Levesque, 1997 Volume 22 in the LTPM series offers a synchronic investigation of the thought of Christian philosopher Louis Dupre Working from a careful reading of Dupre's vast body of writings Paul Levesque demonstrates that in Dupre's work all religious expression insofar as it has a transcendent reference is intrinsically symbolic In the course of his study Levesque discusses the general necessity of employing symbols for religious expression investigates in depth Dupre's symbol theory and applies it to the religious symbols of ritual sacraments and religious art examines the modern inability to fully form religious symbols and explores Dupre's particular call to recover the mystical experience in personal life

Marx and the Politics of Abstraction Paul Paolucci, 2011-03-05 Many scholars see science and politics as mutually exclusive realms where the latter's influence contaminates former's purity Karl Marx's critics often interpret him within this framework where his value laden judgments render his analysis of capitalism moot Though defenders argue that Marx rejects an objective subjective dichotomy this book offers a different interpretation Through the method of critique Marx examines problems and biases in putatively neutral forms of scientific knowledge specifically models that fail to capture the relations of power and knowledge dominant in capitalist society By incorporating these relations into his abstractions and tracing their historical movement Marx's corrective to malformed approaches to scientific knowledge more readily lays bare capitalist society's exploitative and distortive nature This book demonstrates these principles and applies them to conventional sociological methods theories of religion and class analysis [Karl Marx's Social and Political Thought](#) Bob Jessop, Charlie

Marx at the Margins Kevin B. Anderson, 2024-05-31 In *Marx at the Margins* Kevin Anderson uncovers a variety of extensive but neglected texts by Marx that cast what we thought we knew about his work in a

startlingly different light Analyzing a variety of Marx's writings including journalistic work written for the New York Tribune Anderson presents us with a Marx quite at odds with conventional interpretations Rather than providing us with an account of Marx as an exclusively class based thinker Anderson here offers a portrait of Marx for the twenty first century a global theorist whose social critique was sensitive to the varieties of human social and historical development including not just class but nationalism race and ethnicity as well Through highly informed readings of work ranging from Marx's unpublished 1879-82 notebooks to his passionate writings about the antislavery cause in the United States this volume delivers a groundbreaking and canon changing vision of Karl Marx that is sure to provoke lively debate in Marxist scholarship and beyond For this expanded edition Anderson has written a new preface that discusses the additional 1879-82 notebook material as well as the influence of the Russian American philosopher Raya Dunayevskaya on his thinking

Criticism of Earth Roland Boer, 2012-06-08 Drawing on mostly ignored texts this book thoroughly reassesses Marx and Engels's engagement with theology Alongside opium Hegel and Feuerbach other dimensions become important historical context Bruno Bauer Max Stirner fetishism secularism political ambivalence and the revolutionary possibilities of theology

The Russian Reading Revolution S.

Lovell, 2000-02-24 Of all of Soviet cultural myths none was more resilient than the belief that the USSR had the world's greatest readers This book explains how the Russian reading myth took hold in the 1920s and 1930s how it was supported by a monopolistic and homogenizing system of book production and distribution and how it was challenged in the post Stalin era first by the latent expansion and differentiation of the reading public and then more dramatically by the economic and cultural changes of the 1990s

Cusanus Peter J. Casarella, 2006-03-29 The thought of Nicholas of Cusa 1401 1464 draws upon a rich heritage of ancient medieval and Renaissance traditions and ties these traditions together into a synthesis that continues to evoke new ideas in philosophy theology aesthetics history political theory and the philosophy of science This volume offers a detailed historical background to Cusanus s thinking while also assaying his significance for the present It brings together major contributions from the English speaking world as well as voices from Europe Each essay represents a fresh new perspective on Cusanus the cardinal philosopher theologian political theorist mathematician and humanist from the fifteenth century The collection encompasses four kinds of research on Cusanus One approach focuses on the ancient and medieval tradition of which Nicholas saw himself to be a part A second mode of inquiry looks at particular ideas or texts of Cusanus in their own right A third method treats Cusanus in terms of his relationship to other thinkers of the fifteenth century Finally a fourth perspective opens the door to a contemporary retrieval of Cusanus s thought Never before have so many disciplinary perspectives been collected together in a single volume on Nicholas of Cusa The diverse voices of the volume are thus attuned to the multifaceted heritage of the thinker of the fifteenth century but speak in a compelling way for the need to reconsider his novel integration of thought today The book will appeal not only to specialists in the thought of Cusanus but also to individuals who are interested in learning how the personal and intellectual legacy of a German cardinal from the fifteenth century can still provoke so much interest among a global community of scholars today

