## **Road To Verdun World War Is Most Momentous Battle And The Folly Of Nationalism:**

The Road to Verdun Ian Ousby, 2009-12-23 On February 21 1916 the Germans launched a surprise offensive at Verdun an important fortress in northeastern France sparking a brutal and protracted conflict that would claim more than 700 000 victims The carnage had little impact on the course of the war and Verdun ultimately came to symbolize the absurdity and horror of trench warfare Ian Ousby offers a radical reevaluation of this cataclysmic battle arguing that the French bear tremendous responsibility for the senseless slaughter He shows how the battle's roots lay in the Franco Prussian war and how its legacy helped lay the groundwork for World War II Merging intellectual substance with superb battle writing *The Road to Verdun* is a moving and incisive account of one of the most important battles of the twentieth century From the Trade Paperback edition

International Encyclopedia of Military History James C. Bradford, 2004-12 With its impressive breadth of coverage both geographically and chronologically the *International Encyclopedia of Military History* is the most up to date and inclusive A Z resource on military history From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them the campaigns and wars to the weapons and equipment used in them this international and multi cultural two volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history

**America and World War I** David Woodward, 2013-01-11 *America and World War I* the first volume in the new Routledge Research Guides to American Military Studies series provides a concise annotated guide to the vast amount of resources available on the Great War With over 2 000 entries selected from a wide variety of publications manuscript collections databases and online resources this volume will be an invaluable research tool for students scholars and military history buffs alike The wide range of topics covered include war films and literature to civil military relations to women and war Routledge Research Guides to American Military Studies will include concise easy to use bibliographic volumes on different American military campaigns throughout history as well as tackling timely subjects such as women in the military and terrorism

*Warfare and Society in Europe* Michael S. Neiberg, 2004 Combining a traditional survey of military history with a survey of social issues Michael S Neiberg examines warfare in Europe from the Fashoda conflict in modern day Sudan to the recent war in Iraq

**The Verdun Regiment** Johnathan Bracken, 2018-07-30 This book on French soldiers during WWI is a first class narrative with an abundance of personal testimony from the officers and men of the regiment The Great War Magazine Editor's Choice Although the French fielded the largest number of Allied troops on the Western Front in the First World War the story of their soldiers is little known to English readers The immense size of the French armies the number of battles they fought and the enormous losses they incurred make it difficult for us to comprehend their experience But we can gain a genuine insight by focusing on one of the defining battles of that war at Verdun in 1916 and by looking at it through the eyes of a small group of soldiers who served there That is what Johnathan Bracken does in this meticulously researched detailed and vivid account The French 151st Infantry Regiment spent fifty days

under fire at Verdun in 1916 and another thirty five in 1917 and lost 3 200 soldiers killed or wounded Yet their ordeal was no different from that of hundreds of other infantry units that fought and endured in this meat grinder of a battle Their diaries and memoirs tell their story in the most compelling way and through their words the larger human story of the French soldier during the war comes to life The book recounts the horror of intense artillery bombardments and men mown down in great waves None of this is particularly pretty and the accounts do much to scatter notions of war as a glorious thrilling experience It was vicious and brutal utterly cruel War History Online *World War I Companion* Matthias

Strohn,2013-11-20 A wide ranging and incisive collection of articles covering all aspects of World War I written by some of the leading academics in the field World War I changed the face of the 20th century For four long years the major European powers later joined by America fought in a life or death struggle that would topple the crowned heads of Europe and redraw the map of the Continent It was a conflict unparalleled in its scale which in turn fuelled devastatingly rapid developments in military technology technique and innovation as the belligerent powers sought to break the deadlock on the Western Front and elsewhere In the centenary of the outbreak of the conflict 14 renowned historians from around the world examine some of the key aspects of the war providing a wide ranging analysis of the whole conflict beyond but including the stalemate in the trenches of the Western Front World War I Almanac David R. Woodward,2009 Presents a day by day chronology of the events of World War I and a biographical dictionary of people involved in the conflict Endurance and War Jasen J.

