Plastic Nation The Curse Of Thainess In Thai Burmese Relations:

A Plastic Nation Pavin Chachavalpongpun, 2005 *A Plastic Nation* examines the role of Thai nationhood in domestic and international politics Although in fact ill defined Thainess or khwampenthai has been consistently used by Thai leaders to legitimize their power and defend their economic interests Not only has the assertion of Thainess been deeply rooted in the private interests of those in power it has been deployed as part of nationalist sentiment to guard against any international norms often considered as threats to the leaders own interests This book is intended for students and professors in the field of Thai nationhood and nationalism contemporary Thai Burmese relations and policy practitioners in the government and military

Energy, Governance and Security in Thailand and Myanmar (Burma) Adam Simpson, 2016-04-29 Across the world states are seeking out new and secure supplies of energy but this search is manifesting itself most visibly in Asia where rapid industrialisation in states such as China and India is fomenting a frantic scramble for energy resources Due to entrenched societal inequities and widespread authoritarian governance however the pursuit of national energy security through transnational energy projects has resulted in devastating impacts on the human and environmental security of local populations These effects are particularly evident in both Thailand and Myanmar Burma which located at the crossroads of Asia are increasingly engaged in the cross border energy trade Based on extensive fieldwork and theoretical analysis this ground breaking book proposes a new critical approach to energy and environmental security and explores the important role that both local and transnational environmental movements are playing in the absence of effective and democratic governments in providing activist environmental governance for energy projects throughout the region By comparing the nature of this activism under two very different political regimes it delivers crucial theoretical insights with both academic and policy implications for the sustainable and equitable development of the South s natural resources

Bilateral Legacies in East and Southeast Asia N Ganesan, 2016-04-29 This edited volume examines the concept of overhangs or legacies or negative stereotypical images in international relations and their impact on bilateral relations between geographically proximate states in East Asia The case studies chosen Japan Korea Japan China Vietnam China Thailand Myanmar and Thailand Cambodia demonstrate conclusively that bilateral overhangs or legacies have a significant impact on contemporary international relations Such images are regularly replicated and stoked by a variety of constituencies including state agencies for their own selfish interests The evidence also points to the fact that such bilateral relationships are relatively self contained and often operate with their own dynamics Powerful condensation symbols are appropriated to weave a story of the virtuous self and the stereotypical other This negative image and its replication is important to an understanding of turbulent bilateral relations in East Asia and also helps to inform how such relations can be brought to an even keel

Reinventing Thailand Pavin Chachavalpongpun, 2010 From 2001 to 2006 Prime Minister Thaksin Shinawatra transformed Thailand s international role from one of obscurity into a kind of regional hegemon Thaksin s diplomatic

ambitions were reflected in his myriad of grandiose foreign policy initiatives designed to locate Thailand at the forefront of regional politics and reinstall the Thai sphere of influence over weaker neighbouring states He abolished the traditional bending with the wind foreign policy revamped the Thai Foreign Ministry and empowered Thai envoys through the CEO Ambassadors programme But in this process Thaksin was accused of exploiting foreign policy to enrich his business empire Thaksin's reinvention of Thailand as an up and coming regional power was therefore tainted by conflicts of interest and the absence of ethical principles in the country's foreign policy "e;Good Coup"e; Gone Bad Pavin

Chachavalpongpun,2014-11-11 What did the 2006 military coup show us It demonstrated that the crux of the Thai crisis is far more serious and much wider in scope than had previously been thought The monarchy is surely not a victim in the protracted conflict but the root cause and continuing factor that has eroded Thai politics The coup set in motion more prejudicial uses of the lese majeste law and in the process has led to more political prisoners It has also shredded the military into several segments turning generals into desperate royalists who continue to live off the monarchy in order to survive Issues of violence in the Thai south and the Thai Cambodian dispute became greatly intensified in the age of militarized politics The coup also produced unique colour coded politics and created crises of legitimacy This book is a collection of essays that reflect developments in Thai politics in the post coup period *Political Parties, Party Systems And Democratization In East Asia* Liang Fook Lye,Wilhelm Hofmeister,2011-03-11

Some fledgling democracies in the world have encountered setbacks due to political parties trying to grapple with the expectations of sophisticated electorates and introducing gradual political reforms over the years This book describes how democracy is evolving in East Asia and how it assumes different forms in different countries with political parties adapting and evolving alongside It has a two fold intent First it contends that the existing variety of party systems in East Asia will endure and may even flourish rather than converge as liberal democracies Second it highlights the seeming political durability of one party systems unlike two part or multi party systems in the US and Europe and their enduring predominance in countries such as Cambodia China Singapore and Vietnam *Political Parties, Party Systems and Democratisation in East Asia* Liang Fook Lye,Wilhelm Hofmeister,2011

K. Fung,Steven Drakeley,2013-11-20 With the Asian Century now upon us bringing with it many profound economic and

ASEAN as an Actor in International Fora Paruedee Nguitragee, Jürgen Rüdland, 2015-04-16 ASEAN as an Actor in International Fora addresses a blind spot in ASEAN research and in comparative regionalism studies by assessing why how when and to what extent ASEAN member governments achieve a collective presence in global fora Written for academic researchers and practitioners working in areas such as international relations political science and international law it examines ASEAN s negotiating behavior with a novel four point cohesion typology The authors argue that ASEAN s cognitive prior and its repository of cooperation norms have affected ASEAN s negotiation capacities formats strategies and cohesion in international fora Using two case studies one on ASEAN s cohesion in the WTO agricultural negotiations and one on UN negotiations on forced labor in Myanmar they examine ASEAN s collective actions at different stages of negotiation in different issue areas and in different negotiating fora The book concludes by providing recommendations for strengthening ASEAN s international negotiation capacities

