Los Angeles, 2008 A nfase contextual na cor textura materialidade que aparecem em cada um desses destinos arquitetonicos servem de inspira o para designers de todo o mundo Los Angeles Reyner Banham, 2009-03-05 Originally published London Allen Lane 1971 **The Los Angeles House**, 2005 Arranged chronologically this stylish and elegant book presents the cream of Los Angeles s houses from all periods and styles from Frank Lloyd Wright to Frank Gehry and from Delores del Rio to Madonna Lucid text provides an intelligent explanation of the houses presented From the author of Freestyle 376 color photos National ads media By-Right, By-Design Liz Falletta, 2019-06-26 Housing is an essential but complex product so complex that professionals involved in its production namely architects real estate developers and urban planners have difficulty agreeing on good housing outcomes Less than optimal solutions that have resulted from a too narrow focus on one discipline over others are familiar high design that is costly to build that makes little contribution to the public realm highly profitable but seemingly identical cookie cutter dwellings with no sense of place and well planned neighborhoods full of generically designed unmarketable product types Differing roles languages and criteria for success shape these perspectives which in turn influence attitudes about housing regulation Real estate developers for example prefer projects that can be built as of right or by right meaning that they can be approved quickly because they meet all current planning zoning and building code requirements Design focused projects heretofore by design by contrast often require time to challenge existing regulatory codes pursuing discretionary modifications meant to maximize design innovation and development potential Meanwhile urban planners work to establish and mediate the threshold between by right and by design processes by setting housing standards and determining appropriate housing policy But just what is the right line between by right and by design By Right By Design provides a historical perspective conceptual frameworks and practical strategies that cross and connect the diverse professions involved in housing production The heart of the book is a set of six cross disciplinary comparative case studies each examining a significant Los Angeles housing design precedent approved by variance and its associated development type approved as of right Each comparison tells a different story about the often hidden relationships among the three primary disciplines shaping the built environment some of which uphold and others of which transgress conventional disciplinary stereotypes **Los Angeles Today** Tim Street-Porter, 2021-02-09 The time is right for a fresh look at this incomparable sunny city Longtime Angeleno Tim Street Porter chronicles today s vibrant buildings coastline and gardens of this glamorous global metropolis Visit Los Angeles with a photographer who knows how to get the lighting right to highlight the spectacular architecture of the city Stylish museums such as the Broad and a flourishing Arts District illustrate the explosive art scene while Hollywood s Chateau Marmont and the historic Beverly Hills neighborhood add a chic dynamism Across town Culver City home to the tech industry features blocks of futuristic architecture by Eric Owen Moss The modernist homes by Richard Neutra and John Lautner as well as Frank Lloyd Wright s Hollyhock House are shown
