**Reason and Hope** Hermann Cohen, 1993      **Reason and Hope** Eva Jospe, 1993      *Reason and Hope* Hermann Cohen, 1971      **The Internal Foe** Jeremy F. Worthen, 2008-12-18 The relationship between Christianity and other religions is a vital issue in the world today This book provides a fresh perspective by exploring how Christian theology has been shaped over two millennia by interaction with its original religious other continuing Judaism It begins by describing the origins of the classic framework in Christianity that correlates claims about the gospel with judgments about Judaism as resistance to the new thing God has done in Jesus Christ This framework binds Christianity to the task of interpreting Jewish presence which then renders engaging with Judaism as well as rehearsing judgments about it integral to Christian theology's development The central chapters of the book demonstrate this in relation to three pivotal periods of Western history 1050 1300 CE early modernity and the first half of the twentieth century They reveal the classic framework to have been remarkably resilient despite sometimes radical adaptation before in and after modernity The insights of Franz Rosenzweig about Judaism as Christianity's internal foe resonate deeply with the book's historical analysis Does this mean that non-relativistic Christian theology must remain intrinsically anti-Jewish The book concludes that it need not if it can renounce its historic stance of hermeneutical comprehension      **The Weimar Moment** Leonard V. Kaplan, Rudy Koshar, 2012-01-01 The lessons that we learn from the brilliance of the scholarship from Weimar Germany and its continued relevance to the contemporary scene define the spirit of the essays in this volume Academic analysis is the beginning of institutional response to avoid reoccurrence of past political nihilism and catastrophe This volume presents a predicate for such effective defense      **Judaism and Modernity** Gillian Rose, 2017-03-28 A reinterpretation of thinkers from Benjamin and Rosenzweig to Simone Weil and Derrida *Judaism and Modernity Philosophical Essays* challenges the philosophical presentation of Judaism as the sublime other of modernity Here Gillian Rose develops a philosophical alternative to deconstruction and post-modernism by critically re-engaging the social and political issues at stake in every reconstruction      **After Evil** Robert Meister, 2011-01-05 Mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid in ways that put them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends only when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was Meister calls out such methods for their deferral of justice and susceptibility to exploitation Specifically he spells out the moral logic never again in relation to Auschwitz and its evolution into a twenty-first century doctrine of the

Responsibility to Protect      *Jewish Cryptotheologies of Late Modernity* Agata Bielik-Robson, 2014-08-13 This book aims to interpret Jewish Philosophy in terms of the Marrano phenomenon as a conscious clinamen of philosophical forms used in order to convey a secret message which cannot find an open articulation The Marrano phenomenon is employed here in the domain of modern philosophical thought where an analogous tendency can be seen the clash of an open idiom and a secret meaning which transforms both the medium and the message Focussing on key figures of late modern twentieth century Jewish thought Hermann Cohen Gershom Scholem Walter Benjamin Franz Rosenzweig Theodor Adorno Ernst Bloch Jacob Taubes Emmanuel Levinas and Jacques Derrida this book demonstrates how their respective manners of conceptualization swerve from the philosophical mainstream along the Marrano secret curve Analysing their unique contribution to the unfinished project of modernity including issues of the future of the Enlightenment modern nihilism and post secular negotiation with religious heritage this book will be essential reading for students and researchers with an interest in Jewish Studies and Philosophy      **Kinship and Consent** Daniel L. *The Rise of Eurocentrism* Vassilis Lambropoulos,2019-10-08 In the controversy over political correctness the canon and the curriculum the role of Western tradition in a post modern world is often debated To clarify what is at stake Vassilis Lambropoulos traces the ideology of European culture from the Reformation focusing on a key element of Western tradition the act of interpretation as a distinct practice of understanding and a civil right Championed by Protestants insisting on independent interpretation of scripture this ideal of autonomy ushered in the era of modernity with its essentialist philosophy of universal man and his aesthetic understanding of the world After explaining the dominance of European culture through the combined archetypes of Hebraism reason and morality and Hellenism spirit and art Lambropoulos shows how the rule of autonomy has been transformed into the aesthetic disinterested contemplation of things in themselves Arguing that it is time to restore the socio political dimension to the movement of autonomy he proposes that a genealogy of the Hebraic Hellenic archetypes can help us evaluate more recent models like the Afrocentric one and redefine the controversy surrounding education Eurocentrism and cultural politics     **The Neo-Kantian Reader** Sebastian Luft,2024-11-01 The latter half of the nineteenth and the early part of the twentieth century witnessed a remarkable resurgence of interest in Kant s philosophy in Continental Europe the effects of which are still being felt today The Neo Kantian Reader is the first anthology to collect the most important primary sources in Neo Kantian philosophy with many being published here in English for the first time It includes extracts on a rich and diverse number of subjects including logic epistemology metaphysics philosophy of science and transcendental idealism Sebastian Luft together with other scholars provides clear introductions to each of the following sections to the authors as well as to each text placing them in historical and philosophical context the beginnings of Neo Kantianism including the work of Hermann von Helmholtz Otto Liebman Friedrich Lange and Hermann Lotze the Marburg School including Hermann Cohen Paul Natorp and Ernst Cassirer the Southwest School including Wilhelm Windelband Heinrich Rickert Emil Lask and Hans Vaihinger responses and critiques including Moritz Schlick Edmund Husserl Rudolf

