the United States James Petras,2011-02-07 This book is a chapter by chapter analysis and documentation of the power of Israel via the Israeli Jewish or Pro Zionist Lobby on US Middle East policy It raises serious questions as to the primary beneficiary of US policy and its destructive results for the United States The extraordinary extent of US political economic military and diplomatic support for the state of Israel is explored along with the means whereby such support is generated and consolidated Contending that Zionist power in America ensured unconditional US backing for Israeli colonization of Palestine and its massive uprooting of Palestinians it views the interests of Israel rather than those of Big Oil as the primary cause of the disastrous US wars against Iraq and threats of war against Iran and Syria It demonstrates and condemns US imitation of Israeli practice as it relates to conduct of the war on terrorism and torture It sheds light on the AIPAC spying scandal and other Israeli espionage against America the fraudulent and complicit role of America s academic terrorist experts in furthering criminal government policies and the orchestration of the Danish cartoons to foment antipathy between Muslims and the West It questions the inability in America to sustain or even formulate a discourse related to the subject of Israeli influence on the United States It calls for a review of American Mid East policy with a view to reclaiming US independence of action based upon enlightened self interest and progressive principles The Hunt For Margaret

Thatcher's Assassin Geoffrey Gilson,2014-05-01 An explosive tale of suspense and drama as the author dodges bullets the CIA and a crazy Israeli Intelligence agent in his real life rollercoaster quest to hunt down the key to the deep dark secret which will rock the governments of both Great Britain and the United States and trigger the political scandal of the century

House of Trump, House of Putin Craig Unger, 2019-09-03 THE NEW YORK TIMES BESTSELLER The story Unger weaves with those earlier accounts and his original reporting is fresh illuminating and more alarming than the intelligence channel described in the Steele dossier The Washington Post House of Trump House of Putin offers the first comprehensive investigation into the decades long relationship among Donald Trump Vladimir Putin and the Russian Mafia that ultimately helped win Trump the White House It is a chilling story that begins in the 1970s when Trump made his first splash in the booming money drenched world of New York real estate and ends with Trump's inauguration as president of the United States That moment was the culmination of Vladimir Putin's long mission to undermine Western democracy a mission that he and his hand selected group of oligarchs and Mafia kingpins had ensnared Trump in starting more than twenty years ago with the massive bailout of a string of sensational Trump hotel and casino failures in Atlantic City This book confirms the most incredible American paranoia about Russian malevolence To most it will be a hair raising revelation that the Cold War did not end in 1991 that it merely evolved with Trump's apartments offering the perfect vehicle for billions of dollars to leave the collapsing Soviet Union In House of Trump House of Putin Craig Unger methodically traces the deep rooted alliance between the highest echelons of American political operatives and the biggest players in the frightening underworld of the Russian Mafia He traces Donald Trump's sordid ascent from foundering real estate tycoon to leader of the free world He traces Russia's phoenix like rise from the ashes of the post Cold War Soviet Union as well as its ceaseless covert efforts to retaliate against the West and reclaim its status as a global superpower Without Trump Russia would have lacked a key

component in its attempts to return to imperial greatness Without Russia Trump would not be president This essential book is crucial to understanding the real powers at play in the shadows of today s world The appearance of key figures in this book Paul Manafort Michael Cohen and Felix Sater to name a few ring with haunting significance in the wake of Robert Mueller s report and as others continue to close in on the truth Harry Alan Towers Dave Mann,2014-11-03 Harry Alan Towers reputation rests upon a corpus of 95 low budget productions shot post haste in every corner of the globe He took an integral part however in the development of the protocols that now underpin much transnational film production and he must be regarded as a pioneer Towers slash and burn strategy focused on parasitic back to back productions funded by rights bundles that were pre sold globally This strategy was substantially derived from his early days in broadcasting wherein he acted as a go between in the American and the British Commonwealth markets Though he became adept at procuring funds from pariah regimes and black market economies primarily he continued to act as a broker bringing together American equity investment and European finance under the auspices of EC co production agreements He was also quick to exploit the burgeoning niche markets becoming available in the wake of technological developments and government initiatives

America's Information Wars Colin B. Burke,2018-03-06 This book narrates the development of science sci tech and intelligence information systems and technologies in the United States from the beginning of World War II to the second decade of our century The story ranges from a description of the information systems and machines of the 1940s created at Wild Bill Donovan s predecessors of the Central Intelligence Agency to the rise of a huge international science information industry and to the 1990 s Open Access Open Culture reformers reactions to the commercialization of science information Necessarily there is much about the people cultures and politics that shaped the methods systems machines and protests The reason for that is simple The histories of technologies and methods are human histories Science information s many lives were shaped by idiosyncrasies and chance as well as by social economic political and technical forces The varied motives personalities and beliefs of unique and extraordinary people fashioned science information s past The important players ranged from a gentleman scholar who led the Office of Strategic Services information work to an ill fated Hollywood movie director to life mavericks like the science information legend Eugene Garfield to international financial wheeler dealers such as Robert Maxwell and to youthful ultra liberal ideologically driven Silicon Valley internet millionaires However although there are no determining laws of information history social political legal and economic factors were important After 1940 science information s tools and policies as well as America s universities were being molded by the nation s wealth its role in international affairs the stand off between left and right politics and by the intensifying conflict between Soviet and Western interests *The Publishers Weekly* ,2003 **Dynamic Fair Dealing** Rosemary J. Coombe,Darren Wershler,Martin Zeilinger,2014-01-01 Dynamic Fair Dealing presents a range of insightful and provocative essays that rethink our relationship to Canadian fair dealing policy The Barnes Review ,2003 Christianity and Rabbinic Judaism Jonas E.

Alexis, 2011-12 The simple step of a courageous individual is not to take part in the lie One word of truth outweighs the world Alexander Solzhenitsyn In this penetrating and provocative work Jonas E Alexis challenges common assumptions about the relationship between Christianity and Rabbinic Judaism and provides compelling evidence from history and theology that demonstrates the extent to which modern Judaism has been defined by the Pharisaic and Rabbinic schools of thought As Alexis meticulously documents there has been a constant struggle between Christianity and Rabbinic Judaism since the time of Christ a struggle that will define the destiny of the West Islam according to Christianity is a historically and theologically false religion since it denies both Jesus's deity and His work of salvation at the Cross But Rabbinic Judaism Alexis argues is equally false and in many respects more dangerous to Christianity and the West than Islam since at its root Rabbinic Judaism wages war against the Logos the system of order in the world embodied by Christ In this painstakingly scholarly yet readable work Alexis maintains that Rabbinic Judaism defined by the Pharisaic teachings now codified in the Talmud that Jesus sought to correct is a categorical and metaphysical rejection of Christianity a rejection that has had and will continue to have severe implications for Western culture intellectual history and theological exegesis Human intelligence Jack Fincher, 1976
