Contact and Symplectic Topology Frédéric Bourgeois,Vincent Colin,András Stipsicz,2014-03-10 Symplectic and contact geometry naturally emerged from the mathematical description of classical physics The discovery of new rigidity phenomena and properties satisfied by these geometric structures launched a new research field worldwide The intense activity of many European research groups in this field is reflected by the ESF Research Networking Programme Contact And Symplectic Topology CAST The lectures of the Summer School in Nantes June 2011 and of the CAST Summer School in Budapest July 2012 provide a nice panorama of many aspects of the present status of contact and symplectic topology The notes of the minicourses offer a gentle introduction to topics which have developed in an amazing speed in the recent past These topics include 3 dimensional and higher dimensional contact topology Fukaya categories asymptotically holomorphic methods in contact topology bordered Floer homology embedded contact homology and flexibility results for Stein manifolds

Uses of Technology in Primary and Secondary Mathematics Education Lynda Ball,Paul Drijvers,Silke Ladel,Hans-Stefan Siller,Michal Tabach,Colleen Vale,2018-05-14 This book provides international perspectives on the use of digital technologies in primary lower secondary and upper secondary school mathematics It gathers contributions by the members of three topic study groups from the 13th International Congress on Mathematical Education and covers a range of themes that will appeal to researchers and practitioners alike The chapters include studies on technologies such as virtual manipulatives apps

custom built assessment tools dynamic geometry computer algebra systems and communication tools Chiefly focusing on teaching and learning mathematics the book also includes two chapters that address the evidence for technologies effects on school mathematics The diverse technologies considered provide a broad overview of the potential that digital solutions hold in connection with teaching and learning The chapters provide both a snapshot of the status quo of technologies in school mathematics and outline how they might impact school mathematics ten to twenty years from now **Foundational**

Contact Topology Hansjörg Geiges,2008-03-13 This text on contact topology is a comprehensive introduction to the subject

including recent striking applications in geometric and differential topology Eliashberg's proof of Cerf's theorem via the classification of tight contact structures on the 3 sphere and the Kronheimer Mrowka proof of property P for knots via symplectic fillings of contact 3 manifolds Starting with the basic differential topology of contact manifolds all aspects of 3 dimensional contact manifolds are treated in this book One notable feature is a detailed exposition of Eliashberg's classification of overtwisted contact structures Later chapters also deal with higher dimensional contact topology Here the focus is on contact surgery but other constructions of contact manifolds are described such as open books or fibre connected sums This book serves both as a self contained introduction to the subject for advanced graduate students and as a reference for researchers

How the Math Gets Done Catheryne Draper, 2017-10-20 How the Math Gets Done Why Parents Don't Need to Worry About New vs Old Math provides a roadmap to understanding what the symbols for math operations add subtract multiply and divide really mean what the clues are to interpret these symbols and a kind of short story of how they evolved over time to decipher the enigmatic squiggles of those verbs called operations How the Math Gets Done Why Parents Don't Need to Worry About New vs Old Math compares the old and the new methods for math procedures from a Big Idea perspective by organizing the information in four sections Definition Organization Relationships and Patterns and Connections Each section contains three chapters that clarify the issues related to each Big Idea section The Conclusion offers parents even more hints and guidelines to help their child through this math country of procedures for calculating in math
