Sells,Mary M. Golden,1972-01-01 The Impact of Socialization on Personality Development David B McCoy,2020-04-11 This publication explores the ways in which certain aspects of personality are acquired through socialization The intent was to gain a broader understanding as to how cultural norms particularly sex roles influence personality development Socialization is discussed in terms of societal norms and standards transmitted by the institutions of the family church educational system government and economic system Agents of the primary socialization of the child through the age of 12 years include the family the public school system peer group associations and television Mechanisms of

socialization include observational learning role taking and social reinforcements The differing male female personalities are in part due to the vast differences in socialization Factors that contribute to children s sex role acquisition include 1 the role of the family in gender identity formation 2 peer pressure to conform to rules regarding sex appropriate behavior and attitudes 3 the impact of television and 4 the significant role that schools play in emphasizing reinforcing and expanding differences that children have when they enter school It is concluded that sex role socialization provides a viable way of understanding the process of personality development because it involves the same principles invoked in other areas of socialization Socialization and Personality Development Zigler E F [Ed.], Child I L., 1975 **Personality in the Social**
