Young,Gregory H. ways diverse groups of Americans who lived through the Revolution might have answered that question and to the different ways historians through the decades have interpreted the Revolution for our own time As the only volume to offer an accessible and sweeping discussion of the period s historiography and its historians Whose American Revolution Was It is an essential reference for anyone studying early American history The first section by Alfred F Young begins in 1925 with historian J Franklin Jameson and takes the reader through the successive schools of interpretation up to the 1990s The second section by Gregory H Nobles focuses primarily on the ways present day historians have expanded our understanding of the broader social history of the Revolution bringing onto the stage farmers and artisans who made up the majority of white men as well as African Americans Native Americans and women of all social classes *American Book Publishing Record Cumulative, 1950-1977* R.R.
