Lynd, 1980 **On Shame And The Search For Identity** Helen Merrell Lynd, 2013-08-21 First published in 1999 This is Volume XIII of twenty one of the Individual Differences Psychology series Written in 1958 this study looks at the areas of shame and guilt in the search for identity **Identity and Capitalism** Marie Moran, 2014-11-13 This is a splendid book that dispels myths about identity and presents a cultural materialist case for the study of such keywords and their preoccupations under the hegemony of neoliberal capitalism Professor Jim McGuigan Loughborough University Identity particularly as it is elaborated in the associated categories of personal and social identity is a relatively novel concept in western thought politics and culture The explosion of interest in the notion of identity across popular political and academic domains of practice since the 1960s does not represent the simple popularisation of an older term as is widely assumed but rather the invention of an idea Identity and Capitalism explores the emergence and evolution of the idea of identity in the cultural political and social contexts of contemporary capitalist societies Against the common supposition that identity always mattered this book shows that what we now think of routinely as personal identity actually only emerged with the explosion of consumption in the late twentieth century It also makes the case that what we now think of as different social and political identities only came to be framed as such with the emergence of identity politics and new social movements in the political landscapes of capitalist societies in the 60s and 70s Marie Moran provides an important new exploration of the articulation of the idea of identity to the social logic of capitalism from the organised capitalism of the mid twentieth century up to and including the neoliberal capitalism that prevails today Drawing on the work of Raymond Williams the cultural materialist approach developed here provides an original means of addressing the political debates about the value of identity in contemporary capitalist societies

Alessandra Fussi, Raffaele Rodogno, 2023-02-01 Few emotions have divided opinion as deeply as shame Some scholars have argued that shame is essentially a maladaptive emotion used to oppress minorities and reinforce stigmas and traumas an emotion that leaves the self at the mercy of powerful others Other scholars however have argued that the absence of a sense of shame in a subject their shamelessness is tantamount to a vicious moral insensitivity As the eleven original chapters in this collection attest however shame scholars are entering a new phase one in which scholarship no longer attempts to defend one side of shame against the other but rather accepts both faces as faithful to the phenomenon to be explained At the core of our understanding of shame there are profound disagreements about the importance of the Other in shaping our moral identity As this collection shows by its study of shame the difficulty of the connection between Self Other and morality spans over millennia and cultures and currently animates important debates at the core of feminism and disability studies Contributors Mark Alfano Alessandra Fussi Lorenzo Greco JeeLoo Liu Katrine Krause Jensen Heidi L Maibom Tjeert Olthof Imke von Maur Alba Montes S nchez Raffaele Rodogno Alessandro Salice Krista K Thomason ngrid Vendrell Ferran

Identity Gerald Izenberg, 2019-03-08 Identity The Necessity of a Modern Idea is the first comprehensive history of identity as the answer to the question who or what am I It covers the century from the end of World War I when identity in this sense first became an issue for writers and philosophers to 2010 when European political leaders declared multiculturalism a failure just as Canada which pioneered it was hailing its success Along the way the book examines Erik Erikson s concepts of psychological identity and identity crisis which made the word famous the turn to collective identity and the rise of identity politics in Europe and America varieties and theories of group identity debates over accommodating collective identities within liberal democracy the relationship between individual and group identity the postmodern critique of identity as a concept and the ways it nonetheless transformed the social sciences and altered our ideas of ethics At the same time the book is an argument for the validity and indispensability of identity properly understood Identity was not a concept before the twentieth century because it was taken for granted The slaughter of World War I undermined the honored identities of prewar Europe and as a result the idea of identity as something objective and stable

was thrown into question at the same time that people began to sense that it was psychologically and socially necessary. We can't be at home in our bodies, act effectively in the world or interact comfortably with others without a stable sense of who we are. Gerald Izenberg argues that while it is a mistake to believe that our identities are givens that we passively discover about ourselves decreed by God, destiny or nature, our most important identities have an objective foundation in our existential situation as bodies, social beings and creatures who aspire to meaning and transcendence as well as in the legitimacy of our historical particularity.

100 Years of Identity Crisis Frank Furedi, 2021-09-07 The concept of Identity Crisis came into usage in the 1940s and it has continued to dominate the cultural zeitgeist ever since. In his exploration of the historical origins of this development, Frank Furedi argues that the principal driver of the crisis of identity was and continues to be the conflict surrounding the socialisation of young people. In turn, the politicisation of this conflict provides a terrain on which the Culture Wars and the politicisation of identity can flourish. Through exploring the interaction between the problems of socialisation and identity, this study offers a unique account of the origins and rise of the Culture Wars.

Persuasions and Prejudices Irving Louis Horowitz, 2016-06-09 Review essays and statements written for special occasions may reveal as much about the writer as those written about. This is the presumption undergirding this collection of thirty-five years of criticism and commentary by Irving Louis Horowitz. For this volume, he selected his comments on famous, near famous and infamous sociologists, political scientists and assorted literary figures in between. Taken as a whole, this volume will surprise and delight readers who are acquainted with Horowitz's other works as well as those who are interested in the people he writes about. The book covers notable social scientists from Arendt to Zetterberg and such major figures in between as Becker, Bell, de Jouvenel, Mills, Parsons, Solzhenitsyn and more than eighty others who have had an effect on the contemporary social and political landscape. Each is critically examined, sometimes positively, other times negatively. Horowitz was a major figure in his own right and his writing here displays the kind of refreshing frankness experts will expect and the general reader will appreciate. The underlying assumption behind the volume, giving its disparate parts a unified characteristic, is that together these observations on others amount to a general perspective on social science held by the author. Whether his larger ambition is accepted or disputed, there is no doubt that the volume provides a standard against which to measure the literary quality of writing in the world of professional social research.
