Canada's willingness to address pressing crises through multilateralism including the COVID 19 pandemic Can Canada forge its own path in a turbulent world **Understanding Canadian Public Administration** Gregory J. Inwood, 2025-03-07

Understanding Canadian Public Administration introduces students to both the theory and the practice of public administration in Canada. It surveys the basic elements of the field in a historical context but with close attention to contemporary issues and developments to emphasize the real day to day impacts of public administration. The text provides an overview of the field in the context of democratic government including a comparison of the roles of the private and public sectors. The real world of government is examined with a focus on how theoretical ideas are translated into practice. This fifth edition features updates on topical issues and new developments in the field including the impact of the Covid 19 pandemic on governmental policy and action as well as new and updated sections on Aboriginal self government, human resources, accountability, financial management and intergovernmental administrative relations. Understanding Canadian Public Administration invites students to examine the issues of public administration from their own viewpoints and through their own experiences, bringing the field to life and making it immediately relevant to their current context.

Canada's Francophone Minority Communities Michael Derek Behiels, 2004. By the late 1950s, Canada's Francophone and Acadian minority communities were in rapid decline. Demographic, economic, socio-cultural, institutional and political factors that had sustained both the concept and the reality of French Canada for well over a century were being eliminated or transformed at an unprecedented rate. To survive, these beleaguered minority communities set out to conquer the challenges of rebuilding their provincial and national organizations, training a new generation of leaders, redefining their respective provincial and national identities, elaborating new political and constitutional policies and strategies for survival and expansion, and then defending and securing full implementation of these policies and strategies. Growth of their communities revitalized Francophone organizations and leaders lobbied for constitutional entrenchment of official bilingualism and of a mandated Charter right to education in their own language, including the right to governance over their own schools and school boards. Having achieved their objectives in the 1982 Charter of Rights and Freedoms, Francophone provincial and national leaders learned the techniques of micro constitutional politics to convince the Ontario, Alberta and Manitoba provincial governments to implement full and unfettered school governance by and for Francophone minority communities, a collectivist and remedial interpretation to the Charter's official language minority education rights section 23. The Canadian government assisted the Francophone minority in two ways: it made funds available to Francophone organizations and parents via the Court Challenges program, and it signed lucrative financial agreements with the provinces to help defray the additional costs of establishing French language schools and school boards. While the Francophone minority communities were pursuing implementation of their section 23 Charter rights, they found themselves drawn into the mega constitutional negotiations and ratification procedures surrounding the controversial Meech Lake Constitutional Accord (1987-90) and the omnibus

Charlottetown Consensus Report 1990 92 During the Quebec Provincial Round their Charter rights remained intact when the Meech Lake Accord failed to obtain ratification conception of a pan Canadian cultural and linguistic duality which helped minimize the constitutional and political impact of the Quebec government's insistence upon a territorial conception of duality that is an asymmetrical Canada Quebec federation When Canadians rejected the Charlottetown deal neither conception achieved formal constitutional recognition Nevertheless Canada's Francophone minority communities were regenerated by the intertwined developments of constitutional renewal and their winning of school governance A new vigorous Francophone pan Canadian national community emerged one capable of ensuring the survival of its constituents communities well into the 21st century Freedom and Indigenous Constitutionalism John Borrows, 2016-05-12 Indigenous traditions can be uplifting positive and liberating forces when they are connected to living systems of thought and practice Problems arise when they are treated as timeless models of unchanging truth that require unwavering deference and unquestioning obedience Freedom and Indigenous Constitutionalism celebrates the emancipatory potential of Indigenous traditions considers their value as the basis for good laws and good lives and critiques the failure of Canadian constitutional traditions to recognize their significance Demonstrating how Canada's constitutional structures marginalize Indigenous peoples ability to exercise power in the real world John Borrows uses Ojibwe law stories and principles to suggest alternative ways in which Indigenous peoples can work to enhance freedom Among the stimulating issues he approaches are the democratic potential of civil disobedience the hazards of applying originalism rather than living tree jurisprudence in the interpretation of Aboriginal and treaty rights American legislative actions that could also animate Indigenous self determination in Canada and the opportunity for Indigenous governmental action to address violence against women

