Road To Reason Landmarks In The Evolution Of Humanist Thought:

Harriet Martineau Michael R. Hill, Susan Hoecker-Drysdale, 2014-05-01 The Essays in this volume explore the work of Harriet Martineau from a sociological perspective highlighting her theoretical contributions in the areas of the sociology of labor gender and political economy The contributors each offer a contextual theoretical and methodological assessment of her work beginning with the opportunities and challenges of utilizing Martineau pedagogically in the sociology classroom

The Road to Reason Pat Duffy Hutcheon, 2001-01 There would seem to be a great deal of confusion and misunderstanding in the public mind about the life stance of modern humanism and its philosophical underpinnings As a committed humanist Pat Duffy Hutcheon has made many invaluable contributions to the clarification of the nature and origin of evolutionary naturalism as a necessary component of modern humanism This collection of topical essays is the most recent addition to her ongoing pursuit following her analysis of cultural development in Building Character and Culture Westport CT Praeger 1999 and her earlier seminal work tracing the evolution of the naturalistic basis of social scientific thought in Leaving the Cave Waterloo ON Wilfrid Laurier University Press 1996 This her newest book presents the ideas in the context of their time of some of the most prominent thinkers who have in one way or another shaped the evolving philosophy of humanism over the centuries It is a much needed and most welcome resource for any thoughtful person who wants to better appreciate the naturalistic view of human existence rather than the supernatural or mystical approaches that so regrettably dominate the current scene

Cultural Reformations Brian Cummings, James Simpson, 2010-06-24 The original essays in Oxford Twenty First Century Approaches to Literature mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge scholars working in the field aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate The deepest periodic division in English literary history has been between the Medieval and the Early Modern not least because the cultural investments in maintaining that division are exceptionally powerful Narratives of national and religious identity and freedom of individual liberties of the history of education and scholarship of reading or the history of the book of the very possibility of persuasive historical consciousness itself each of these narratives and more is motivated by positing a powerful break around 1500 None of the claims for a profound historical and cultural break at the turn of the fifteenth into the sixteenth centuries is negligible The very habit of working within those periodic bounds either Medieval or Early Modern tends however simultaneously to affirm and to ignore the rupture It affirms the rupture by staying within standard periodic bounds but it ignores it by never examining the rupture itself The moment of profound change is either for medievalists just over an unexplored horizon or for Early Modernists a zero point behind which more penetrating examination is unnecessary That situation is now rapidly changing Scholars are building bridges that link previously insular areas Both periods are starting to look different in dialogue with each other The change underway has yet to find collected voices behind it Cultural Reformations volume aims

to provide those voices It will give focus authority and drive to a new area [The Swerve](#) Stephen Greenblatt,2012-09-04 Winner of the Pulitzer Prize for Nonfiction Winner of the National Book Award New York Times Bestseller A Kirkus Reviews Best Book of the 21st Century So Far Renowned scholar Stephen Greenblatt brings the past to vivid life in what is at once a supreme work of scholarship a literary page turner and a thrilling testament to the power of the written word In the winter of 1417 a short genial cannily alert man in his late thirties plucked a very old manuscript off a dusty shelf in a remote monastery saw with excitement what he had discovered and ordered that it be copied He was Poggio Bracciolini the greatest book hunter of the Renaissance His discovery Lucretius ancient poem On the Nature of Things had been almost entirely lost to history for more than a thousand years It was a beautiful poem of the most dangerous ideas that the universe functions without the aid of gods that religious fear is damaging to human life that pleasure and virtue are not opposites but intertwined and that matter is made up of very small material particles in eternal motion randomly colliding and swerving in new directions Its return to circulation changed the course of history The poem s vision would shape the thought of Galileo and Freud Darwin and Einstein and in the hands of Thomas Jefferson leave its trace on the Declaration of Independence From the gardens of the ancient philosophers to the dark chambers of monastic scriptoria during the Middle Ages to the cynical competitive court of a corrupt and dangerous pope Greenblatt brings Poggio s search and discovery to life in a way that deepens our understanding of the world we live in now An intellectually invigorating nonfiction version of a Dan Brown like mystery in the archives thriller Boston Globe **Lonely Trail** Pat Duffy Hutcheon,2009-03-18 There is no available information at this time **The Evolved Self** Lloyd Hawkeye Robertson,2020-09-15 In this work the self which is core to such concepts as self esteem and self actualization is mapped using elemental units of culture called memes To understand this self we draw on Western philosophy major schools of psychology and the cross cultural experience of the self in both collectivist and individualist cultures With this grounding a diverse sample of eleven selves representing three genders are mapped and analyzed grouped in the following clusters 1 North American selves built through participation in sports 2 selves centred on notions of North American aboriginality 3 selves of individuals following a secular humanist paradigm and 4 selves from China and Russia Two methods of self mapping are described The results support a hypothesis that a healthy or functional self is composed of fundamental elements including constancy volition uniqueness productivity intimacy and social interest The application of this research and the method of self mapping to counselling and psychotherapy are explored A disciplinary paradigm is proposed uniting major schools of psychotherapy This work will be of interest to philosophers psychologists social workers sociologists and all who have wondered how they come to define themselves in the ways that they do Published in English **Canadian Books in Print. Author and Title Index** ,1975 **Index de Périodiques Canadiens** ,2001 *Die Wende* Stephen Greenblatt,2012-11-29 Ausgezeichnet mit dem Pulitzerpreis und dem National Book Award Bestsellerautor Stephen Greenblatt f hrt uns in seinem neuen Buch an die Zeitenwende zwischen dem Ende des

