

5 Ways To Build Lasting Self-Esteem In Kids

1 GIVE CHOICES AND RESPONSIBILITIES

Offer choices (e.g., what shirt to wear). Give age-appropriate responsibilities, like chores around the house (e.g., setting the table, folding clothes, feeding the dog, making the bed).

2 PRAISE SINCERELY

Be sincere and specific with your praise. Instead of, "You're the best artist in the world!" say something like, "You're getting so good at coloring in the lines!" or, "This is a beautiful flower."

3 USE FAILURE AS AN OPPORTUNITY

Let your kids challenge themselves, make mistakes, and occasionally fail. Then make it clear that you still love them just the same. Encourage them to try again.

4 AVOID HARSH CRITICISM AND SARCASM

Avoid giving criticism in front of others and while angry. Criticize thoughtfully and gently. Explain to your kids that although you sometimes dislike their actions, you never dislike them.

5 CREATE OPPORTUNITIES FOR SUCCESS

Teach your kids to successfully do things for themselves from a young age. Focus on their strengths. Notice what they enjoy and do well, and give them opportunities to nurture these abilities.

Changing Lessons I Learned in Recovery Building Tomorrow's Biomedical Workforce: Evaluation of How Evidence-Based Training Programs Align Skill Development and Career Awareness with a Broad Array of Professions Adriana

Bankston, Rebekah L. Layton, Audra Van Wart, 2025-08-27 Building the future STEM workforce requires robust federal investments to support the next generation of innovators as well as systemic changes to enable graduate and postdoctoral researchers to transition with confidence into the biomedical workforce This effort involves the transformation of the biomedical research enterprise and training environment at all levels but especially at the predoctoral and postdoctoral levels Innovative initiatives in education and training as well as career and professional development of biomedical trainees are necessary to build upon the robust biomedical workforce of today and create and sustain a diverse innovative and highly trained biomedical workforce of tomorrow An important aspect of supporting the biomedical workforce relates to changes within training and the research enterprise with opportunities for re imagining what STEM education should look like at different levels including providing agency for junior scientists in the field The future of the field should focus on inclusivity supporting trainees from different backgrounds and with diverse perspectives including but not limited to intersectional identities in race ethnicity gender sexual orientation first generation status and international talent in STEM This requires critical policy changes in order to support the transition of biomedical research professionals into the labor market
