American and British Poetry Harriet Semmes Alexander, 1984 *Robert Lowell's Imitations and the Cold War* Simon van Schalkwyk, 2025-08-07 The first book length study focusing on Robert Lowell's career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell's *Imitations and the Cold War* argues that Lowell's imitations are simultaneously symptomatic of and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U.S. expansion and Empire It departs from studies focused solely on *Imitations* 1961 Lowell's book length collection of translational adaptations by demonstrating how imitation shadows Lowell's work from his earliest collections *Land of Unlikeness* 1944 and *Lord Weary's Castle* 1946 through his celebrated mid career collections *Life Studies* 1959 and *For the Union Dead* 1964 and to later works such as *Near the Ocean* 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle's anthology *Poets on Street Corners* 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell's compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell's restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment's dualities porosities leakages and contaminants are most clearly displayed Lowell's imitations simultaneously challenge and develop our understanding of confession's presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood *Who's Afraid of ...?* Marion Gymnich, 2012 Fear in its many facets appears to constitute an intriguing and compelling subject matter for writers and screenwriters alike The contributions address fictional representations and explorations of fear in different genres and different periods of literary and cultural history The topics include representations of political violence and political fear in English Renaissance culture and literature dramatic representations of fear and anxiety in English Romanticism the dramatic monologue as an expression of fears in Victorian society cultural constructions of fear and empathy in George Eliot's *Daniel Deronda* 1876 and Jonathan Nasaw's *Fear Itself* 2003 facets of children's fears in twentieth and twenty first century stream of consciousness fiction the representation of fear in war movies the cultural function of horror film remakes the expulsion of fear in Kazuo Ishiguro's novel *Never Let Me Go* and fear and nostalgia in Mohsin Hamid's post 9/11 novel *The Reluctant Fundamentalist*

New England Beyond Criticism Elisa New, 2014-03-18 NEW ENGLAND BEYOND CRITICISM Elisa New's book is a remarkable achievement It is very rare that a critic manages to ask what seem exactly the right questions then to answer

them in a lively brilliant evocative and supremely intelligent prose Charles F Altieri University of California Elisa New is a refreshing voice among critics and historians of literature She has a keen sense of the nature of New England and its deep spiritual resources reaching back to the Puritans moving through the great nineteenth century expressions of interior landscapes and visions This is a book I welcome and celebrate Jay Parini Middlebury College Literary criticism of the past thirty years has undercut what the canonizers of the nineteenth and early twentieth centuries saw as the fundamental role of early New England in the development of American literary culture And yet a determination in literary circles to topple perceived Ivy League elitism and Protestant cultural creationism overlooks the continuing value beauty and even practical utility of a canon still cherished by lay readers around the world This Manifesto raises questions about how academic specialization and the academic study of New England have affected enthusiasm for reading Using a range of interpretive practices including those most often deployed by contemporary academic critics Elisa New cuts across firmly established subfields mixing literary exegesis with autobiographical reflection close reading with cultural history archival and antiquarian inquiry with experiments in style and lays bare editorial orthodoxies raising to question the whole hierarchy of values now governing the study of American and other literatures Taking New England as a test case for a wider more accessible set of critical practices New England Beyond Criticism demands that the domain of literary study be opened further to the tastes of the general reader
