Bulletin of the Atomic Scientists, 1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **The Chambers Dictionary** Allied Chambers, 1998

From Iron Fist to Invisible Hand Irene Wu, 2008-10-16 From Iron Fist to Invisible Hand uses telecommunications policy as a window to examine major contradictions in China s growth as an economic and political superpower While China policy analysts wonder why the government occasionally restrains growth and raises prices technologists marvel at how the telecommunications industry continues to grow enormously despite constraints and unpredictability in the market Frustration is pervasive in the business environment where regulations are constantly changing This book provides six policy focused case studies each centered on a question with implications for telecom stakeholders such as Who is the regulator Who are the regulated Which foreigners can enter China thereby regulating wholesale prices setting consumer prices and introducing Internet and innovative technologies These cases explain the government s liberal and conservative approach toward reform the policies that both promote and constrain business and the major hurdles that lie ahead in telecommunications reform **Growing Through Deregulation** Yanrui Wu, 2001 **China's Highway of Information and Communication Technology** J. Yu, R. Li-Hua, 2009-12-18 Based on first hand information obtained from Chinese and Foreign enterprises and institutions in the Chinese ICT industry this book presents a comprehensive analysis of the evolution of Chinese ICT industrial sector It especially analyzes the strengths weaknesses and threats facing both the Chinese enterprise and western multinationals **Think Ahead** David Wu, 2001 **The Chinese Road to High Technology** X. Shen, 1999-04-12 This book provides a detailed insight into China s endeavours to acquire the advanced technical competencies which lie at the heart of modern telecommunications Distinctively detailed first hand material is presented in two contrasting case studies in the field of public digital switching systems The book explores the deep problems that beset the former socialist system how these are changing in the face of China s economic transition and its distinctive technological policy of walking on two legs An invaluable guide to China The Chinese Road to High Technology also offers important insights into the issues facing other developing countries **China's Telecommunications Revolution** Eric Harwit, 2008-02-28 A comprehensive look at China s telecommunications industry this text considers the way Chinese companies and the government acted in concert to put telephones and Internet access in the hands of hundreds of millions in less than 25 years and looks at the consequences of this telecommunications revolution **A Comparative Case Study of Crisis Communication Strategy Between ZTE and Huawei Within China's Telecommunications Industry** Yuting Wu, 2019 Huawei Goes Global Wenxian Zhang, Ilan Alon, Christoph Lattemann, 2020-10-22 Huawei Goes Global provides a much needed comprehensive and scholarly examination of the business environment and the striving global operations of

China's technology giant With theoretical research case studies data analysis and empirical studies this two volume work tells a fascinating story of internationalization in an emerging economy As one of the most powerful Chinese companies in the global economy the largest global telecommunications equipment producer and a leading consumer electronics manufacturer Huawei is a great example of the globalization of the Chinese enterprises in the twenty first century In Volume I scholars critically examine the rise of Huawei as a Chinese global enterprise from the political economy and public policy perspectives as well as Huawei's development strategies innovations and talent management In Volume II multiple authors carefully study the growth of Huawei from regional and geopolitical perspectives and its corporate communication and crisis management Within the framework of the trade conflicts between China and the US controversies over economic sanctions intellectual property disputes and espionage and cyber security concerns this groundbreaking work makes an important contribution to both academic literature and the ongoing public discourse on Huawei Volume II is available here <https://www.palgrave.com/gp/book/9783030475789> **Tencent** Wu Xiaobo, 2020-06-09 This is the story of an Internet giant that most of the world has yet to find out about Started in 1998 in the Chinese southern city of Shenzhen Tencent is today one of the world's largest and most successful technology companies Founded by Ma Huateng Pony Ma and four friends Tencent first launched its QQ instant messaging tool that became a huge hit in China Under Ma's leadership Tencent has since moved into web portals social networks WeChat multi player games and e commerce making the company today an Internet powerhouse and China's number one brand Ma himself was hailed by Time magazine in 2014 as one of the world's most influential people Through unique and unprecedented access to the company and other key players this book examines the incredible rise of Tencent and gets inside the company's truly innovative thinking and approach to technology and business The Triumphant Consumer? VOIP, 'Little Smart,' and Telecom Service Reform in China Irene Wu, 2013 Can innovations in communications technology dilute the power of China's authoritarian government When Voice over Internet Protocol VOIP and Little Smart xiao lingtong personal handyphone service first broke into China's market they were illegal However consumers loved the services and demanded more Using VOIP consumers can make cheap long distance calls Little Smart introduced an old technology to China that makes mobile phone services more affordable to the masses Eventually the Ministry of Information Industry MII which initially had banned both then legalized both under pressure from other parts of the government and from consumers The planned economy is breaking down and the government is constructing piecemeal the foundation for a rules based economy *Liberalizing Telecommunications Services in China* Irene S. Wu, 2004
