Statistical Office, United Nations Staff, 1990-08-01 Yearbook of the United Nations, Volume 41 (1987) United Nations, 2023-11-27 Issued annually since 1946 47 the Yearbook is the principal reference work of the United Nations providing a comprehensive one volume account of the Organization s work It includes details of United Nations activities concerning trade industrial development natural resources food science and technology social development polulation environment human settlement children and legal questions along with information on the work of each specialized agency in the United Nations family **Policy Research Working Paper, Issue 2012** Donald F. Larson, Rita Butzer, Yair Mundlak, 1998 The Demography of Africa Bloomsbury Publishing, 1996-11-25 Written lucidly and simply to serve as an introduction to the study of the African continent from a human population perspective this book demonstrates important factors in the ebb and flow of group size and structure using the example of the fastest growing region in the world From a total original population of less than a quarter million in prehistoric times to the present count of 642 million people in 1990 Africa is now demonstrating an annual growth rate of 3 0% the highest on the planet While the rest of the world s population is expected to increase by 60% Africa s is expected to increase by 100% doubling by the year 2025 to a projected total of 1 6 billion people The major factor creating the high growth rate is the drop in death rates while the fertility rates remain high Stress on the population has been related to urbanization which has increased since African countries attained independence in the 1960s Employment opportunities in cities are inadequate and slum conditions have appeared around most major cities Since agriculture remains the major industry and occupation rural development policies are seen to hold the most promise for stemming urban migration and reducing famine and poverty *Asian Industrialization and Africa* Howard Stein, 1995-06-18 Drawing on case studies from the industrialization of East and Southeast Asian nations this text critically examines the structural adjustment policies used in Africa since the 1980s The Asian country studies include Singapore Malaysia Taiwan South Korea Hong Kong and Meiji Japan Myths Of Rich And Poor Michael W. Cox, Richard Alm, 2008-08-04 Popular wisdom holds that the years since 1973 the end of the postwar miracle have been a time of economic decline and stagnation lackluster productivity falling real wages and lost competitiveness The rich have gotten richer the poor have gotten poorer and most of us have barely held on while watching all the best jobs disappear overseas As Myths of Rich and Poor demonstrates this picture is not just wrong it s

spectacularly wrong The hard numbers simple facts and iconoclastic arguments of this book will change the way you think about the American economy **Learning from the Japanese** E. Wayne Nafziger,2016-09-17 With the collapse of the Soviet economy in the early 1990s Japan has become the major non Western model for late developing countries This book looks at Japan s early economic modernisation to see if today s low income countries can learn any lessons **Working Papers** ,1992 **Economic History of a Divided Europe** Ivan T. Berend,2020-02-28 This book presents the sharp regional differences within the integrating European continent Four regions Northwestern Europe Southern Europe Central Europe and Eastern Southeastern Europe represent high medium and relatively less developed levels of economic advancement These disparities have emerged as a result of historical differences that produced and reinforced cultural and behavioral differences The author examines the distinctions between the regions looks at how these differences transpired and became so retrenched and answers the question of why some countries were able to elevate to higher levels of economic development while others could not This book is unique in that it provides a timely historical analysis of the main causes of the most pressing conflicts in Europe today Readers will come away from this book with a deeper understanding of the sharp divergence in economic standing between the four different regions of Europe as well as knowledge about how institutional corruption and other cultural features exacerbated these variations The book also offers a better understanding of major European Union conflicts between member countries and between member and nonmember countries as well as the rise of autocratic regimes in certain countries The book begins with a short history of European integration throughout European civilization and then goes on to discuss the modern reality of integration and attempts to homogenize the Continent that divided into four different macro regions It will primarily appeal to scholars researchers and students studying Europe from various fields including economics business history political science and sociology as well as a general readership interested in Europe s past present and future *Yearbook of the United Nations, Volume 39 (1985)* United Nations,2023-08-28

Human Development in Iraq Bassam Yousif,2013-06-17 This systematic evaluation of Iraq s political economy and human development offers a complex and sophisticated analysis of Iraq s recent history Focusing on the period from 1950 up to the Gulf war in 1990 the book brings an understanding of how development has been shaped or constrained in this much misunderstood country The author employs the human development paradigm to link human development and human rights to the analysis of political economy The resulting scholarship on income and investment education and health the status of women and human rights presents a nuanced balanced but critical appraisal of the complex interrelationships between economic growth and development and illustrates the fragility of that development especially when political institutions fail to keep up with the rapid expansion in human capabilities Providing the historical analysis needed to understand Iraq s current political situation this book will be of great interest to scholars of development studies Iraq and political economy

Political Data Handbook Jan-Erik Lane,David McKay,Kenneth Newton,1996-12-26 This fully revised and updated

edition of an established reference book provides in one volume the most comprehensive and detailed statistical guide available to the government and politics of the twenty four countries in the OECD There is no lack of statistical data about the OECD countries the nineteen countries of Western Europe together with Canada the United States Japan Australia and New Zealand but much of the material is hard to track down and little is available in comparative form The editors of the present volume have sifted through many hundreds of sources to select the essential facts and figures on population social structure employment the economy public finance government structures and political parties from 1950 to the present day In addition they provide social and economic background for each of the countries covered to enable the data to be put in context A short final section lists sources of further information The resulting combination is both invaluable and fascinating whether it is used casually to check up a fact or two or systematically to make detailed comparisons between the most advanced political systems of the Western world

The Emerging Nonprofit Sector Lester M. Salamon, Helmut K. Anheier, 1996 Chapter 6 Country profiles *Economic Growth, Low Income and Housing in South Korea* Kim Woo-Jin, 1997-01-12 a wide ranging scholarly and humane book which should be read by anyone seriously interested in this country David Donnison From the devastation of the Korean war there emerged one of the most dynamic rapidly growing economies the world has ever seen Starting from a concern about the housing of people struggling to survive on low incomes in the cities of South Korea Kim Woo Jin throws light upon the whole development of Korean society since the civil war He argues that housing has played a central part in both the development of the economy and its more recent slowdown In the future housing policies may play their part in resisting the destructive forces that the probable reunification of North and South will bring and recreate hope for the future

Revolution and Economic Transition Hooshang Amirahmadi, 1990-10-26 Amirahmadi focuses on the Iranian economy under the Islamic Republic a subject that remains largely neglected in post revolutionary Iranian research and analysis Drawing from a wealth of primary sources he uses an empirical logical framework of analysis within a modified world system perspective to offer a detailed and balanced picture of the macroeconomic trends problems and policies since 1976
