McNall, 2019-03-04 In recent years a flurry of

poststructuralist post Marxist and statecentered approaches have emerged in historical and sociological scholarship Far from ignoring these developments the study of class has shaped and been shaped by them As the selections in this volume indicate class analysis changes and develops while sustaining itself as a powerful refined working tool in helping scholars understand the complexities of social and historical processes This volume provides a cross section of the rich body of social theory and empirical research being produced by scholars employing class analysis It demonstrates the variety vibrancy and continuing value of class analysis in historical and sociological scholarship The work of promising young scholars is combined with contributions from well established figures to produce a volume that addresses continuing debates over the relationship between structure and agency the centrality of class relations and the dynamics of class formation class culture and class consciousness

When Doctors Join Unions Grace Budrys, 2018-10-18 Current and anticipated changes in this country's health care system are likely to add momentum to the physicians union movement according to Grace Budrys She documents the emergence and development of the Union of American Physicians and Dentists UAPD founded in the San Francisco Bay area in 1972 and suggests it may be a harbinger of renewed organizing efforts throughout the country Representing both salaried and private practice doctors the UAPD gained strength in the early 1980s during the crisis in malpractice suits and surged again in recent years in response to steadily increasing medical corporatization Budrys argues that the approach to modernization now favored across the country resembles that of the industrialization era As health organizations become larger more centralized and more hierarchical decisions are made further from the work site and some traditional

responsibilities are delegated to lower paid less trained workers Nevertheless the image of blue collar industrial workers organizing into unions is not easily reconciled with our society's image of physicians as highly trained and highly skilled members of a profession long considered the bastion of individualists Budrys suggests that doctors unions in general and the UAPD in particular may provide a model for other nontraditional groups and occupations seeking solutions to contemporary problems in the workplace After discussing the laws governing workers organizing rights and their interpretation by the courts she concludes with commentary on the organizing activity taking place among highly paid and highly educated workers

One Nation, Uninsured Jill Quadagno, 2006-10-09 Every industrial nation in the world guarantees its citizens access to essential health care services every country that is except the United States In fact one in eight Americans a shocking 43 million people do not have any health care insurance at all One Nation Uninsured offers a vividly written history of America's failed efforts to address the health care needs of its citizens Covering the entire twentieth century Jill Quadagno shows how each attempt to enact national health insurance was met with fierce attacks by powerful stakeholders who mobilized their considerable resources to keep the financing of health care out of the government's hands Quadagno describes how at first physicians led the anti reform coalition fearful that government entry would mean government control of the lucrative private health care market Doctors lobbied legislators influenced elections by giving large campaign contributions to sympathetic candidates and organized grassroots protests conspiring with other like minded groups to defeat reform efforts As the success of Medicare and Medicaid in the mid century led physicians and the AMA to start scaling back their attacks the insurance industry began assuming a leading role against reform that continues to this day One Nation Uninsured offers a sweeping history of the battles over health care It is an invaluable read for anyone who has a stake in the future of America's health care system

Intensifying Care Robert L. Brannon, 1994 Focuses on nurses and the reorganization of the nursing labor process during the cost containment era This study discusses changes in the political economy of health care the corporatization of hospitals and the effects on health care workers It also examines the changing forms of nursing labor

Bibliography of the History of Medicine, Craft and Consciousness Joseph Bensman, Robert Lilienfeld, Long out of print and difficult to come by Bensman and Lilienfeld's treatise has achieved the status of an underground masterwork of sociological thought An extended and carefully nuanced essay on the sociology of knowledge its central argument was well defined by the authors in the first edition of 1973 It is our contention that major habits of mind approaches to the world or in phenomenological terms attitudes towards everyday life and specialized attitudes are extensions of habits of thought that emerge and are developed in the practice of an occupation profession or craft We emphasize craft since we focus upon the methods of work techniques methodologies and the social arrangements which emerge in the practice of a profession as being decisive in the formation of world views That argument is advanced against the Marxist tradition that would relate the forms and content of knowledge to the position of the knower in the social

economic and class structure of society It avails itself of the theories and perceptions of Veblen Mannheim Weber Husserl and Alfred Schutz Current Catalog National Library of Medicine (U.S.), *British Books in Print* ,1986 The American Heritage Dictionary of Idioms, Second Edition Christine Ammer,2013 Fifteen years after the publication of the first edition of the American Heritage R Dictionary of Idioms author Christine Ammer has extensively updated and expanded her original text making over 1500 revisions and adding hundreds of new entries such as couch potato elephant in the room senior moment and think outside the box to keep up with the rapidly changing English language *Future Survey* ,1982
