Morone, 1998-01-01 This prize winning book reinterprets more than 200 years of American political history as the interplay between the public's dread of government power and its yearning for communal democracy James Morone argues that Americans will never solve their collective problems as long as they instinctively fear all public power as a threat to liberty This revised edition includes a new final chapter about contemporary populism government bashing and democratic wishes Winner of the 1991 Gladys M Kammerer Award The Democratic Wish merits the highest compliments one can accord a public policy book It spotlights a problem that can no longer be evaded And it makes you think Alan Tonelson New York Times Book Review Morone writes with flair and passion The fact that he puts forth a provocative argument and provides concise histories of labor civil rights and health care politics makes this book especially useful for teaching American politics R Shep Melnick Journal of Interdisciplinary History Morone's contribution to our understanding of state building is substantial and profound John S Dryzek American Political Science Review This stimulating reinterpretation of American political history will interest both scholars concerned about the past and citizens concerned about the future Arthur Schlesinger Jr This is a persuasive illuminating study in American political ideas and the disappointments of reform Dean McSweeney American Politics Review

Whatever Happened to the White Picket Fences Restoring the American Dream by Rebuilding

Community Chris McCormick, 2024-08-12 Whatever Happened to the White Picket Fences Restoring the American Dream by

Rebuilding Community demonstrates a clear and consistent thematic continuity throughout its narrative. The central theme revolves around the decline of the American middle class and the erosion of community values with a strong emphasis on the need to rebuild and restore both. The author consistently weaves together personal anecdotes, historical references, and social commentary to support this central theme. They begin by reminiscing about their childhood in the 1960s, a time they perceive as characterized by stronger communities and a more prosperous middle class. This sets the stage for a discussion of the factors that have contributed to the decline of the middle class, such as Reaganomics, corporate greed, and the erosion of unions. The author then explores various strategies for rebuilding the middle class and restoring community values. These include supporting local businesses, promoting vocational education, revitalizing main streets, embracing sustainable practices, and fostering civic engagement. Throughout the document, the author emphasizes the importance of individual action and collective responsibility in achieving these goals. While the document touches upon various subtopics, such as the rise of corporate landlords, the gig economy, and the impact of the COVID-19 pandemic, these are all connected to the central theme of rebuilding the middle class and restoring community. The author effectively links these seemingly disparate topics by highlighting their impact on the economic and social well-being of individuals and communities. The document's continuity is further enhanced by the author's consistent use of language and tone. The writing style is personal and conversational, drawing the reader in with anecdotes and relatable experiences. The author's passion for the subject matter is evident throughout, creating a sense of urgency and inspiring readers to take action.

In conclusion, *Whatever Happened to the White Picket Fences: Restoring the Middle Class by Rebuilding Community* demonstrates strong thematic continuity, effectively weaving together personal experiences, historical context, and social commentary to present a compelling argument for the need to rebuild the middle class and restore community values.

A Failed Vision of Empire Daniel J. Burge, 2022. Since the early twentieth century, historians have traditionally defined manifest destiny as the belief that the United States was destined to expand from coast to coast. This generation of historians has posed manifest destiny as a unifying ideology of the nineteenth century, one that was popular and pervasive and ultimately fulfilled in the late 1840s when the United States acquired the Pacific Coast. However, the story of manifest destiny was never quite that simple. In *A Failed Vision of Empire*, Daniel J. Burge examines the belief in manifest destiny over the nineteenth century by analyzing contested moments in the continental expansion of the United States, arguing that the ideology was ultimately unsuccessful. By examining speeches, plays, letters, diaries, newspapers, and other sources, Burge reveals how Americans debated the wisdom of expansion, challenged expansionists, and disagreed over what the boundaries of the United States should look like. *A Failed Vision of Empire* is the first work to capture the messy, complicated, and yet far more compelling story of manifest destiny's failure, debunking in the process one of the most pervasive myths of modern American history.

The Rise of Common-Sense Conservatism Antti Lepistö, 2021-04-20. In the years following the election of Donald Trump, a victory that hinged on the

votes of white Midwesterners who were both geographically and culturally distant from the media's coastal concentrations there has been a flurry of investigation into the politics of the so-called common man. The notion that the salt of the earth purity implied by this appellation is best understood by conservative politicians is no recent development though. As Antti Lepist shows in his timely and erudite book, the intellectual wellsprings of conservative common sense discourse are both older and more transnational than has been thought. In considering the luminaries of American neoconservative thought among them Irving Kristol, Gertrude Himmelfarb, James Q. Wilson, and Francis Fukuyama, Lepist argues that the centrality of their conception of the common man accounts for the enduring power and influence of their thought. Intriguingly, Lepist locates the roots of this conception in the eighteenth-century Scottish Enlightenment, revealing how leading neoconservatives weaponized the ideas of Adam Smith, Thomas Reid, and David Hume to denounce postwar liberal elites, educational authorities, and social reformers. Their reconfiguration of Scottish Enlightenment ideas ultimately gave rise to a defining force in modern conservative politics: the common sense of the common man. Whether twenty-first-century politicians who invoke the grievances of the people are conscious of this unusual lineage or not, Lepist explains both the persistence of the trope and the complicity of some conservative thinkers with the Trump regime.

The Rise of the Imperial Self Ronald William Dworkin, 1996. The Rise of the Imperial Self establishes a genealogy of aristocracy and places America firmly within an aristocratic tradition originally articulated by St. Augustine but adapted to American society by Alexis de Tocqueville. Ronald W. Dworkin then traces the evolution of American culture from Tocqueville's America, when American aristocracy was defined by a love of something beyond the self, to today's preoccupation with individuality, self-expression, autonomy, and self-esteem: the imperial self.

America's Rise to Greatness Under God's Covenant Miles Huntley Hodges, 2020-04-26. This book is part of a three-part series on America as a Covenant Nation. This volume covers from the rise of America's industrial revolution in the late 1800s to America's taking the position in the Cold War 1950s as the leader of the Free World. It is a typical social, political, economic, and military history of America, untypical, however, in how it connects the intellectual, moral, and spiritual character of America with those same social events. It takes the reader through the days of Western imperialism, World War One, the Roaring Twenties, the Great Depression, World War Two, the beginning of the Cold War, and finally the age of Middle America's grand success, the 1950s. It focuses heavily on the leaders, most frequently the country's presidents, and how their own personal spirituality shaped their times and the way the Christian community in particular responded to both the social challenges facing it and the spiritual leadership attempting to inspire and guide it. It seeks to give the Christian reader or Secular reader, if he or she is willing to be challenged, a highly detailed knowledge of the historical path, social and spiritual, that has brought us to today's world and its enormous challenges.
