House, **Marriage, Money and Divorce in Medieval Islamic Society** Yossef Rapoport,2005-04-21 High rates of divorce often taken to be a modern and western phenomenon were also typical of medieval Islamic societies By pitting these high rates of divorce against the Islamic ideal of marriage Yossef Rapoport radically challenges usual assumptions about the legal inferiority of Muslim women and their economic dependence on men He argues that marriages in late medieval Cairo Damascus and Jerusalem had little in common with the patriarchal models advocated by jurists and moralists The transmission of dowries women s access to waged labour and the strict separation of property between spouses made divorce easy and normative initiated by wives as often as by their husbands This carefully researched work of social history is interwoven with intimate accounts of individual medieval lives making for a truly compelling read It will be of interest to scholars of all disciplines concerned with the history of women and gender in Islam Calendar of State Papers, Foreign Series, of the Reign of Elizabeth: Jan. 1581-Apr., 1582 Great Britain. willing to resign herself to months of aggressive treatment and knowing the outcome will be the same regardless she takes matters into her own hands and surrenders her body to the sea But it isn't only Anna's death that shocks her family The papers she left behind may lead her sister Helen to discover more about Anna than she or any of the Hand family need to know Gilchrist excels in drawing the bonds of love and resentment in sexual and family relationships and no one who encounters her characters here or in her earlier works will want to miss reading about them again Publishers Weekly

accessible to nonspecialists and students as well as to scholars in the field Marina Rustow changes our understanding of the origins and nature of heresy itself Scholars have long believed that the Rabbanites and Qaraites the two major Jewish groups under Islamic rule split decisively in the tenth century and from that time forward the minority Qaraites were deemed a heretical sect Qaraites affirmed a right to decide matters of Jewish law free from centuries of rabbinic interpretation the Rabbanites in turn claimed an unbroken chain of scholarly tradition Rustow draws heavily on the Cairo Geniza a repository of

papers found in a Rabbanite synagogue to show that despite the often fierce arguments between the groups they depended on each other for political and financial support and cooperated in both public and private life This evidence of remarkable interchange leads Rustow to the conclusion that the accusation of heresy appeared sporadically in specific contexts and that the history of permanent schism was the invention of polemicists on both sides Power shifted back and forth fluidly across what later commentators particularly those invested in the rabbinic claim to exclusive authority deemed to have been sharply drawn boundaries Heresy and the Politics of Community paints a portrait of a more flexible medieval Eastern Mediterranean world than has previously been imagined and demonstrates a new understanding of the historical meanings of charges of heresy against communities of faith Historians of premodern societies will find that in her fresh approach to medieval Jewish and Islamic culture Rustow illuminates a major issue in the history of religions
