Lal, 2005-11-30 Texts and Contexts is concerned with the development of Pacific Islands history as a specialization in its own right Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field Thirty five texts all of which represent defining points in the development of Pacific Islands historiography are examined Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism Contributors Chris Ballard on Gavin Souter Ivan Brady on Greg Denning I C Campbell on Norma McArthur Bronwen Douglas and Doug Munro on H E Maude and Dorothy Shineberg Michael Goldsmith on Marshall Sahlins David Hanlon on Francis X Hezel K R Howe on Andrew Sharp and David Lewis Brij V Lal on K L Gillion and Peter Corris Hugh Laracy on Niel Gunson and Ta unga Lamont Lindstrom on Peter Worsley and Peter Lawrence Doug Munro on Douglas L Oliver R P Gilson J W Davidson and K R Howe Vincent O Malley on Keith Sinclair and Alan Ward Jon Osorio on Ralph Kuykendall and Gavan Daws Tom Ryan on Bernard Smith Jane Samson on W P Morrell and Deryck Scarr Francis West on Francis West and Gavan Daws Glyndwr Williams on O H K Spate *The Afterlife of Idealism* Admir Skodo, 2016-06-01 This book examines the legacy of philosophical idealism in twentieth century British historical and political thought It demonstrates that the absolute idealism of the nineteenth century was radically transformed by R G Collingwood Michael Oakeshott and Benedetto Croce These new idealists developed a new philosophy of history with an emphasis on the study of human agency and historicist humanism This study unearths the impact of the new idealism on the thought of a group of prominent revisionist historians in the welfare state period focusing on E H Carr Isaiah Berlin G R Elton Peter Laslett and George Kitson Clark It shows that these historians used the new idealism to restate the nature of history and to revise modern English history against the backdrop of the intellectual social and political problems of the welfare state period thus making new idealist revisionism a key tradition in early postwar historiography The Study of History, 2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical

The Nostalgic Imagination Stefan Collini,2019 This unusual book explores the historical assumptions at work in the style of literary criticism that came to dominate English studies in the twentieth century Stefan Collini shows how the work of critics renowned for their close attention to the words on the page was in practice bound up with claims about the nature and direction of historical change the interpretation of the national past and the scholarship of earlier historians Among the major figures examined in detail are T S Eliot F R Leavis William Empson and Raymond Williams while there are also original discussions of such figures as Basil Willey L C Knights Q D Leavis and Richard Hoggart The Nostalgic Imagination argues that in the period between Eliot s *The Sacred Wood* and Williams s *The Long Revolution* the writings of such critics came to occupy the cultural space left by academic history s retreat into specialized archive bound monographs Their work challenged the assumptions of the Whig interpretation of English history and entailed a revision of the traditional relations between literary history and general history Combining close textual analysis with wide ranging intellectual history this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural history of twentieth century Britain