PRAISE FOR THE BOOK This is a very rich collection of papers which portray and analyze Nicholas of Cusa as mystic philosopher politician aesthete and natural scientist They excellently communicate both the versatility and the underlying coherence of Nicholas magisterial work Peter Casarella and his contributors have given us an important publication which is to be warmly recommended not only for those with interests in the late medieval world but also for those who wish to discover in the past vital resources for the formation of the present Oliver Davies King s College London Peter Casarella and the contributors have presented a book which leads to many fundamentally convincing aspects of the legacy of learned ignorance Harald Schwaetzer *The Medieval Review* The editor of this volume Peter Casarella has organized a collection of papers rooted in a panoply of viewpoints presuppositions and fields of inquiry which when gathered together much like the Tegernsee monks gathered around the icon of Christ in Cusa s classic *De visione Dei* works to supplement enrich and augment what otherwise would be more impoverished perspectives In this way the collection authentically

represents the Cusan legacy demonstrating the importance and enduring relevance of Cusa's conjectures in various fields. The essays in this collection demonstrate a significant advance in Cusan scholarship. The quality of research represented in these essays helps bend the branches that the fruit may be.

Person, Being, and History Michael Baur, Robert E. Wood, 2011-03. During a distinguished career as thinker and educator at universities across North America, philosopher Kenneth L. Schmitz has striven to recover metaphysical realism in a world that has after Kant turned to the subject. Schmitz has done so through precisely the window of the subjectivity, particularity, and concern for history which marks philosophy after Kant. Although primarily associated with his native University of Toronto where he was known as the Educator, Schmitz also taught at Loyola Marymount, Marquette, the Catholic University of America, and the John Paul II Institute for Studies on Marriage and Family. His teaching focused upon the singularity of the human person founded upon the notion of being that generates the history of philosophy. He was eminently generous in his appreciation of the philosophers about whom he lectured. He taught philosophy richly grounded in the history of philosophy as a gold mine rather than as a minefield. Anchored in his spirit, the various essays in this volume by colleagues and former students of Schmitz examine his thought and the subjects of his teaching. In addition to an overall exposition of his own thought, the collection treats themes such as gift, faith, and reason, culture and dialogue, modernity and post modernity, and themes in the work of various thinkers including Aristotle, Anselm, Aquinas, Martin Heidegger, Gabriel Marcel, Max Scheler, and Jean Paul Sartre. Special attention is given to G. W. F. Hegel whose philosophy Schmitz was particularly adept at teaching. He turned many a budding scholar into a life-long student of Hegel's work. Several of the essays begin with a special tribute to the honoree. The volume concludes with a bibliography of Schmitz's many works.

Michael Baur is associate professor of philosophy and adjunct professor of law at Fordham University. He is the editor of numerous works including *The Emergence of German Idealism*. Robert E. Wood is professor and former chair of philosophy at the University of Dallas. He is the longtime editor of the *American Catholic Philosophical Quarterly* and author of three books and numerous articles.

Contributors: Thomas Anderson, Jennifer Bates, Michael Baur, John Burbidge, Thomas Busch, James Crooks, Daniel O. Dahlstrom, John Deely, Martin Donougho, Jude P. Dougherty, Louis Dupr, James Kow, Jay Lampert, John C. McCarthy, Ralph McInerny, John Russon, Daniel E. Shannon, and Robert E. Wood.

PRAISE FOR THE BOOK: The editors of this book have done a great service in drawing attention to the notable excellences of Schmitz's work, excellences both systematic and historical. Perhaps this will provide some impetus to make available more of his essays, surely worthy to be communicated to as wide an audience as possible.

The Thomist: In his work, Kenneth Schmitz seeks to unify the disparate and argumentatively to seek the common ground on a diverse gathering of opinions. Not that he is blind to difference or so tolerant that criticism is suspended. Rather, his principal convictions enable him to favor the principle of charity in interpretation and respect in critical assessment. That these qualities have been communicated to his former students and colleagues is apparent in these essays. This collection brings the facets of Schmitz's philosophical
