Waldo Emerson was a central figure The British side included such notables as Thomas Carlyle Matthew Arnold and John Ruskin The conflict was focused on the viability of liberal democracy and the notion that all men are created equal The question was What type of social political and cultural paradigm was best suited to ensure the advancement of civilization one in which all have equal rights regardless of race or class or one where a small number of privileged white elites exercise a controlling power The New Englanders embraced the former and the British the latter The result was a bitter alienation that ignited a global campaign for racial equality and universal human rights *Liberals against Apartheid* R.

Vigne,1997-10-15 The Liberal Party of South Africa was founded in 1953 to promote nonracial democratic liberalism in opposition to white supremacist apartheid Under Alan Paton it quickly moved into the extra parliamentary field and won considerable black support competing with Communism and black nationalism Growing influence brought heavy government attack and the banning of nearly 50 of its leaders black and white Despite forced dissolution in 1968 the Liberals ideas have triumphed over those of left and right in the new South Africa *Reviewing Sex* N. Tim Killick,2016-05-23 In spite of the importance of the idea of the tale within Romantic era literature short fiction of the period has received little attention from critics Contextualizing British short fiction within the broader framework of early nineteenth century print culture Tim Killick argues that authors and publishers sought to present short fiction in book length volumes as a way of competing with the novel as a legitimate and prestigious genre Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre including its appearance in magazines and annuals Killick shows how Washington Irving s hugely popular collections set the stage for British writers Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg as well as didactic short fiction by authors such as Hannah More Maria Edgeworth and Amelia Opie His book makes a convincing case for the evolution of short fiction into a self conscious intentionally modern form with its own techniques and imperatives separate from those of the novel *Good Form* Jesse Rosenthal,2019-12-10

What do we mean when we say that a novel s conclusion feels right How did feeling form and the sense of right and wrong get mixed up during the nineteenth century in the experience of reading a novel Good Form argues that Victorian readers associated the feeling of narrative form of being pulled forward to a satisfying conclusion with inner moral experience Reclaiming the work of a generation of Victorian intuitionist philosophers who insisted that true morality consisted in being able to feel or intuit the

morally good Jesse Rosenthal shows that when Victorians discussed the moral dimensions of reading novels they were also subtly discussing the genre's formal properties For most Victorian moralizing is one of the period's least attractive and interesting qualities But Good Form argues that the moral interpretation of novel experience was essential in the development of the novel form and that this moral approach is still a fundamental if unrecognized part of how we understand novels Bringing together ideas from philosophy literary history and narrative theory Rosenthal shows that we cannot understand the formal principles of the novel that we have inherited from the nineteenth century without also understanding the moral principles that have come with them Good Form helps us to understand the way Victorians read but it also helps us to understand the way we read now
