Rediscovering Synodal Church for the Third Millennium

Joseph Scaria Palakeel MST

The twentieth century is rightly described as "the century of the Church" (*Das Jahrhundert der Kirche*) by the Protestant theologian Otto Dibelius.¹ From a Catholic perspective, we can say that the twentieth century has been 'a century of ecclesiologies', considering the blossoming of ecclesiologies both before and after the Second Vatican Council. Several streams of ecclesiological reflections inspired by the biblical studies and historical consciousness got channeled into the Second Vatican Council through the *periti* and the Council Fathers. Marking a definitive shift from the dominant Neo-Scholastic manualist ecclesiology, the Council embraced the fruits of biblical and patristic studies and allowed the insights from the French and German theologies to freely flow into the Council floor and endeavored to renew the Church top to bottom.

In the Council itself, theology of the Church occupied the central position with two Constitutions *Lumen Gentium* (LG) and *Gaudium et Spes* (GS) fully dedicated to the theology of the Church and most of the other documents dealing with the Church in relation to various fields like liturgy and worship, mission, ecumenism, bishops, priests and laity. Canaris, 2021-08-17 This collection marking the centenary of Avery Dulles's birth makes an entirely distinctive contribution to contemporary theological discourse as we approach the second century of the cardinal's influence and the twenty first of Christian witness in the world Moving beyond a festschrift the volume offers both historical analyses of Dulles's contributions and applications of his insights and methodologies to current issues like immigration exclusion and digital culture It includes essays by Dulles's students colleagues and peers as well as by emerging scholars who have been and continue to be indebted to his theological vision and encyclopedic fluency in the ecclesiological developments of the post conciliar Church Though focused more on Catholic and ecumenical affairs than interreligious ones the volume is intentionally outward facing and strives to make clear the diverse and pluralistic contours of the cardinal's nearly unrivaled impact on the North American Church which truly crossed ideological denominational and generational boundaries While critically recognizing the limits and lacunae of his historical moment it serves as one among a multitude of testaments to the notion that the ripples of Avery Dulles's influence continue to widen toward intellectually distant shores **Inside the Vatican** Thomas S.J. Second Thoughts about the Second Coming Ronald J. Allen,Robert D. Cornwall,2023-02-28 Various ideas float around about the subject of last things leading many Christians to conclude that they don t know what to think about the subject Yet at the core of the Christian doctrine of last things lies two simple and complementary hopes that God ever and always offers hope for our individual futures and for the future of the whole world In this helpful book Allen and Cornwall explain how we don t have to subscribe to sensationalist theories or sketchy interpretations to believe in Christian hope They walk the reader through the central biblical teachings on last things and then show the ways the church has interpreted those teachings throughout the centuries In a respectful way the authors demonstrate that end time beliefs centered on the Rapture came into existence only recently and they then offer several more life affirming contemporary interpretations as alternatives The book includes a study guide and web based appendixes designed to help pastors develop both topical and lectionary based sermon series on Christian hope