The Ambiguous Allure of the West Rachel V. Harrison, Peter A. Jackson, 2018-05-31 The Ambiguous Allure of the West examines the impact of Western imperialism on Thai cultural development from the 1850s to the present and highlights the value of postcolonial analysis for studying the ambiguities inventions and accommodations with the West that continue to enrich Thai culture Since the mid nineteenth century Thais have adopted and adapted aspects of Western culture and practice in an ongoing relationship that may be characterized as semicolonial As they have done so the notions of what constitutes Thainess have been inflected by Western influence in complex and ambiguous ways producing nuanced hybridized Thai identities The Ambiguous Allure of the West brings together Thai and Western scholars of history anthropology film and literary and cultural studies to analyze how the protean Thai self has been shaped by the traces of the colonial Western Other Thus the book draws the study of Siam Thailand into the critical field of postcolonial theory expanding the potential of Thai Studies to contribute to wider debates in the region and in the disciplines of cultural studies and critical theory The chapters in this book present the first sustained dialogue between Thai cultural studies and postcolonial analysis By clarifying the distinctive position of semicolonial societies such as Thailand in the Western dominated world order this book bridges and integrates studies of former colonies with studies of the Asian societies that retained their political independence while being economically and culturally subordinated to Euro American power

Ghosts of the New City Andrew Alan Johnson, 2014-07-31 Chiang Mai literally new city suffered badly in the 1997 Asian financial crisis as the Northern Thai real estate bubble collapsed along with the Thai baht crushing dreams of a renaissance of Northern prosperity Years later the ruins of the excesses of the 1990s still stain the skyline In Ghosts of the New City Andrew Alan Johnson shows how the trauma of the crash brought back vividly by the political crisis of 2006 haunts efforts to remake the city For many Chiang Mai residents new developments harbor the seeds of the crash which manifest themselves in anxious stories of ghosts and criminals who conceal themselves behind the city's progressive veneer Hopes for rebirth and fears of decline have their roots in Thai conceptions of progress which draw from Buddhist and animist ideas of power and sacrality Cities Johnson argues were centers where the charismatic power of kings and animist spirits were grounded these entities assured progress by imbuing the space with sacred power that would avert disaster Johnson traces such magico religious conceptions of potency and space from historical records through present day popular religious practice and draws parallels between these and secular attempts at urban revitalization Through a detailed ethnography of the contested ways in which academics urban activists spirit mediums and architects seek to revitalize the flagging economy and infrastructure of Chiang Mai Johnson finds that alongside the hope for progress there exists a discourse about urban ghosts deadly construction sites and the lurking anxiety of another possible crash a discourse

that calls into question history's upward trajectory In this way *Ghosts of the New City* draws new connections between urban history and popular religion that have implications far beyond Southeast Asia *Myanmar/Burma* Lex Rieffel, 2010-10-01

Burma had the brightest prospects of any Southeast Asian nation after World War II In the years since however it has dropped to the bottom of the world's socioeconomic ladder The grossly misruled nation officially known as Myanmar is in the midst of a political transition based on a new constitution and its first multiparty elections in twenty years That transition together with a recent change in U S policy prompted this book Two military dictators have ruled Myanmar with an iron fist for nearly fifty years A popular uprising in 1988 was brutally suppressed but it forced the generals to hold an election in 1990 When an anti regime party led by Nobel Peace Prize Laureate Aung San Suu Kyi won by a landslide however the generals rejected the results put Suu Kyi under house arrest for most of two decades and continued to exploit the country's abundant resources for their own benefit while depriving citizens of basic services Years of Western sanctions had no measurable impact but in 2009 the Obama administration adopted a new policy of pragmatic engagement encouraging greater respect of democratic principles and human rights as a basis for eventual removal of sanctions This thoughtful volume examines Burma today primarily through the eyes of its ASEAN partners its superpower neighbors China and India and its own people It provides insights into the overarching problem of national reconciliation the strategic competition between China and India the role of ASEAN and the underperforming resource cursed economy Contributors include Pavin Chachavalpongpun Institute of Southeast Asian Studies Singapore Termsak Chalermpananupap ASEAN Secretariat Jakarta David Dapice Tufts University Xiaolin Guo Institute for Security Development Policy Stockholm Gurmeet Kanwal Centre for Land Warfare Studies New Delhi Kyaw Yin Hlaing City University of Hong Kong Li Chenyang Institute of Southeast Asian Studies a

The Karen Revolution in Burma Ardeth Maung Thawngmung,2008 This study analyses the various types and stages of conflict that have been experienced by diverse groups and generations of Karen over the six decades of armed conflict between the Karen National Union KNU and successive Burmese governments Instead of focusing on those who are internally displaced those in the refugee camps on the Thai Burma border or living abroad or those in the KNU it places particular emphasis on the other Karen or the majority segment of the Karen population living inside Burma a population that has hitherto received little scholarly and journalistic attention It also assesses the Karen people s varied attitudes toward a number of political organizations that claim to represent their interests toward successive Burmese military regimes and toward the political issues that led to the original divide between accommodators and rebels This study argues that the lifestyles and strategies that the Karens have pursued are diverse and not confined to armed resistance Acknowledging these multiple voices will not only shed light upon the many positive features of ethnic interactions including harmonious communal relationships and significant attempts to promote peace and stability by encouraging normal activities and routines in both peaceful and war torn areas it will also help to identify policy recommendations for future ceasefire negotiations and a possible long term political settlement within the context of a militarized Burma