Castillo,2014-04-09 Scholars and military practitioners alike have long sought to understand why some country s militaries fight hard when facing defeat while others collapse In *Endurance and War* Jasen Castillo presents a new unifying theory cohesion theory to explain why national militaries differ in their staying power His argument builds on insights from the literatures on group solidarity in general and military effectiveness in particular which argue that the stronger the ties binding together individuals in a group of any kind the higher the degree of cohesion that a group will exhibit when taking collective action including fighting in war Specifically he argues that two types of ties determine the cohesion and therefore the resilience of a nation s armed forces during war the degree of control a regime holds over its citizens and the amount of autonomy the armed forces possess to focus on training for warfighting Understanding why armed forces differ in their cohesion should help U S military planners better assess the military capabilities of potential adversaries like Iran and North Korea For scholars of international politics cohesion theory can help provide insights into how countries create military power and how they win wars **I Glanced Out the Window and Saw the Edge of the World** Catherine

Halsall,2020-07-08 This book is about WAR not the causes and results not the planning and the campaigns not the artillery and the bombs It is about the heinous crimes committed by the combatants the horrifying experiences of civilians the devastation of cities and villages the killing and the dying the glory leading to revulsion and guilt and the assimilation of suffering that either ends in death or in the triumph of the soul It looks at the struggle of the church to remain faithful and

the servants of the church who seek to bring sense and solace to the victims It discusses antisemitism racism and war itself from biblical perspectives It reveals the unjustifiable reasons for engaging in war and how this brings catastrophic results for all peoples the mental instability of the survivors and the loss and grief of those on the home front In war how can men and women carry out the actions that they do As Viktor Frankl writes After all man is that being who has invented the gas chambers of Auschwitz however he is also that being who has entered those gas chambers upright with the Lord s Prayer or the Shema Yisrael on his lips

**Revolution in China and Russia** Luyang Zhou,2025-06-17 Most scholars believe that China s nationality policy like that of other socialist states imitated the Soviet nationality model a system which has been termed an affirmative action empire This book offers two contributions to the literature which run counter to this convention First it argues that the People s Republic of China PRC and the Soviet Union USSR were different while the PRC was aimed to build an ideal typical nation state the USSR was an open union of nation states that was only temporarily confined to a physical territory Second while scholars who have noted this difference attribute it to contextual factors such as ethnic structure geopolitical status and Russia s intervention into the Chinese Revolution this book contends that context shaped the Sino Soviet difference yet it did not determine it Rather there was significant leeway between the implications of the contextual factors and what the policy designers ultimately established This book probes who held agency and how these individuals bridged this gap

**Marxism and National Identity** Robert Stuart,2006-06-01 Provides the first sustained analysis of the collision between Marxism and nationalism in France at the time of the Dreyfus affair *Dwight Eisenhower and the Holocaust* Jason Lantzer,2023-10-24 Dwight Eisenhower s encounter with the Holocaust altered how he understood the Second World War and shaped how he led the United States and the Western Alliance during the Cold War This book is the first to blend scholarship on Eisenhower World War II and the Holocaust together constructing a narrative that offers new insights into all three all while uncovering the story of how he became among the first to vow that such atrocities would never again be allowed to happen From the moment he stepped foot in the concentration camp Ohrdruf in April 1945 defeating Nazi Germany took on a moral hue for Eisenhower that had largely been absent before It spurred the belief that totalitarianism in all its forms needed to be confronted This conviction shaped his presidency and solidified American engagement in the postwar world Putting these pieces of the story together alters how we view and understand the second half of the twentieth century

**Forty-Seven Days** Mitchell Yockelson,2016-03-01 The gripping account of the U S First Army s astonishing triumph over the Germans in America s bloodiest battle of the First World War the Battle of the Meuse Argonne Get ready to dig into one of the wildest and deadliest battles in history The beautifully researched Forty Seven Days takes you right there and shows you all the minute details from the pings of a bullet to Pershing s confidence and fears Brad Meltzer 1 New York Times bestselling author of The First Conspiracy The Battle of the Meuse Argonne stands as the deadliest clash in American history More than a million untested American soldiers went up against a better trained and

experienced German army costing more twenty six thousand deaths and leaving nearly a hundred thousand wounded Yet in forty seven days of intense combat those Americans pushed back the enemy and forced the Germans to surrender bringing the First World War to an end a feat the British and the French had not achieved after more than three years of fighting In Forty Seven Days historian Mitchell Yockelson tells how General John J Black Jack Pershing s exemplary leadership led to the unlikeliest of victories Also explored is a cast of remarkable individuals including America s original fighter ace Eddie Rickenbacker Corporal Alvin York a pacifist who nevertheless single handedly killed more than twenty Germans and captured 132 artillery officer and future president Harry S Truman innovative tank commander George S Patton and Douglas MacArthur the Great War s most decorated soldier who would command the American army in the Pacific War and in Korea Offering an abundance of new details and insight Forty Seven Days is the definitive account of the First Army s hard fought victory in World War I and the revealing tale of how our military came of age in its most devastating battle Mitchell Yockelson expands our understanding not only of how World War I ended but also of how militaries can change and adapt under conditions of great adversity Max Boot New York Times bestselling author of The Road Not Taken

