The destruction of the Saddam Hussein regime in Iraq has opened the path to a new future for Iraqis although it is not yet certain what direction that future will take Iraq is a fragile political entity created in the aftermath of World War I through the involuntary union of ethnically and religiously diverse portions of the former Ottoman Empire In the years following Iraq's creation a nascent nationalism emerged which successive leaders sought to nurture and encourage This effort culminated in Saddam Hussein's efforts to generate a radical Iraq centered form of Arab nationalism which served to promote loyalty to the state and more importantly to Saddam The U S Iraqi War of 2003 did not emerge as a strong test of Iraqi nationalism While Saddam did have some committed defenders large segments of the population remained neutral in the confrontation between the U S led coalition and Saddam's defenders After the war the United States emerged as a power on probation with the Iraqi population many of whom were uncertain that their well being was a major factor in the U S decision to intervene and remain in Iraq Anti American conspiracy theories became widespread in Iraq while conservative Muslims worried about the corrupting influence of perceived Western vices The removal of Saddam's regime created problems and opportunities for Iraqi ethnic and religious communities Arab Shi'ites who comprise the majority of the population saw new opportunities for political leadership perhaps with a powerful but fragmented clergy leading the way Sunni Arabs correspondingly worried about a new distribution of power and many began to view de Baathification as a process that further threatens their community Kurds remain interested in de facto but not formal independence from Iraq and the danger of an Arab backlash to Kurdish aspirations is correspondingly serious Tribal identities further complicate the situation Some attacks against U S forces have occurred following the war with most of the violence associated with residual Saddam loyalists from among the Sunni Arab community Many Shi'ites are more reluctant to engage in such activity so long as it appears that they can take power by political means Nevertheless strong anti U S views are present in the pro Iranian Shi'ite organizations and these views may spread among other Shi'ites over time The possibility of confrontations between U S troops and hostile crowds is particularly worrisome as is the availability of massive quantities of weapons to the Iraqi population In light of this situation the United States needs to search continually for areas of agreement with the nonextremist clergy while also recognizing issues on which collaboration is not possible U S leaders must also support a continued strong information campaign expand efforts to challenge Iranian activities in Iraq and provide troops with extensive training in stabilization and occupation duties The participation of troops from moderate Arab and Muslim states in stabilization and reconstruction activities is important

and should be encouraged U S administrators must also be careful how they use the word de Baathification since some Baath ideals are not inherently anti democratic although the party itself was deeply corrupted by Saddam Finally any U S efforts to achieve long term dominance of Iraqi politics can be expected to produce a serious backlash **Iraq and Vietnam** Jeffrey Record,2004

Iraq, 2003-4 And Mesopotamia, 1914-18: A Comparative Analysis In Ends And Means Lieutenant Colonel James D. Scudieri,2014-08-15 This paper is a comparative analysis of the British campaign in Mesopotamia during the First World War 1914 18 and the current campaign in Iraq 2003 4 The study focuses on an examination of Phase III decisive operations and Phase IV reconstruction operations including strategic imperatives operational planning and the impact of changes during operations The British had no campaign plan for Mesopotamia upon the outbreak of war in 1914 Deployment to this theater began as a peripheral operation Overriding politico strategic requirements spurred further exploitation to reach Baghdad Failure to match ends and means resulted in the disastrous surrender of a division at Kut on 29 April 1916 Sweeping reorganization and large scale reinforcements resumed the advance Baghdad fell on 11 March 1917 The British conducted ad hoc reconstruction operations throughout this period beginning in the Basra vilayet and expanding their scope with the capture of Baghdad The British established viable civil institutions to include police forces a functioning legal system Revenue and Customs Departments a banking system and even domestic mail Conversely the recent U S strategy of preemption in Iraq was a policy decision based upon the wider strategic perspective and benefited from exhaustive operational planning However the rolling start campaign utilized minimal forces They had the capability to win the decisive operations phase rapidly but this same troop level was woefully inadequate to conduct incompletely planned solely under estimated post conflict operations Both campaigns suffered from a serious mismatch of ends and means at certain stages especially for post war reconstruction operations They achieved significant success due to herculean efforts in theater The study concludes with recommendations for strategic leaders related to planning and force structure Imagining the Nation: Nationalism,

Sectarianism and Socio-Political Conflict in Iraq Harith Al Qarawee,2012-04-05 When the statue of Saddam Hussein was pulled down in Baghdad s Firdous square Iraq was entering a new phase of uncertainty This is a country whose history has been shaped by foreign occupations authoritarianism wars and violence Its identity was always a matter of controversy The incompatibility between Iraq as a territorial entity and the various cultural identities of its population made it more difficult for Iraqis to imagine their Nation This Identity Problem has been made worse by a political power which has always based itself on the hegemony politics of exclusion Through a long journey in the historical processes and socio political conflicts the author tells the story of a country devastated by its legacy seeking to reconcile with itself and re imagine its nationhood
