Magische Riten Und Kulte Das Dunkle Europa:

The Encyclopedia of Psychoactive Plants Christian Rätsch, 2005-04-25 The most comprehensive guide to the botany history distribution and cultivation of all known psychoactive plants Examines 414 psychoactive plants and related substances Explores how using psychoactive plants in a culturally sanctioned context can produce important insights into the nature of reality Contains 797 color photographs and 645 black and white illustrations In the traditions of every culture plants have been highly valued for their nourishing healing and transformative properties The most powerful plants those known to transport the human mind into other dimensions of consciousness have traditionally been regarded as sacred In The Encyclopedia of Psychoactive Plants Christian Rätsch details the botany history distribution cultivation and preparation and dosage of more than 400 psychoactive plants He discusses their ritual and medicinal usage cultural artifacts made from these plants and works of art that either represent or have been inspired by them The author begins with 168 of the most well known psychoactives such as cannabis datura and papaver then presents 133 lesser known substances as well as additional plants known as legal highs plants known only from mythological contexts and literature and plant products that include substances such as ayahuasca incense and soma The text is lavishly illustrated with 797 color photographs many of which are from the author's extensive fieldwork around the world showing the people ceremonies and art related to the ritual use of the world's sacred psychoactives EUROPA HEIßT DIE WEITBLICKENDE Johanna Schacht, Gabriele Uhlmann, Grimm Bernhard A., Jörg Fuhrmann, Alexandra Schwarz-Schilling, 2012 Das Interdisziplinäre Autorenteam bringt neue Aspekte in den Streit um die vorpatriarchale Menschheitsgeschichte ein Johanna Schacht die als Heilpädagogin das Thema von einem Blickwinkel der prä-natalen Psychologie beleuchtet plant für eine Integration von matriarchalem und patriarchalem Paradigma in einem paritätischen Paradigma Die Patriarchatsforscherin Gabriele Uhlmann hinterfragt patriarchale moderne Mythen und Ideologien in der Archäologie und Anthropologie am Beispiel der vorpatriarchalen Kulturleistungen der Frau Der Philosoph und Theologe Bernhard A. Grimm wehrt sich heftig gegen die uralte Verfemung des Weiblichen plant für die Göttin in uns und mahnt eine Transformation zum vollen weiblichen menschlichen Menschsein an Jörg Fuhrmann analysiert den Status quo einer noch längst nicht im Postpatriarchat angekommenen Gesellschaft aus der Sicht des Pädagogen und Therapeuten Die Psychologin Alexandra Schwarz-Schilling arbeitet die zentrale Rolle der Sexualität im historischen Prozess der Patriarchalisierung sowie für dessen Überwindung heraus **Pagan Christmas** Christian Rätsch, Claudia Müller-Ebeling, 2006-10-24 An examination of the sacred botany and the pagan origins and rituals of Christmas Analyzes the symbolism of the many plants associated with Christmas Reveals the shamanic rituals that are at the heart of the Christmas celebration The day on which many commemorate the birth of Christ has its origins in pagan rituals that center on tree worship agriculture magic and social exchange But Christmas is no ordinary folk observance It is an evolving feast that over the centuries has absorbed elements from cultures all over the world practices that give plants and

plant spirits pride of place In fact the symbolic use of plants at Christmas effectively transforms the modern day living room into a place of shamanic ritual Christian R tsch and Claudia M ller Ebeling show how the ancient meaning of the botanical elements of Christmas provides a unique view of the religion that existed in Europe before the introduction of Christianity The fir tree was originally revered as the sacred World Tree in northern Europe When the church was unable to drive the tree cult out of people s consciousness it incorporated the fir tree by dedicating it to the Christ child Father Christmas in his red and white suit who flies through the sky in a sleigh drawn by reindeer has his mythological roots in the shamanic reindeer herding tribes of arctic Europe and Siberia These northern shamans used the hallucinogenic fly agaric mushroom which is red and white to make their soul flights to the other world Apples which figure heavily in Christmas baking are symbols of the sun god Apollo so they find a natural place at winter solstice celebrations of the return of the sun In fact the authors contend that the emphasis of Christmas on green plants and the promise of the return of life in the dead of winter is just an adaptation of the pagan winter solstice celebration
