Hiriyanna, William Ralph Inge, 1950 **Perspectives on Vedānta** Rama Rao Pappu, 2023-07-31 Metaphysics, Theology,

and Self Harold H. Oliver, 2006 Professor Oliver's essays propose a system of relational philosophy and theology extending his monograph *A Relational Metaphysic* along new lines Themes developed include the following on the issue of truth in scientific and religious discourse as seen from the claim of their complementarity the problem of Western substantialism as answered by a proposed non and antisubstantialist theory of selfhood as an alternative to the Western ego certain

hermeneutical themes and several themes introducing new facets of relational thought A Comparative History of Ideas

Hajime Nakamura, 1992 Hajime Nakamura argues with remarkable erudition that particular intellectual and social developments can be traced in all great cultures that each culture deals with its problems in about the same order Discussing in their similarities and in their subtle differences ideas from India China Japan and Europe the author considers such inclusive notions as the concept of God the controversy over universals and the nature of orthodoxy and heterodoxy This is a lucid and rewarding book which sets a new standard for dealing with a history of thought across many cultures Journeys

East Harry Oldmeadow, 2004-04-28 *Journeys East* tells the story of the twentieth century's encounters between East and West by exploring the lives of many of the most fascinating scientists intellectuals artists and spiritual seekers of our time

The Bloomsbury Encyclopedia of Philosophers in America John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought *The Bloomsbury Encyclopedia to Philosophers in America* presents an indispensable reference work Selecting over 700 figures from the *Dictionary of Early American Philosophers* and the *Dictionary of Modern American Philosophers* this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction *The Bloomsbury Encyclopedia to Philosophers in America* includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia

Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history **Translation as Citation** Haun

Saussy,2017-11-17 This volume examines translation from many different angles it explores how translations change the languages in which they occur how works introduced from other languages become part of the consciousness of native speakers and what strategies translators must use to secure acceptance for foreign works Haun Saussy argues that translation doesn t amount to the composition in one language of statements equivalent to statements previously made in another language Rather translation works with elements of the language and culture in which it arrives often reconfiguring them irreversibly it creates with a fine disregard for precedent loan words calques forced metaphors forged pasts imaginary relationships and dialogues of the dead Creativity in this form of writing usually considered merely reproductive is the subject of this book The volume takes the history of translation in China from around 150 CE to the modern period as its source of case studies When the first proponents of Buddhism arrived in China creativity was forced upon them a vocabulary adequate to their purpose had yet to be invented A Chinese Buddhist textual corpus took shape over centuries despite the near absence of bilingual speakers One basis of this translating activity was the rewriting of existing Chinese philosophical texts and especially the most exorbitant of all these the collection of dialogues fables and paradoxes known as the Zhuangzi The Zhuangzi also furnished a linguistic basis for Chinese Christianity when the Jesuit missionary Matteo Ricci arrived in the later part of the Ming dynasty and allowed his friends and associates to frame his teachings in the language of early Daoism It would function as well when Xu Zhimo translated from The Flowers of Evil in the 1920s The chance but overdetermined encounter of Zhuangzi and Baudelaire yielded a strange music that retroactively echoes through two millennia of Chinese translation outlining a new understanding of the translator s craft that cuts across the dividing lines of current theories and critiques of translation *Sanskrit and Indian Studies* M. Philosophers John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of

presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought **On Their Own Terms** Benjamin A. Elman, 2009-07-01 Since the mid 19th century imperial reformers Republicans Guomindang party cadres and Communists have all prioritized science and technology Elman offers an account of the evolution of native Chinese science over four centuries under the influence of missionaries In the end he argues the Chinese produced modern science on their own terms **Comparative Studies in Philosophy Presented in Honour of His Sixtieth Birthday** Sarvepalli Radhakrishnan, 1951 *Brahman and Dao* Ithamar Theodor, Zhihua Yao, 2013-11-07 The present geopolitical rise of India and China evokes much interest in the comparative study of these two ancient Asian cultures There are various studies comparing Western and Indian philosophies and religions and there are similar works comparing Chinese and Western philosophy and religion However so far there is no systemic comparative study of Chinese and Indian philosophies and religions Therefore there is a need to fill this gap As such *Brahman and Dao Comparative Studies of Indian and Chinese Philosophy and Religion* is a pioneering volume in that it highlights possible bridges between these two great cultures and complex systems of thought with seventeen chapters on various Indo Chinese comparative topics The book focuses on four themes metaphysics and soteriology ethics body health and spirituality and language and culture **The Journal of Philosophy** , 1951 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 *Philosophy East & West* , 1978 Radhakrishnan, Comparative Studies in Philosophy Presented in Honour of His 60th Birthday.
