Webb,2013-11 A non Mormon theologian explains how Mormonism is a branch of the Christian family tree that extends well beyond what most Christians have ever imagined *Faith Crisis, Volume 1: We Were NOT Betrayed!* L. Hannah Stoddard,James F. Stoddard III,2020-04-06 After working with thousands of struggling members of The Church of Jesus Christ of Latter day Saints over many years the authors decided to write a book offering hope and answers for those struggling with faith crisis Unbeknownst to the general Church membership the 20th century would witness an organized effort to rewrite Latter day Saint history from within its own ranks In a head to head behind the scenes battle traditional leaders resisted intellectual progressives working in the Church History Department and at BYU who claimed some forty years ago that it would take a generation to re educate the Church membership Where are we in this attempted re education What is the New Mormon History and how does it personally affect you and your family Join us as we explore newly available diaries review old books and bring untold history into the light Progressives claim the Church covered up its history for nearly 200 years Is the current faith crisis stemming from unmasked history or new interpretations Why did New Mormon Historians insist Hofmann s forgeries were legitimate even when investigators provided convincing evidence to them of the hoax How did Bruce R McConkie know Hofmann s Joseph Smith III blessing was a fake despite authentication by document experts and pressure by historians calling him incompetent for questioning Who were the Swearing Elders How did this group of progressive Latter day Saints reshape the identity of Mormonism Why did Carol Lynn Pearson and Leonard Arrington share cards that read History is on our side as long as we can control the historians Leonard Arrington shared that an invisible higher power commissioned him to rewrite or reconstruct our dominant narrative of the Restoration Did God want our history changed Why did Leonard Arrington say the First Vision Nephites and gold plates were part of the Mormon myth Why did Leonard Arrington note that if he were honest about his beliefs not many Latter day Saints would want him to teach their children How did this affect his career as Church Historian and later at BYU Progressives working in the Church History Department and at BYU claimed 40 years ago it would take a generation to re educate the Church Where are we in this re education The research and findings in this volume are truly history altering Using newly released documents combined with deep knowledge of Church History the Stoddards are bringing to light what could be termed a soft coup d tat of the Church s scriptures and prophets by progressive historians bent on altering its history Hold tight to your faith in the history held by the church for over 150 years and the teachings of our prophets as you discover how deep this attempted takeover has infiltrated and altered our sacred history Rod Meldrum researcher best selling Latter day Saint author international lecturer Years ago we stopped going to church Suddenly God awakened me and brought me back into the fold As I hungered and learned more about the restoration it was

upsetting to hear things being said about Joseph that I KNEW were not true I hit a major faith crisis Right as I was about to leave the church and follow another sect that follows the teachings of the Book of Mormon I read the Stoddard s Faith Crisis book This book along with promptings and teachings from the spirit helped me navigate through many questions This book only helped grow my testimony of the truthfulness of the restoration of the gospel and of the church of Jesus Christ of Latter Day Saints I now stand strong in the Faith and know that I am in the only true church I m so thankful for the Joseph Smith Foundation and the many hours put in toward helping others stay strong in the Church of Jesus Christ of Latter Day Saints

Believing History Richard Lyman Bushman, 2007-02-13 The eminent historian Richard Bushman here reflects on his faith and the history of his religion By describing his own struggle to find a basis for belief in a skeptical world Bushman poses the question of how scholars are to write about subjects in which they are personally invested Does personal commitment make objectivity impossible Bushman explicitly and at points confessionally explains his own commitments and then explores Joseph Smith and the Book of Mormon from the standpoint of belief Joseph Smith cannot be dismissed as a colorful fraud Bushman argues nor seen only as a restorer of religious truth Entangled in nineteenth century Yankee culture including the skeptical Enlightenment Smith was nevertheless an original who cut his own path And while there are multiple contexts from which to draw an understanding of Joseph Smith including magic seekers the Second Great Awakening communitarianism restorationism and more Bushman suggests that Smith stood at the cusp of modernity and presented the possibility of belief in a time of growing skepticism When examined carefully the Book of Mormon is found to have intricate subplots and peculiar cultural twists Bushman discusses the book's ambivalence toward republican government explores the culture of the Lamanites the enemies of the favored people and traces the book's fascination with records translation and history Yet Believing History also sheds light on the meaning of Joseph Smith and the Book of Mormon today How do we situate Mormonism in American history Is Mormonism relevant in the modern world Believing History offers many surprises Believers will learn that Joseph Smith is more than an icon and non believers will find that Mormonism cannot be summed up with a simple label But wherever readers stand on Bushman's arguments he provides us with a provocative and open look at a believing historian studying his own faith

Magic in the Modern World Edward Bever, Randall Styers, 2017-04-18 This collection of essays considers the place of magic in the modern world first by exploring the ways in which modernity has been defined in explicit opposition to magic and superstition and then by illuminating how modern proponents of magic have worked to legitimize their practices through an overt embrace of evolving forms such as esotericism and supernaturalism Taking a two track approach this book explores the complex dynamics of the construction of the modern self and its relation to the modern preoccupation with magic Essays examine how modern rational consciousness is generated and maintained and how proponents of both magical and scientific traditions rationalize evidence to fit accepted orthodoxy This book also describes how people unsatisfied with the norms of modern subjectivity embrace various forms of magic and the methods these modern practitioners use to legitimate magic in the modern world A compelling assessment of magic from the early modern period to today Magic in the Modern World shows how despite the dominant culture's emphatic denial of their validity older forms of magic persist and develop while new forms of magic continue to emerge In addition to the editors contributors include Egil Asprem Erik Davis Megan Goodwin Dan Harms Adam Jortner and Benedek L ng
