Rebels A Study Of Post War Insurrections:

the Rebels Brian Crozier ,1962 The Rebels Yashar Kemal,1960 The Rebel's Dilemma Mark Irving Lichbach,1998
The author brings significant new insights to the study of dissent rebellion and revolution Introduction to Counterinsurgency Ralph Sanders,1962 *Why Men Rebel* Ted Robert Gurr,2015-11-17 *Why Men Rebel* was first published in 1970 after a decade of political violence across the world Forty years later serious conflicts continue in Africa Asia and the Middle East Ted Robert Gurr reintroduces us to his landmark work putting it in context with the research it influenced as well as world events *Why Men Rebel* remains highly relevant to today s violent and unstable world with its holistic people based understanding of the causes of political protest and rebellion With its close eye on the politics of group identity this book provides new insight into contemporary security challenges **International Terrorism and the Contemporary World** Satish Chandra Pandey,2006 On the life and works of Thomas Hardy 1840 1928 English novelist and poet **Words in Time** Francesco Benigno,2017-04-21 Examines the origins and development of the words we use critiquing the ways in which they have traditionally been employed in historical thinking and examining their potential usefulness today Provided by the publisher **America and Guerrilla Warfare** Anthony James Joes,2021-05-11 From South Carolina to South Vietnam America s two hundred year involvement in guerrilla warfare has been extensive and varied *America and Guerrilla Warfare* analyzes conflicts in which Americans have participated in the role of on the side of or in opposition to guerrilla forces providing a broad comparative and historical perspective on these types of engagements Anthony James Joes examines nine case studies ranging from the role of Francis Marion the Swamp Fox in driving Cornwallis to Yorktown and eventual surrender to the U S support of Afghan rebels that hastened the collapse of the Soviet Empire He analyzes the origins of each conflict traces American involvement and seeks patterns and deviations Studying numerous campaigns including ones staged by Confederate units during the Civil War Joes reveals the combination of elements that can lead a nation to success in guerrilla warfare or doom it to failure In a controversial interpretation he suggests that valuable lessons were forgotten or ignored in Southeast Asia The American experience in Vietnam was a debacle but according to Joes profoundly atypical of the country s overall experience with guerrilla warfare He examines several twentieth century conflicts that should have better prepared the country for Vietnam the Philippines after 1898 Nicaragua in the 1920s Greece in the late 1940s and the Philippines again during the Huk War of 1946 1954 Later during the long Salvadoran conflict of the 1980s American leaders seemed to recall what they had learned from their experiences with this type of warfare Guerrilla insurgencies did not end with the Cold War As America faces recurring crises in the Balkans sub Saharan Africa the Middle East and possibly Asia a comprehensive analysis of past guerrilla engagements is essential for today s policymakers **Emergency Propaganda** Kumar Ramakrishna,2013-04-15 Sheds new light on the hitherto neglected years of the Emergency 1955 58 demonstrating how it was British propaganda which decisively ended the shooting war in December 1958 The study argues for a concept of

propaganda that embraces not merely words in the form of film radio and leaflets but also deeds *Political Terrorism* A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of *Political Terrorism* was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against **Tapestry of Terror** Richard J.

Chasdi, 2002-01-01 The recent terrorist outrages perpetrated against the United States demonstrate the need for a new and rigorous study of modern terrorism In *Tapestry of Terror* Richard J Chasdi offers fresh insight into the complexities of state sponsored and nonstate terrorism Building on the research methods and findings discussed in his previous work *Serenade of Suffering* which covers Middle East terrorism in the period 1968 to 1993 Chasdi presents a detailed statistical and quantitative analysis of four Middle East terrorist systems in Algeria Turkey Egypt and Israel He pinpoints the socioeconomic conditions that breed and sustain terrorism the political factors that ignite terrorist attacks and those individuals or groups most frequently targeted by terrorists *Tapestry of Terror* charts the increasing frequency and intensity of intrastate terrorism in the 1990s the growing threat posed to Western nations by international terrorism and the counter terrorist stratagems and policy decisions needed now more than ever to defend against highly coordinated immensely destructive assaults

Annotated Bibliography on Transnational and International Terrorism United States. Central Intelligence Agency, Edward F. Mickolus, 1976 **Corporate Security Crossroads** Richard J. Chasdi, 2017-11-10 Even though terrorism poses an increasing threat to multinational companies corporate leaders can thwart attacks by learning to navigate the complexities of foreign governments social unrest and cultural dissonance Multinational corporations are on the front lines of terrorism and cyberattacks two of the world's biggest threats to global security How can corporate leaders mitigate their organizations risks and develop an infrastructure that detects and deters a security menace before it happens This timely reference lays out essential political context and historical background to help executives identify contemporary threats and

understand the interconnections between threat dynamics in an increasingly dangerous international environment This compelling work is organized into seven chapters The beginning chapters profile the specific risks for multinational companies and detail which global and regional factors might propagate violence targeted at American based businesses Next two historical case studies on terrorist assaults at Tigantourine and Mombasa illustrate how counterterrorism can successfully thwart potential attacks against business targets The final part describes industrial espionage and criminal activity and then outlines a corporate counterterror blueprint to combat the prospect of terrorism providing specific recommendations for preventative measures *British Counterinsurgency, 1919-60* Herbert Ekwe-Ekwe, 2016-04-30

Rapoport, 2006 Takes a chronological approach to provide a history of modern rebel or non state terror In addition to articles in academic journals the collection includes discussions statements and government documents *Britain's Pacification of Palestine* Matthew Hughes, 2019-01-03 The British Army's devastating effectiveness against colonial rebellion is exposed in this military history of Britain's pacification of the Arab revolt in Palestine **The Social Psychology of Intergroup Conflict** Wolfgang Stroebe, Arie W. Kruglanski, Daniel Bar-Tal, Miles Hewstone, 2012-12-06 The area of intergroup relations and social conflict has once again become a major focus of social psychological theorizing and research One of the consequences of this advance in knowledge is that social psychologists have increasingly been called upon to apply their ideas in order to advise on existing conflicts The significant contribution of this book is the way it builds on the research and theory of intergroup conflict and then applies this knowledge to the field The areas discussed include industrial conflicts interethnic conflicts and intergroup conflicts The chapters range from reports of experimental laboratory research through field studies to theoretical conceptual contributions The new advances offered by this broad spectrum of topics will be of interest not only to social psychologists but also to sociologists and political scientists *COVID-19 Pandemic* Rohan Kumar Gunaratna, Mohd Aslam, 2022-01-18 Critically analyzing the specific security threat posed by COVID 19 to global society the contributors to this book offer a comprehensive and critical examination of global challenges and responses while suggesting more balanced and nuanced approaches to handling these security impacts The COVID 19 pandemic brought about a huge challenge to health security across the globe Several countries were pushed into lockdown repeatedly to prevent the spread of infection The global economy has seen a major slowdown and disruption of supply chains around the world There have also been major implications from changes to traditional security systems as well as diverse societal change even down to aspects of daily life The chapters in this book show that progressive initiatives have expended a mixture of soft and hard response strategies that include understanding containing fighting and preventing COVID 19 They look at major sectors including defense trade health and bioterrorism among others In doing so they highlight the best practices used around the world to minimize the threat posed by COVID 19's impact A vital resource for security studies scholars and policymakers **Case Studies in**
