Robert Adam And Scotland Portrait Of An Architect:

Robert Adam and Scotland Margaret H. B. Sanderson, 1992 Drawing on many original sources and on recent research this book gives an all round picture of Robert Adam's career as a major architect focusing on his ambiguous relationship with his native Scotland the narrow place For many people he has become a style mainly in interior design Robert Adam and Scotland Margaret Hamilton Burns Sanderson, 1992 **Robert Adam and Scotland** ,1992 The Architecture of Robert & James Adam (1758-1794) Arthur Thomas Bolton, 1922 Scotch Baronial Miles Glendinning, Aonghus MacKechnie, 2019-01-10 As the debate about Scottish independence rages on this book takes a timely look at how Scotland's politics have been expressed in its buildings exploring how the architecture of Scotland in particular the constantly changing ideal of the castle has been of great consequence to the ongoing narrative of Scottish national identity Scotch Baronial provides a politically framed examination of Scotland's kaleidoscopic castle architecture tracing how it was used to serve successive political agendas both prior to and during the three unionist centuries from the early 17th century to the 20th century The book encompasses many of the country's most important historic buildings from the palaces left behind by the lost monarchy to revivalist castles and the proud town halls of the Victorian age examining their architectural styles and tracing their wildly fluctuating political and national connotations It ends by bringing the story into the 21st century exploring how contemporary neo modernist architecture in today's Scotland as exemplified in the Holyrood parliament relates to concepts of national identity in architecture over the previous centuries *William Robertson and the Expansion of Empire* Stewart J. Brown, Stewart Jay Brown, 1997-04-13 This is an exploration of William Robertson a leading figure in the eighteenth century Enlightenment *Laurent-Benoît Dewez (1731-1812), Architect in the Age of Enlightenment* Dirk Van de Vijver, 2025-02-11 Laurent Benoît Dewez 1731-1812 court architect to Charles of Lorraine was the most outstanding architect of his time in the Southern Low Countries After studying in Italy and serving in the eminent office of Robert Adam in London Dewez developed a personal classical style that came to embody the Eglise Belgique under the Austrian Habsburgs He designed numerous castles abbeys and churches across Belgium but time has not been kind to his legacy of his 80 architectural projects many have vanished However the Chateau de Senefve the abbey of Vlierbeek in Leuven and the churches in Andenne Floreffe and Harelbeke still stand as testaments to his remarkable talent This richly illustrated monograph presents for the first time a comprehensive collection and analysis of the complete works of Laurent Benoît Dewez Robert Adam, Artist and Architect Percy Hetherington Fitzgerald, 1904 *Art and Identity* Viccy Coltman, 2019-11-14 This lively and erudite cultural history examines how Scottish identity was experienced and represented in novel ways **Reading Architectural History** Dana Arnold, 2003-09-02 Architectural history is more than just the study of buildings Architecture of the past and present remains an essential emblem of a distinctive social system and set of cultural values and as a result it has been the subject of study of a variety of disciplines But what is architectural history and

how should we read it Reading Architectural History examines the historiographic and socio cultural implications of the mapping of British architectural history with particular reference to eighteenth and nineteenth century Britain Discursive essays consider a range of writings from biographical and social histories to visual surveys and guidebooks to examine the narrative structures of histories of architecture and their impact on perception and understanding of the architecture of the past Alongside this each chapter cites canonical histories juxtaposed with a range of social and cultural theorists to reveal that these writings are richer than we have perhaps recognised and that architectural production in this period can be interrogated in the same way as that from more recent past and can be read in a variety of ways The essays and texts combine to form an essential course reader for methods and critical approaches to architectural history and more generally as examples of the kind of evidence used in the formation of architectural histories while also offering a thematic introduction to architecture in Britain and its social and cultural meaning

The Enlightenment and the Book Richard B. Sher, 2008-09-15 The late eighteenth century

witnessed an explosion of intellectual activity in Scotland by such luminaries as David Hume Adam Smith Hugh Blair William Robertson Adam Ferguson James Boswell and Robert Burns And the books written by these seminal thinkers made a significant mark during their time in almost every field of polite literature and higher learning throughout Britain Europe and the Americas In this magisterial history Richard B Sher breaks new ground for our understanding of the Enlightenment and the forgotten role of publishing during that period The Enlightenment and the Book seeks to remedy the common misperception that such classics as The Wealth of Nations and The Life of Samuel Johnson were written by authors who eyed their publishers as minor functionaries in their profession To the contrary Sher shows how the process of bookmaking during the late eighteenth century involved a deeply complex partnership between authors and their publishers one in which writers saw the book industry not only as pivotal in the dissemination of their ideas but also as crucial to their dreams of fame and monetary gain Similarly Sher demonstrates that publishers were involved in the project of bookmaking in order to advance human knowledge as well as to accumulate profits The Enlightenment and the Book explores this tension between creativity and commerce that still exists in scholarly publishing today Lavishly illustrated and elegantly conceived it will be must reading for anyone interested in the history of the book or the production and diffusion of Enlightenment thought

Essays on David Hume, Medical Men and the Scottish Enlightenment Roger L. Emerson,2016-05-13 The Scottish Enlightenment was a period of intellectual and scientific progress in a country previously considered to be marginal to the European intellectual scene Yet the enlightenment was not about politeness or civic humanism but something more basic the making of an improved society which could compete in every way in a rapidly changing world David Hume writing in 1752 commented that industry knowledge and humanity are linked together by an indissoluble chain Collectively this volume of essays embraces many of the topics which Hume included under industry knowledge and humanity from the European Enlightenment and the Scots relation to it to Scottish social history and its relation to religion science and medicine Overarching themes of what it meant to be enlightened in the eighteenth century are considered alongside more specific studies of notable figures of the period such as Archibald Campbell 3rd Duke of Argyll and David Hume and the training and number of Scottish medical students Together the volume provides an opportunity to step back and reconsider the Scottish Enlightenment in its broader context and to consider what new directions this field of study might take
