Regine,2010-05-05 Principles of Stereotactic Radiosurgery is the only contemporary comprehensive reference for neurosurgeons and radiation oncologists using Gamma Knife and Linear Accelerator technology Each chapter includes specific case presentations representative of the most commonly treated conditions including applications for spinal disorders Chapters conclude with counterpoint experiences oriented to treatment options other than radiosurgery i e medical management standard surgery These counterpoint discussions are written by noted experts and address in greater detail the indications results and complications of their approach and enable readers to improve decision making with regard to choosing treatment options for their own patients Also included is information on important non surgical aspects of radiosurgery including site construction regulatory and billing issues legal concerns and nursing care issues The editors have treated over 3000 patients using this technology and international contributors share their experience as well Radiation in Perspective ,1991 *DHEW Publication* ,1977 **Nuclear Science Abstracts** ,1974 **Style and Function in Roman Decoration** Ellen Swift,2018-04-19 This important book puts forward a new interpretation of Roman decorative art focusing on the function of decoration in the social context It examines the three principal areas of social display and conspicuous consumption in the Roman world social space entertainment and dress and discusses the significance of the decoration of objects and interiors within these contexts drawing examples from both Rome and its environs and the Western provinces from the early Imperial period to Late Antiquity Focusing on specific examples including mosaics and other interior d cor silver plate glass and pottery vessels and jewellery and other dress accessories Swift demonstrates the importance of decoration in creating and maintaining social networks and identities and fostering appropriate social behaviour and its role in perpetuating social convention and social norms It is argued that our

understanding of stylistic change and the relationship between this and the wider social context in the art of the Roman period is greatly enhanced by an initial focus on the particular social relationships fostered by decorated objects and spaces. The book demonstrates that an examination of so called minor art is fundamental in any understanding of the relationship between art and its social context and aims to reinvigorate debate on the value of decoration and ornament in the Roman period and beyond.
