For everyone who knows anything about Nature Cure and has realised through personal experience what its methods of treatment can do for suffering humanity, there are tens of

thousands still completely ignorant as to its very existence in the world of healing and are as a consequence still gripped fast within the clutches of orthodox belief and faith in the absoluteness and sanctity of Medical Science even though in many instances they have had ample evidence of its inability to help them in their own particular cases In the course of his daily experience as a Naturopath or practitioner of Nature Cure the writer is being brought continually into contact with scores of people drawn from every rank of society who had previously spent practically all their time and money going from doctor to doctor specialist to specialist hospital to hospital in the vain hope of being cured of the diseases from which they had been suffering only to find these same diseases becoming worse not better at medical hands Indeed in many instances they had at last been given up as incurable doomed to a life of chronic invalidism because of the inability of the men whom the nation instinctively regards as its saviours from disease to do anything for them
