessment of whether competition is valuable for elections and how to increase competition if it indeed has merit for political campaigns Through the book s analyses Evans demonstrates that competitive elections do have lasting effects on voters that go beyond just the length of a campaign Her research reinforces the vital role that political competition plays in modern democracies and offers a careful evaluation of how and why competitive elections affect citizens in the US