Mittelalters und dem Beginn der Renaissance Er folgt dabei den Spuren von Lukrez De rerum natura einem antiken Text der zu Beginn des 15. Jahrhunderts wiederentdeckt wurde das Denken der Menschen radikal veränderte und die Welt in die Moderne führte. An einem kalten Januartag des Jahres 1417 findet dem Humanisten Poggio Bracciolini in einem deutschen Kloster ein altes Manuskript in die Hände. Damit rettet er das letzte vorhandene Exemplar von Lukrez' antiken Meisterwerk De rerum natura vor dem Vergessen, nicht ahnend, dass dieses Buch die damalige Welt in ihren Grundfesten erschüttern wird. Denn der antike Text mit seinen unerhörten Gedanken über die Natur der Dinge eröffnet den Menschen des ausgehenden Mittelalters neue Horizonte, befeuert die beginnende Renaissance und bildet die Basis unserer modernen Weltanschauung. Farbenfroh und spannend beschreibt Stephen Greenblatt, wie die Verbreitung des Buches die Renaissance beeinflusste und bedeutende Künstler wie Botticelli und Shakespeare, aber auch Denker wie Giordano Bruno und Galileo Galilei prägte. Greenblatt bietet einen neuen Blick auf die Geburtsstunde der Renaissance, der zugleich zeigt, wie ein einzelnes Buch dem Lauf der Geschichte eine neue Richtung geben kann.

Il manoscritto Stephen Greenblatt, 2012-08-29. Nel 1417 in un'epoca in cui per impadronirsi di un testo antico si poteva rubare o uccidere l'umanista Poggio Bracciolini scoprì in un monastero tedesco l'unica copia sopravvissuta del poema filosofico di Lucrezio De rerum natura. Oggi Il manoscritto racconta l'impatto delle idee di Lucrezio intorno agli atomi, agli dèi e alla loro assenza, alla felicità umana su artisti e pensatori come Botticelli e Giordano Bruno, Montaigne e Shakespeare, Freud e Einstein. Con il passo e la felicità del narratore Greenblatt dimostra in queste pagine appassionanti che i grandi libri cambiano la storia del mondo.

War and the Christian Conscience Joseph Fahey, 2005. The Christian tradition has supplied a variety of answers to the question of war, but how are we to decide which one is right? More basically, how does one go about forming one's personal conscience? For all who ponder these questions, whether young people facing military service or counselors, chaplains, or teachers, this book is essential. Provided by publisher.

The Rhetoric of Exemplarity in Early Modern England Michael Ulliot, 2022. This book investigates the role of exemplarity as a rhetorical device in late Elizabethan and Jacobean literature and culture. Ulliot argues that exemplarity is driven by both reader and author and that positive moral examples were presented as aspirational models in posthumous biography.

Empires of Islam in Renaissance Historical Thought Margaret Meserve, Margaret Meserve, 2009-06-30. Renaissance humanists believed that the origins of peoples could reveal crucial facts about their modern political character. Margaret Meserve explores what happened when European historians turned to study the political history of a faith other than their own. Meserve investigates the methods and illuminates the motives of scholars negotiating shifting boundaries between scholarly research and political propaganda between a commitment to critical historical inquiry and the pressure of centuries of classical and Christian prejudice.

between the academic ideals of humanism and the everyday demands of political patronage Drawing on political oratory diplomatic correspondence crusade propaganda and historical treatises Meserve shows how research into the origins of Islamic empires sprang from and contributed to contemporary debates over the threat of Islamic expansion in the Mediterranean Humanist histories of the Turks were sharply polemical portraying the Ottomans as a rogue power But writings on other Muslim polities include some of the first positive appraisals of Muslim statecraft in the European tradition This groundbreaking book offers new insights into Renaissance humanist scholarship and the longstanding European debates over the relationship between Christianity and Islam *The Case for Humanism* Lewis Vaughn, Austin Dacey, 2003 The Case for Humanism is the premier textbook to introduce and help students think critically about the big ideas of Western humanism secularism rationalism materialism science democracy individualism and others all powerful themes that run through Western thought from the ancient Greeks and the Enlightenment to the present day Visit our website for sample chapters Reformation, Resistance, and Reason of State (1517-1625) Sarah Mortimer, 2021 This volume charts the development of political thought between 1517 1625 Drawing on a wide range of sources from Europe and beyond it offers a new reading of early modern political thought making connections between Christian Europe and the Muslim societies that lay to its south and east A Critical History of the Economy Ryan Walter, 2013-03-01 Drawing on recent debates in critical International Political Economy this book mobilizes the idea that the economy does not exist separately from society and politics to develop a detailed intellectual history of how the economy came to be seen as an independent domain In contrast to typical approaches to writing the history of economic thought which assume the reality of the economy the author describes the forms of intellectual argument that made it possible to conceive of the national and international economies as objects of intellectual inquiry At the centre of this process was the analytical separation of power and wealth Walter thus offers a broad historical perspective on the emergence of current IPE theory while linking the field with contextualist intellectual history This important and innovative volume will be of strong interest to students and scholars of International Political Economy International Relations Economics History and Political Theory The Humanist Imperative in South Africa John W. De Gruchy, 2011-08-01 This book is an outcome of the conversation that occurred during the five days of intense discussion at two symposia initiated by the New Humanism Project The struggle for a more humane society is both local and universal and increasingly these are connected in our time So while the conversation focused specifically on South Africa the discussion was neither parochial nor insular in its scope and character Hopefully then people beyond South Africa will find the contents of this book of value for them in terms of their own contexts