**The Dual Truth, Volumes I & II** Ephraim Chamiel, 2020-07-14 This book explores three schools of fascinating talented and gifted scholars whose philosophies assimilated the Jewish and secular cultures of their respective homelands they include halakhists from Rabbi Ettlinger to Rabbi Eliezer Berkowitz Jewish philosophers from Isaac Bernays to Yeshayau Leibowitz and biblical commentators such as Samuel David Luzzatto and Rabbi Umberto Cassuto Running like a thread through their philosophies is the attempt to reconcile the Jewish belief in revelation with Western culture Western philosophy and the conclusions of scientific research Among these attempts is Luzzatto's dual truth approach The Dual Truth is the sequel to the Ephraim Chamiel's previous book The Middle Way which focused on the challenges faced by members of the Middle Trend in nineteenth century Jewish thought

*The Oxford Handbook of Jewish Ethics and Morality* Elliot N. Dorff, Jonathan K. Crane, 2016-01-23 For thousands of years the Jewish tradition has been a source of moral guidance for Jews and non Jews alike As the essays in this volume show the theologians and practitioners of Judaism have a long history of wrestling with moral questions responding to them in an open argumentative mode that reveals the strengths and weaknesses of all sides of a question The Jewish tradition also offers guidance for moral conduct by individuals communities and countries and shows how to motivate people to do the good and right thing The Oxford Handbook of Jewish Ethics and Morality is a collection of original essays addressing these topics historical and contemporary as well as philosophical and practical by leading scholars from around the world The first section of the volume describes the history of the Jewish tradition's moral thought from the Bible to contemporary Jewish approaches The second part includes chapters on specific fields in ethics including the ethics of medicine business sex speech politics war and the environment

*Kinship and Consent* Daniel Judah Elazar, 1983 Co published with the Center for Jewish Community Studies this volume is based on the finest fruits of a summer Colloquium of The Institute for Judaism and Contemporary Thought held at the Kibbutz Lavi in Israel Explores Jewish political life and thought from the Biblical period to the present in order to ascertain the content and character of the Jewish political tradition and its relevance for our time

*The Legacy of Liberal Judaism* Ned Curthoys, 2013-10-01 Comparing the liberal Jewish ethics of the German Jewish philosophers Ernst Cassirer and Hannah Arendt this book argues that both espoused a diasporic worldly conception of Jewish identity that was anchored in a pluralist and politically engaged interpretation of Jewish history and an abiding interest in the complex lived reality of modern Jews Arendt's indebtedness to liberal Jewish thinkers such as Moses Mendelssohn Abraham Geiger Hermann Cohen and Ernst Cassirer has been obscured by her modernist posture and caustic critique of the assimilationism of her German Jewish forebears By reorienting our conception of Arendt as a profoundly secular thinker anchored in twentieth century political

debates we are led to rethink the philosophical political and ethical legacy of liberal Jewish discourse      Love Thy Neighbor as Thyself Lenn E. Goodman, 2008-01-02 In this book Lenn E Goodman writes about the commandment to love thy neighbor as thyself from the standpoint of Judaism a topic and perspective that have not often been joined before Goodman addresses two big questions What does that command ask of us and what is its basis Drawing extensively on Jewish sources both biblical and rabbinic he fleshes out the cultural context and historical shape taken on by this Levitical commandment In so doing he restores the richness of its material content to this core articulation of our moral obligations which often threatens to sink into vacuity as a mere nostrum or rhetorical formula Goodman argues against the notion that we have this obligation simply because God demands it a position that too readily makes ethics seem arbitrary relativistic dogmatic authoritarian contingent or just unpalatable Rather he proposes that we learn much about how we ought to think about God from what we know about morals He shows that natural reasoning and appeals to scripture tradition and revelation reinforce one another in ethical deliberation For Goodman ethics and theology are not worlds apart connected only by a kind of narrow one way passage the two realms of discourse can and should inform each other Engaging the philosophers including Aristotle Spinoza and Kant and assembling three thousand years worth of Jewish textual masterpieces Goodman skillfully weaves his Gifford Lectures which he delivered in 2005 into an indispensable work
