Kellog,2011-05-18 Negotiation within Domination examines the formation of colonial governance in New Spain through
interactions between indigenous peoples and representatives of the Spanish Crown The book highlights the complexity of
native negotiation and mediation with colonial rule across time culture and place and how it shaped colonial political and
legal structures from the sixteenth to the eighteenth centuries Although indigenous communities reacted to Spanish
presence with significant acts of resistance and rebellion they also turned to negotiation to deal with conflicts and ameliorate
the consequences of colonial rule This affected not only the development of legal systems in New Spain and Mexico but also
the survival and continuation of traditional cultures Bringing together work by Mexican and North American historians this
collection is a crucially important and rare contribution to the field Negotiation within Domination is a valuable resource for

Hunt, Steven Levine, 2012-03-01 Although conventionally treated as separate America's four wars in Asia were actually phases in a sustained U.S. bid for regional dominance according to Michael H. Hunt and Steven I. Levine. This effort unfolded as an imperial project in which military power and the imposition of America's political will were crucial. Devoting equal attention to Asian and American perspectives, the authors follow the long arc of conflict across seventy-five years from the Philippines through Japan and Korea to Vietnam, tracing along the way American ambition, ascendance, and ultimate defeat. They show how these wars are etched deeply in eastern Asia's politics and culture. The authors encourage readers to confront the imperial pattern in U.S. history with implications for today's Middle Eastern conflicts. They also offer a deeper understanding of China's rise and Asia's place in today's world. For instructors: An Online Instructor's Manual is available with teaching tips for using *Arc of Empire* in graduate and undergraduate courses on America's wars in Asia. It includes lecture topics, chronologies, and sample discussion questions.

The Cambridge Companion to the Fin de Siècle Gail Marshall, 2007-08-02 Situated between the Victorians and Modernism, the fin de siècle is an exciting and rewarding period to study. In the literature and art of the 1890s, the processes of literary and cultural change can be seen in action. In this more than any previous decade, literature was an active and controversial participant within debates over morality, aesthetics, politics, and science, as Victorian certainties began to break down. Oscar Wilde, Aubrey Beardsley, H. G. Wells, Bram Stoker, and Olive Schreiner were among the most prominent, occasionally even notorious, writers and artists of the period, challenging establishment values and producing a distinctive literature of their own. This volume includes the main currents of radical and innovative thinking in the period, as well as the attempts to resist them. It will be of great interest to students of Victorian and twentieth-century literature, art, and cultural history.