parliamentary reform and free trade Enigma A New Life of Charles Stewart Parnell Paul Bew, 2011-10-21 Charles Stewart Parnell is the most enigmatic figure in Irish history An Anglo Irish landlord from a distinguished Wicklow family he became the most unlikely leader of Irish nationalism imaginable He hated the colour green He was not a dynamic speaker He was cold and aloof and lacked the popular touch None the less from the late 1870s until his fall and death in 1891 he held the whole of Ireland spellbound He established Home Rule for Ireland previously a taboo subject in British politics at the centre of Westminster affairs and effectively created the modern Irish state in embryo His fall was as dramatic as his rise The affair with Mrs Katharine O Shea the mother of his three children destroyed him Ever since his fall and his premature death in 1891 Parnell has remained a remarkably potent symbol particularly in times of crisis and conflict in Ireland The myth has obscured the man and makes it difficult for us to see Parnell as he really was Paul Bew presents a completely original interpretation of this fascinating and enigmatic man *William Morris* Peter Faulkner, Peter Preston, William Morris Society, 1999 This well illustrated book celebrates every aspect of the wide ranging achievements of William Morris writer designer cultural critic revolutionary socialist with particular emphasis on their relevance to our own times The book makes available up to date Morris scholarship in accessible form Written by a group of international scholars who took part in a conference marking the centenary of the death of Morris in 1896 the book has sections devoted to Morris and Literature covering texts from *The Earthly Paradise* to the late romances *Morris the Arts* and *Morris Gender and Politics* with fresh consideration of his relation to Victorian ideas of manliness and of the particular qualities of his anti statist politics The latter section also draws attention to a hitherto unknown play by Morris s daughter May and concludes with an account of his biographer the late E P Thompson *The Myth Of Decline* George L Bernstein, 2011-05-31 This history of Britain since 1945 confronts two themes that have dominated British consciousness during the post war era the myth of decline and the pervasiveness of American influence The political narrative is about the struggle to maintain a power that was illusory and from 1960 on to reverse an economic decline that was nearly as illusory The British economy had its problems which are fully analyzed however they were counterbalanced by an unparalleled prosperity At the same time there was a social and cultural revolution which resulted in a more exciting dynamic society While there was much American influence there was no Americanization American influences were incorporated with many others into a new and less stodgy British culture Contrary to conventional wisdom this groundbreaking book finds that the story of Britain since the war is marked not by decline but by progress on almost all fronts **Engagement with the Past** William Palmer, 2014-10-17 Arthur M Schlesinger Jr John Hope Franklin Daniel Boorstin C Vann Woodward Edmund S Morgan Barbara Tuckman Eric Hobsbawm Hugh Trevor Roper Lawrence Stone aside from carrying the distinction as some of the most successful and well respected historians of the twentieth century these scholars found their lives and careers evolving amid some of the world s pivotal historical moments Dubbed the World War II Generation the twenty two English and American historians chronicled by William Palmer grew up

in the aftermath of World War I went to college in the 1930s as the threats of the Great Depression Hitler and Communism loomed over them saw their careers interrupted by World War II and faced the prospect of nuclear annihilation They gained from their experiences the perspective and insight necessary to write definitive histories on topics ranging from slavery to revolution Engagement with the Past offers biographies of these individuals in the context of their generation's intellectual achievement Based upon extensive personal interviews and careful reading of their work Engagement with the Past is a fascinating behind the scenes look at a generation of historians and how they helped record and shape modern history

Anti-democracy in England, 1570-1642 Cesare Cuttica, 2022 Anti democracy in England 1570 1642 is a detailed study of anti democratic ideas in early modern England By examining the rich variety of debates about democracy that took place between 1570 and 1642 it shows the key importance anti democratic language held in the late Tudor and early Stuart periods In particular it argues that anti democratic critiques were addressed at popular government as a regime that empowered directly and fully the irrational uneducated dangerous commonalty it explains why and how criticism of democracy was articulated in the contexts here under scrutiny and it demonstrates that the early modern era is far more relevant to the development of democratic concepts and practices than has hitherto been acknowledged The study of anti democracy is carried out through a close textual analysis of sources often neglected in the history of political thought and by way of a contextual approach to Elizabethan Jacobean and Caroline history Most importantly the study re evaluates the role of religion and cultural factors in the history of democracy and of political ideas more generally The point of departure is at a time when the establishment and Presbyterians were at loggerheads on pivotal politico ecclesiastical and theoretical matters the end coincides with the eruption of the Civil Wars Cesare Cuttica not only places the unexplored issue of anti democracy at the centre of historiographical work on early modern England but also offers a novel analysis of a precious portion of Western political reflection and an ideal platform to discuss the legacy of principles that are still fundamental today

Political Thought and the Tudor Commonwealth Paul Fideler, Thomas Mayer, 2003-09-02 Shining new light onto an historically pivotal time this book re examines the Tudor commonwealth from a socio political perspective and looks at its links to its own past Each essay in this collection addresses a different aspect of the intellectual and cultural climate of the time going beyond the politics of state into the underlying thought and tradition that shaped Tudor policy Placing security and economics at the centre of debate the key issues are considered in the context of medieval precedence and the wider European picture