**Portraits of Remembrance** Margaret Hutchison, Steven Trout, 2020-04-28 Interdisciplinary collection of essays on fine art painting as it relates to the First World War and commemoration of the conflict Although photography and moving pictures achieved ubiquity during the First World War as technological means of recording history the far more traditional medium of painting played a vital role in the visual culture of combatant nations The public s appetite for the kind of up close frontline action that snapshots and film footage could not yet provide resulted in a robust market for drawn or painted battle scenes Painting also figured significantly in the formation of collective war memory after the armistice Paintings became sites of memory in two ways first many governments and communities invested in freestanding panoramas or cycloramas that depicted the war or featured murals as components of even larger commemorative projects and second certain paintings whether created by official artists or simply by those moved to do so emerged over time as visual touchstones in the public s understanding of the war Portraits of Remembrance Painting Memory and the First World War examines the relationship between war painting and collective memory in Australia Austria Belgium Canada Croatia France Germany Great Britain New Zealand Russia Serbia Turkey and the United States The paintings discussed vary tremendously ranging from public murals and panoramas to works on a far more intimate scale including modernist masterpieces and crowd pleasing expressions of sentimentality or spiritualism Contributors raise a host of topics in connection with the volume s overarching focus on memory including national identity constructions of gender historical accuracy issues of aesthetic taste and connections between painting and literature as well as other cultural forms

**Southwest France** ,2003 Complemented by travel advice maps accommodation listings and site descriptions a collection of essays and articles on the region of southwestern France by noted authors travel writers and journalists is organized thematically under such headings as Current Events Food and Drink and Museums and

Monuments Original 15 000 first printing      **World War I** Spencer C. Tucker,2019-05-10 Offers detailed coverage of every country that played a significant role in World War I from key participants including France Germany Great Britain the Ottoman Empire and the United States to smaller nations such as Bulgaria Montenegro and New Zealand World War I A Country by Country Guide is a comprehensive reference exploring the role various nations played in this devastating conflict Each of the 22 country sections provides detailed background information the reasons behind the country s entry into the war a summary of its combat effort in the war a discussion of the home front experience and a description of the war s impact on that nation Illuminating sidebars offer an interesting war anecdote involving each country while essays survey each country s military branches and key military and political leaders Finally a timeline for each nation covers all of the important events involving that country during World War I In addition to the country coverage a battles section offers entries on 18 of World War I s most important engagements and a separate section on weapons and tactical changes is included The book also features dozens of maps and images throughout the text that serve as important visual aids that help readers to understand all aspects of the conflict      **History, Memory and War** Steven Trout,2006-12-01 A collection of essays that seeks to undo Willa Cather s longstanding reputation as a writer who remained aloof from the cultural issues of the day      Why Leaders Lie John J. Mearsheimer,2011 Presents an analysis of the lying behavior of political leaders discussing the reasons why it occurs the different types of lies and the costs and benefits to the public and other countries that result from it with examples from the recent past      **Space Is Power** John Hickman,2016-02-29 From Russia s annexation of Crimea to China s nine dash line in the South China Sea it is clear that territory is as important in international politics now as it has ever been Yet too few contemporary foreign policy makers journalists and scholars are able to speak coherently about territorial issues Space Is Power The Seven Rules of Territory challenges the intellectual conceits that human territoriality is merely a social construct that territorial sovereignty is atavistic that territorial annexation is always irrational and that territorial disputes are provoked by foreign policy makers who seek to divert public attention from more important issues Space Is Power argues that territoriality is too basic to human nature to be denied and territorial sovereignty is too important to the survival of the modern state to be ignored The truths about territory are captured in seven rules some of which are intuitive while others contradict conventional wisdom Rather than anticipating the transcendence of the territorial states this book argues that the unmistakable direction of international politics is toward encompassing ever more physical space as the territory of states      *The Folly of War* Donald E. Schmidt,2005 American historian and political scientist Schmidt s attitude about war changed abruptly in 1991 when a colleague asked him if he would sacrifice his only son to the first Bush s first war on Iraq He offers a critical review of US wars from the great hysteria of the Spanish American War to the contrived War on Terrorism Annotation 2004 Book N

When somebody should go to the book stores, search instigation by shop, shelf by shelf, it is really problematic. This is why we present the ebook compilations in this website.