Blockades or Breakthroughs? Yale D. Belanger, P. Whitney Lackenbauer, 2014-11-01 Blockades have become a common response to Canada's failure to address and resolve the legitimate claims of First Nations Blockades or Breakthroughs debates the importance and effectiveness of blockades and occupations as political and diplomatic tools for Aboriginal people The adoption of direct action tactics like blockades and occupations is predicated on the idea that something drastic is needed for Aboriginal groups to break an unfavourable status quo overcome structural barriers and achieve their goals But are blockades actually breakthroughs What are the objectives of Aboriginal people and communities who adopt this approach How can the success of these methods be measured This collection offers an in depth survey of occupations blockades and their legacies from 1968 to the present Individual case studies situate specific blockades and conflicts in historical context examine each group's reasons for occupation and analyze the media labels and frames applied to both Aboriginal and state responses Direct action tactics remain a powerful political tool for First Nations in Canada The authors of *Blockades or Breakthroughs* Argue that blockades and occupations are instrumental symbolic and complex events that demand equally multifaceted responses Contributors include Yale D Belanger Tom Flanagan Sarah King P Whitney Lackenbauer David

Blake Brown outlines efforts to regulate the use of guns by young people punish the misuse of arms impose licensing regimes and create firearm registries Brown also challenges many popular assumptions about Canadian history suggesting that gun ownership was far from universal during much of the colonial period and that

many nineteenth century lawyers including John A Macdonald believed in a limited right to bear arms Arming and Disarming provides a careful exploration of how social economic cultural legal and constitutional concerns shaped gun legislation and its implementation as well as how these factors defined Canada's historical and contemporary gun culture

Imperial Justice Bonny Ibhawoh, 2013-10-03 Imperial Justice explores the imperial control of judicial governance and the adjudication of colonial difference in British Africa Focusing on the Judicial Committee of the Privy Council and the colonial regional Appeal Courts for West Africa and East Africa it examines how judicial discourses of native difference and imperial universalism in local disputes influenced practices of power in colonial settings and shaped an evolving jurisprudence of Empire Arguing that the Imperial Appeal Courts were key sites where colonial legal modernity was fashioned the book examines the tensions that permeated the colonial legal system such as the difficulty of upholding basic standards of British justice while at the same time allowing for local customary divergence which was thought essential to achieving that justice The modernizing mission of British justice could only truly be achieved through recognition of local exceptionality and difference Natives who appealed to the Courts of Empire were entitled to the same standards of justice as their civilized colonists yet the boundaries of racial ethnic and cultural difference somehow had to be recognized and maintained in the adjudicatory process Meeting these divergent goals required flexibility in colonial law making as well as in the administration of justice In the paradox of integration and differentiation imperial power and local cultures were not always in conflict but were sometimes complementary and mutually reinforcing The book draws attention not only to the role of Imperial Appeal Courts in the colonies but also to the reciprocal place of colonized peoples in shaping the processes and outcomes of imperial justice A valuable addition to British colonial literature this book places Africa in a central role and examines the role of the African colonies in the shaping of British Imperial jurisprudence

Just One Vote Ian Stewart, 2009-04-30 On January 12 1986 Jim Walding was nominated as the New Democratic Party candidate for the Manitoba constituency of St

Vital Although Walding had been an MLA for fifteen years he had fallen out of favour with key elements in his party and won the nomination by only a single vote Walding went on in turn to bring down his own government by a single vote marking the only time in the history of Canadian politics that a majority government was brought down from within Combining data drawn from archives interviews and the media Just One Vote is a vivid and exceptionally detailed study of the nomination process Ian Stewart outlines the geographic social and political backdrop behind Walding's contested party nomination the unusual chain of events triggered by the contestation including the fall of the Pawley government and the NDP's defeat in the 1988 provincial election and examines the fallout from these events on Manitobans and Canadians

Continentalizing Canada Gregory J. Inwood, 2005-01-01 Free trade has been a highly contentious issue since the Conservative government of Brian Mulroney negotiated the first deal with the United States in the 1980s Tracing the roots of Canada's contemporary involvement in North American free trade back to the Royal Commission on the Economic Union and Development Prospects for Canada in 1985 also known as the Macdonald Commission Gregory J Inwood offers a critical examination of the commission and how its findings affected Canada's political and economic landscape including its present day reverberations Using original research including content analysis interviews archival information and surveys of relevant literature Inwood argues that the Macdonald Commission created an atmosphere and political discourse that made the continentalization of Canada possible by way of free trade agreements with the U S and Mexico Through the use of a suspect research program and with the aid of a select oligarchy within the Commission and the government bureaucracy opposition to continentalism from both the majority of the Canadian population and even several commissioners was ignored Accessible to readers interested in Canadian politics policy or economy Continentalizing Canada offers a thorough examination into the Macdonald

Commission and the resulting discourse in the Canadian political economy
